Christina Fox

Development Discourses Prasenjit Maiti, 2005 This Collection Of Essays Seeks To Explore Common Lessons From Political Sociology And Development Studies And In This Process Tries To Resolve The Tension Between The Author S Academic And Practitioner Worldviews. The Author Has Tried To Highlight One Principal Concern In This Volume That Development Is More Often Than Not A Multicultural Construct Of Everyday Politics That Is Context-Bound And Predicated By Statements Of Informed Choices On The Part Of The Stakeholders And/Or Beneficiaries Involved. So Development Is More About Who Gets What, When, How, Where And Why In Terms Of An Authoritative Allocation Of Values That Is Underpinned By Definitions Of Stakeholders Or Beneficiaries Or Affected Persons. Such Definitions Are Power Statements That Are Scripted By Agencies That Generally Tend To View Development As An Unevenness That May Be Restructured In Terms Of Human And Physical Engineering As A Level Playing Ground Where Players Are Equipped With Uniform Access To Resources And Similar Opportunities. This Is, However, A Contentious Issue Without Any Simple Answers. Such An Interventionist Approach May Not Always Be Sponsored By The Mode Of Production Or The Marketplace Of Politics That By Definition Thrives On Discrepancies And Discriminations Among Unequally Affected Persons. The Present Work Will Be Of Interest To Political Sociologists, Economic And Social Historians, Development Consultants, Non-Profit Professionals, Social Workers, Grassroots Activists, Urban Planners, Academics As Well As Researchers Working In The Development Sector.

Urban Development Debates in the New Millennium Kulwant Rai Gupta, 2004 This Collection Of Essays By Academics And Practitioners From Around The World Underscores Issues And Concerns Of Sustainable Urban Development And Best Practices In Terms Of Theory As Well As Praxes. Contributors Have Made An Attempt To Critically Reconcile The Hypothetical With The Applied In Order To Arrive At Innovative Solutions For Urban Good Governance In The Context Of The Steady Proliferation Of Habitats And Conurbations All Over The World. Their Papers More Often Than Not Transcend Regional Specifics To Address The Common Agenda Of Urban Development Debates As Informed By Assorted Modernization Perspectives In The 21st Century. This Volume Brings Together Social Scientists, Development Consultants And Non-Profit Professionals So That The Multipositional Theories And Multicultural Praxes Might Be Reflected In Their Papers Based On Empirical Research And Field-Level Insights. It Is Expected That This Volume Will Provoke Fresh Debates And New Ideas That Will Facilitate Theory-Building As Well As Formulation Of Paradigms For Good Practices And

*Business Performance Measurement and Management* Paolo Taticchi,2010-01-22 Measuring and managing the performance of a business is one of the most genuine desires of management. Balanced scorecard, the performance prism and activity-based management are the most popular frameworks in this setting. Based on the findings of R.G. Eccles' acclaimed Performance Measurement Manifesto (1991) this book introduces new contexts and themes of application and presents emerging research areas related to business performance measurement and management, e.g. SMEs and sustainability. As a result of the 1st International Summer School Piero Lunghi on Perspectives of Business Performance Management this book is written both for students and academics, as well as for practitioners looking for new, yet proven ways to measure and manage business performance.

## **Religion, Nation and Democracy in the South Caucasus** Alexander Agadjanian,Ansgar

Jödicke,Evert van der Zweerde,2014-10-10 This book explores developments in the three major societies of the South Caucasus – Armenia, Azerbaijan and Georgia – focusing especially on religion, historical traditions, national consciousness, and political culture, and on how these factors interact. It outlines how, despite close geographical interlacement, common historical memories and inherited structures, the three countries have deep differences; and it discusses how development in all three nations has differed significantly from the countries' declared commitments to democratic orientation and European norms and values. The book also considers how external factors and international relations continue to impact on the three countries.

By giving examples of such fear in the Bible, exploring the fruits of that fear in our lives, and uncovering God's promises to those who fear Him, this book will help you disarm your lesser fears, applying what you learn to your heart and turning to a fear of the Lord. Table of Contents: 1. A Fear-Filled Life 2. Fear the Lord 3. Fear the Lord for Who He Is 4. Fear the Lord for What He Has Done 5. Growing in the Fear of the Lord 6. The Fruit of Holy Fear 7. **The Audubon Price Guide Book** Ron Flynn,2008-01-11 Do you know what your John James Audubon bird and mammal prints are worth? Do you even know if they are authentic or cheap reproductions? Noted Audubon expert, Ron Flynn, has researched and compiled this important reference resource for the Audubon collector. Information about each Audubon edition is given in individual chapters, along with detailed Price Guide tables with market values for every print in the following original antique Audubon editions: Havell, Bien, Imperial Folio, Octavo Birds and Octavo Quads, plus the modern Amsterdam, Abbeville, Leipzig and Loates Editions. Realized eBay auction prices are included in the Price Guides for those editions commonly sold on that Internet site. Finally, there are chapters covering: matting and framing, print storage and care, and print conservation and restoration.

Sinha,Samuel Labi,2011-09-09 This pioneering text provides a holistic approach to decisionmaking in transportation project development and programming, whichcan help transportation professionals to optimize their investmentchoices. The text's logical organization gets readers started with asolid foundation in basic principles and then progressively buildson that foundation. Topics covered include: Developing performance measures for evaluation, estimatingtravel demand, and costing transportation projects Performing an economic efficiency evaluation that accounts forsuch factors as travel time, safety, and vehicle operatingcosts Evaluating a project's impact on economic development and landuse as well as its impact on society and culture Assessing a project's environmental impact, including airquality, noise, ecology, water resources, and aesthetics Evaluating alternative projects on the basis of multipleperformance criteria Programming transportation investments so that resources can beoptimally allocated to meet facility-specific and system-widegoals Each chapter begins with basic definitions and concepts followedby a methodology for impact assessment. With exercises in every chapter, this text is an ideal coursebook for the subject of transportation systems analysis and evaluation.

The contributors to this volume examine theories and interpretations relating to writing and studying diaries; the formation of diary canons in the United Kingdom, France, United States, and Brazil; and the ways in which handwritten diaries are transformed through processes of publication and digitization. The authors also explore different diary formats, including the travel diary, the private diary, conflict diaries written during periods of crisis, and the diaries of the digital era, such as blogs. *The Diary* offers a comprehensive overview of the genre, synthesizing decades of interdisciplinary study to enrich our understanding of, research about, and engagement with the diary as literary form and historical documentation.

**After the Financial Crisis** Pablo Iglesias-Rodriguez,Anna Triandafyllidou,Ruby Gropas,2016-10-14 This international collection studies how the financial crisis of 2007 and the ensuing economic and political crises in Europe and North America have triggered a process of change in the field of economics, law and politics. Contributors to this book argue that both elites and citizens have had to rethink the nature of the market, the role of the state as a market regulator and as a provider of welfare, the role of political parties in representing society's main political and social cleavages, the role of civil society in voicing the concerns of citizens, and the role of the citizen as the ultimate source of power in a democracy but also as a fundamentally powerless subject in a global economy. The book studies the actors, the areas and the processes that have carried forward the change and proposes the notion of 'incomplete paradigm shift' to analyse this change. Its authors explore the multiple dimensions of paradigm shifts and their differentiated evolution, arguing that today we witness an incomplete paradigm shift of financial regulations, economic models and welfare systems, but a stillbirth of a new political and economic paradigm.
