Of War and Men Ralph LaRossa,2011-06-01 Fathers in the fifties tend to be portrayed as wise and genial pipe-smokers or distant, emotionless patriarchs. This common but limited stereotype obscures the remarkable diversity of their experiences and those of their children. To uncover the real story of fatherhood during this transformative era, Ralph LaRossa takes the long view—from the attack on Pearl Harbor up to the election of John F. Kennedy—revealing the myriad ways that World War II and its aftermath shaped men. Offering compelling accounts of people both ordinary and extraordinary, *Of War and Men* digs deep into the terrain of fatherhood. LaRossa explores the nature and aftereffects of combat, the culture of fear during the Cold War, the ways that fear altered the lives of racial and sexual minorities, and how the civil rights movement affected families both black and white. Overturning some calcified myths, LaRossa also analyzes the impact of suburbanization on fathers and their kids, discovering that living in the suburbs often strengthened their bond. And finally, looking beyond the idealized dad enshrined in TV sitcoms, *Of War and Men* explores the brutal side of family life in the postwar years. LaRossa's richly researched book dismantles stereotypes while offering up a fascinating and incisive chronicle of fatherhood in all its complexity.

Pensees Blaise Pascal,2003-05-29 Blaise Pascal, the precociously brilliant contemporary of Descartes, was a gifted mathematician and physicist, but it is his unfinished apologia for the Christian religion upon which his reputation now rests. The *Pensees* is a collection of philosophical fragments, notes and essays in which Pascal explores the contradictions of human nature in psychological, social, metaphysical and - above all - theological terms. Mankind emerges from Pascal's analysis as a wretched and desolate creature within an impersonal universe, but who can be transformed through faith in God's grace.

Freyermuth's introduction outlines the media-historical development phases of analog and digital games, the history and artistic practices of game design, as well as the history, academic approaches, and most important research topics of game studies.

Why We Play Roberte Hamayon,2016 Play is one of humanity's straightforward yet deceitful ideas: though the notion is unanimously agreed upon to be universal, used for man and animal alike, nothing defines what all its manifestations share, from childish playtime to on stage drama, from sporting events to market speculation. Within the author's anthropological field of work (Mongolia and Siberia), playing holds a core position: national holidays are called Games, echoing in that way the circus games in Ancient Rome and today's Olympics. These games convey ethical values and local identity. Roberte Hamayon bases her analysis of the playing spectrum on their scrutiny. Starting from fighting and dancing, encompassing learning, interaction, emotion and strategy, this study heads towards luck and belief as well as the ambiguity of the relation to fiction and reality. It closes by indicating two features of play: its margin and its metaphorical structure. Ultimately revealing its consistency and coherence, the author displays play as a modality of action of its own. Playing is no 'doing' in the ordinary sense once wrote Johan Huizinga. Isn't playing doing something else, elsewhere and otherwise ?

Gaming Rhythms Tom Apperley,2011-06-16 Global gaming networks are heterogenous collectives of localized practices, not unified commercial products. Shifting the analysis of digital games to local specificities that build and perform the global and general, Gaming Rhythms employs ethnographic work conducted in Venezuela and Australia to account for the material experiences of actual game players. This book explores the materiality of digital play across diverse locations and argues that the dynamic relation between the everyday life of the player and the experience of digital game play can only be understood by examining play-practices in their specific situations. -- Website.
