India in the Indo-Pacific Aditi Malhotra,2022-06-13 In view of the fast-changing world order, emerging countries are increasingly influencing the dynamics of regional securities. This timely and in-depth book examines India's reorienting strategic posture and describes how New Delhi's security policy in the Indo-Pacific region has evolved and expanded over the past two decades. The author argues that India's quest to leverage its geostrategic location to emerge as an Indo-Pacific actor faces multiple challenges, which create a clear divide between the country's political rhetoric and action on the ground. The author critically examines these contradictions to better situate India's security role in an increasingly fluid Indo-Pacific region.

It examines the various steps taken towards harmonization in various contexts, the suitability of the country for EU accession, and the political problems surrounding the Cypriot EU accession. Constantin Stefanou also broadens the scope to consider the wider issues surrounding EU accession negotiations for applicant countries, especially with reference to the new and untested EU guidelines. The volume will be of great value to those interested in Europe and the European Union in general, and European Law and the development of Cyprus in particular.

*RAF Evaders* Oliver Clutton-Brock,2009 During the five years from May 1940 to May 1945 several thousand Allied airmen, forced to abandon their aircraft behind enemy lines, evaded capture and reached freedom by land, sea and air. Here is an in-depth look at this secret world of evasion, uncovering some treachery and many hitherto unpublished details, operations and photos.

**India and China in Asia** Jagannath P. Panda,2019-04-08 This book analyses the structure of the India-China relationship and the two prominent powers' positions with and against each other, bilaterally and globally, in a complex Asian environment and beyond. India and China's perceptions of one another are evaluated to reveal how the order of Asia is influenced by engaging in different power equations that affect equilibrium and disequilibrium. Contributors address three critical perspectives of India and China in Asia which are increasingly shaping the future of Asia and impacting the Indo-Pacific power balance. First, they examine the mutual perceptions of India and China as an integral part of Asia's evolving politics and the impact of this on the emerging Asian order and disorder. Second, they assess how classical and contemporary characteristics of the India-China boundary and beyond-border disputes or conflicts are shaping Asia's political trajectory and leaving an impact on the Indo-Pacific region. Additionally, contributors observe the prevailing power equations in which India and China are currently engaged to reveal that they are not only geographically limited to the Asian region. Instead, having a strong global or intercontinental character attached to it, the India-China relationship involves extra-territorial powers and extra-territorial regions. This book will be of interest to academics, students and policymakers working on Asian studies, international relations, area studies, emerging powers studies, strategic studies, security studies and conflict studies.

*Conflict and Cooperation in the Indo-Pacific* Ash Rossiter,Brendon J. Cannon,2020-04-15 This book explores the most important strategic questions about the emerging Indo-Pacific region by offering an incisive analysis on the current and future patterns of competition and cooperation of key nations in the region. Examining emerging policies of cooperation and conflict adopted by Indo-Pacific states in response to a rising China, the book offers insights into the evolving Indo-Pacific visions and strategies being developed in Japan, India, Australia and the US in reaction to shifting geopolitical realities. The book provides evidence of geopolitical advances in what some see as a spatially coherent maritime zone stretching from the eastern Pacific to the western Indian Ocean, including small island states and countries that line its littoral. It also analyzes the development and operationalization of Indo-Pacific policies and strategies of various key nations. Contributors provide both macro and micro perspectives to this critically significant topic, offering insights into the grand strategies of great powers as well as case studies ranging from the Philippines to the Maldives to Kenya. The book suggests that new rivalries, shifting alliances and economic ebbs and flows in the Indo-Pacific will generate new geopolitical realities and shape much else beyond in the twenty-first century. A timely contribution to the rapidly expanding policy and scholarly discussions about what is likely to be the defining region for international politics for coming generations, the book will be of interest to policymakers as well as students and academics in the fields of International Relations, Foreign Policy, Security Studies, Diplomacy and International Law, East and South Asian Studies, East African Studies, Middle East Studies, and Australian Studies.

**The Future of Health Economics** Olivier Ethgen,Ulf Staginnus,2016-10-14 The pharmaceutical industry faces a well-documented perfect storm: on the one hand, the patent cliff; the lack of new blockbusters and, on the other, economic pressure on pricing from markets with growing expectations and shrinking budgets. In the face of such pressure, traditional health economics models no longer seem appropriate and yet what do we have to replace them? The growing focus on 'value' and 'cost effectiveness' are evidence of new emerging thinking although, even here, with the shift from medicine as cure to medicine as palliative, as a treatment for chronic illness and with the growing emphasis on preventative approaches,

the landscape is complex and challenging. The Future of Health Economics offers a window into some of the most influential emerging issues in pharmacoeconomics; issues such as risk-sharing and alternative pricing models or the potential impact of radical new approaches such as personalized medicine; as well as exploring the changing role of government and regulators. Ulf Staginnus and Olivier Ethgen, themselves two of the most well-regarded practitioners in this field, have brought together some leading-edge thinkers from industry and academia around the world to provide the industry, policy-makers, regulators, health practitioners and academics with the raw material for their future scenarios.
