*Beyond Traditional Marketing* Kamran Kashani,Jean-Pierre Jeannet,Jacques Horovitz,Sean Meehan,Adrian Ryans,Dominique Turpin,John Walsh,2005-09-27 This book aims to be what every marketing manager needs to know about marketing in today's competitive markets. The idea was born out of repeated comments from IMD clients that there were gaps in the 'classic' literature where innovations in practice had moved ahead of the discipline at an academic level. Each chapter takes a subject that can be defined as being new or relatively new (for instance value chain marketing, marketing through collaboration with customers, and two-way brand building) and illustrates how new thinking has led to innovations in practice. The book is full of examples of real-world companies who have dealt effectively with the emerging issues, and others who have not. Each chapter ends with managerial highlights and actionable summaries.

Assistive Technology: From Research to Practice P. Encarnação,L. Azevedo,G.J. Gelderblom,2013-09-09 Assistive Technology (AT) is an umbrella term indicating any product or technology-based service that enables people of all ages with activity limitations in their daily life, education, work or leisure. It is a highly interdisciplinary field, encompassing research, development, manufacture, supply, provision and policy. This book presents the proceedings of the 12th biennial European conference of the Association for the Advancement of Assistive Technology in Europe, AAATE 2013, held in Vilamoura, Portugal, in September 2013. The full papers included here cover a diverse range of subjects, including: ageing, disability and technology; accessibility in Europe; ambient assisted living; AT and Cloud computing; communication access for all; monitoring and telecare; and user perspective, to name but a few. The aim of the AAATE conference is to promote a more effective dialogue between manufacturers, researchers, developers, professionals and end users, and this book will be of interest to all those directly or indirectly involved in the field of AT.

**Pirates of Pensacola** Keith Thomson,2005-04 The Cooke and Hood families have been at each other's throats since the Spanish Main days. The latest chapter in their piratic rivalry takes place in 2004, when an old treasure map turns up. None of this seems to matter to Morgan Cooke, a cowardly, landlubbing accountant entirely ignorant of his heritage until his estranged father, Isaac, in need of crewmen, kidnaps him and thrusts him into the fray. When Morgan wakes up on a boat in the middle of the Caribbean, he learns that piracy still flourishes, albeit with far more discretion than in the old days--pirates disguise their fast boats as shrimpers or tugs--but with no less bloodshed. Judging even a shot at riches vastly preferable to a return to his lonely, fluorescent-lit work station existence, Morgan pierces his ear, dons the eye patch and peg leg, and set sail for glorious adventure.
