**Handbook of Neuroemergency Clinical Trials** Wayne M. Alves, Brett E. Skolnick, 2006-01-18 During the 1990's, scientific advances in understanding the mechanisms and pathophysiology of acute central nervous system injury were offset by a history of disappointing results from Phase III clinical trials of novel neuroprotective drugs. Numerous novel compounds were "tested, and seemingly fell by the wayside. This book is intended to focus on novel therapies and the unique challenges their intended targets pose for the design and analysis of clinical trials. The authors explore the issues facing research in this area and the strategies that might lead to future success in this critical area of unmet medical need. It represents a compendium of

information gained from over 20 years of clinical trial experience in areas of acute neurology and neurosurgery. From the knowledge of clinical assessment using standardized tools, to the intricate design of difficult hyper-acute neuroemergencies trials, the reader will benefit from the authors' perspectives. \* Presents new perspectives on acute neuroemergency clinical trials \* Includes insights from clinical pharmacology and industry perspectives \* Discusses historical lessons learned from early and recent trials in acute neuroscience populations

*Abuse in the Latin American Church* Véronique Lecaros, Ana Lourdes Suárez, 2024-04-01 This book addresses the crisis of sexual abuse in the Roman Catholic Church in Latin America, the region of the world with the highest percentage of Catholics. Bringing together research from across the continent, it demonstrates that abuse within the Church is indeed a global phenomenon, though abuses have taken different forms according to varying sociocultural contexts. With attention to abuses committed against children, women and vulnerable adults – by both men and women – within the settings of parishes, new religious movements and international religious organizations, it also raises questions of justice, asking how to assess the suffering of victims, how to deal with abusers and how to prevent abuses. It will therefore be of interest to scholars of religious studies, sociology, Latin American studies, criminology, theology, and religious leaders with interests in the abuses and scandals that have been revealed in the worldwide Church.
