Entanglements of the Maghreb Julius Dihstelhoff,Charlotte Pardey,Rachid Ouaisa,Friederike Pannewick,2021-09-30 The impulse for the recent transformations in the Arab world came from the Maghreb. Research on the region has been on the rise since, yet much remains to be done when it comes to interdisciplinary comparative research. The Maghreb is a heterogeneous region that deserves thorough investigation. This volume focuses on Entanglements as a cross-field and cross-lingual concept to generate a new approach to the region and its inner interdependencies as well as exchanges with other regions. Eminent researchers conceptualize Entanglements through the description of various thematic fields and actors in motion, addressing culture, politics, social affairs, and economics.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the

twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
