**Neoliberal Parliamentarism** Tom McDowell, 2021-11-01 In *Neoliberal Parliamentarism*, Tom McDowell provides an alternative approach to understanding the decline of parliament at the Ontario legislature, an approach that highlights the politics of neoliberalism and the significant impact it has had over the last four decades. McDowell offers a structural critique of parliament, claiming that restrictions on the legislature cannot be separated from the ascendance of neoliberalism as the dominant social and policy paradigm in the province. Tracking the evolution of procedure at the Ontario Legislature from 1981 to 2021, McDowell shows that, beginning in the early 1980s, the establishment of increasingly restrictive procedural rules was critical in securing the passage of controversial neoliberal restructuring policies. Further, he argues that the decades-long shift towards de-democratization and the concentration of political power in the executive ought to be understood in the context of neoliberalism's rejection of parliamentary sovereignty and legal positivism. As an in-depth study of the implementation of neoliberalism policy on the political apparatus of Ontario, *Neoliberal Parliamentarism* is critical reading for scholars and students interested in the relationship between neoliberalism and de-democratization, the politics of Ontario, and parliamentary procedure more broadly.

**Achieving Airport-compatible Land Uses and Minimizing Hazardous Obstructions in Navigable Airspace** Jocelyn Waite, 2012 This report discusses airport compatible land use requirements, the legal issues related to achieving airport compatible land use, and legal issues particular to eliminating hazardous obstructions to airspace. The report concludes by reviewing the major legal issues of concern in achieving airport-compatible land use. While general legal principles relevant to airport land use are well established, they are often applied on a case by case basis, particularly in the context of regulatory takings and inverse condemnation. This ad hoc analysis introduces, if not an element of unpredictability, at least some variation in the law by jurisdiction. The need for greater predictability highlights the significance of including airport zoning as part of comprehensive land use planning. This report should be helpful to airport administrators, attorneys, board members, financial officers, community members in the vicinity of airports, realtors, and city and county zoning officials.

**Biodiesel** Greg Pahl, 2008 For anyone who is trying to keep up with the extremely rapid developments in the biodiesel industry, the second edition of *Biodiesel: Growing a New Energy Economy* is an invaluable aid. The breathtaking speed with which biodiesel has gained acceptance in the marketplace in the past few years has been exceeded only by the proliferation of biodiesel production facilities around the United States--and the world--only to confront new social and environmental challenges and criticisms. The international survey of the biodiesel industry has been expanded from 40 to more than 80 countries, reflecting the spectacular growth of the industry around the world. This section also tracks the dramatic

shifts in the fortunes of the industry that have taken place in some of these nations. The detailed chapters that cover the industry in the United States have also been substantially rewritten to keep abreast of its many new developments and explosive domestic growth. An expanded section on small-scale, local biodiesel production has been added to better represent this small but growing part of the industry. Another new section has been added to more fully explore the increasingly controversial issues of deforestation and food versus fuel, as well as GMO crops. The second edition concludes with updated views on where the industry is headed in the years to come from some of its key players.

*China in the Twenty-First Century* S. Hua, S. Guo, 2007-08-20 In this edited volume, leading scholars from US and China analyze the challenges and opportunities for China in the 21st century, each emphasizing particular dimensions of politics, economics, political culture, and foreign policy. Issues examined include: social harmony and statecraft , media and political culture, and legality in foreign trade.

*Israel's 70th Anniversary: Insights and Perspectives* Regina Polak, 2020-09-07 The aim of the volume is to offer interdisciplinary insights unknown to many into the interior of the religious, cultural and political laboratory that is Israel. Europe can learn a lot from Israel: The handling of religious diversity within the country; the meaning of the Hebrew language; the integration of more than a million Jewish immigrants; the development of a dynamic economy; a flourishing education and science system; a rich culture in the field of literature and above all film; and last but not least the lively, constant and conflictual struggle for democracy. Additionally, the question of Israel-related anti-Semitism is debated from the perspective of Jewish studies, social sciences and Catholic theology.

Because They Hate Brigitte Gabriel, 2008-01-08 Brigitte Gabriel lost her childhood to militant Islam. In 1975 she was ten years old and living in Southern Lebanon when militant Muslims from throughout the Middle East poured into her country and declared jihad against the Lebanese Christians. Lebanon was the only Christian influenced country in the Middle East, and the Lebanese Civil War was the first front in what has become the worldwide jihad of fundamentalist Islam against non-Muslim peoples. For seven years, Brigitte and her parents lived in an underground bomb shelter. They had no running water or electricity and very little food; at times they were reduced to boiling grass to survive. *Because They Hate* is a political wake-up call told through a very personal memoir frame. Brigitte warns that the US is threatened by fundamentalist Islamic theology in the same way Lebanon was— radical Islam will stop at nothing short of domination of all non-Muslim countries. Gabriel saw this mission start in Lebanon, and she refuses to stand silently by while it happens here. Gabriel sees in the West a lack of understanding and a

blatant ignorance of the ways and thinking of the Middle East. She also points out mistakes the West has made in consistently underestimating the single-mindedness with which fundamentalist Islam has pursued its goals over the past thirty years. Fiercely articulate and passionately committed, Gabriel tells her own story as well as outlines the history, social movements, and religious divisions that have led to this critical historical conflict.
