Bong Hits 4 Jesus James C. Foster,2010-10-15 In January 2002, for the first time, the Olympic Torch Relay visited Alaska on its way to the Winter Games. When the relay runner and accompanying camera cars passed Juneau-Douglas High School, senior Joseph Frederick and several friends unfurled a fourteen-foot banner reading BONG HiTS 4 JESUS. An in-depth look at student rights within a public high school, this book chronicles the events that followed: Frederick's suspension, the subsequent suit against the school district, and, ultimately, the escalation of a local conflict into a federal case. Brought to life through interviews with the principal figures in the case, Bong Hits 4 Jesus is a gripping tale of the boundaries of free speech in an American high school.

Everyone's Guide to Cancer Survivorship Ernest Rosenbaum,Holly Gautier,2011-10-01 This book was written both for survivors and health professionals, some of whom are cancer survivors, too. Our goal is to provide you with a survivor's road map. --Dr. Ernest H. Rosenbaum * More than 30 medical professionals reveal insights on surviving cancer to empower cancer survivors and their caregivers, as well as the doctors who manage their continued care. The CDC's National Action Plan for Cancer Survivorship estimates that there are 9.6 million persons living following a cancer diagnosis. And this number is strictly related to patients. It does not include family members, friends, or caregivers. For anyone approaching life from the perspective of remission, respected oncologist Dr. Ernest Rosenbaum leads a team of 34 oncology specialists and medical contributors--some of whom are both doctors and survivors themselves--in creating a guide specifically geared for cancer survivorship. The growing number of people approaching life post-cancer will find solace, understanding, and opportunity with information specifically geared to managing the lingering effects of cancer treatment, such as: * Lifestyle changes to improve health and longevity * What survivors need to know following anticancer therapy * How to manage the side effects of chemotherapy and radiation therapy * How to set goals for the future

The Medicine Cabinet of Curiosities Nicholas Bakalar, 2009-07-21 Delightful doses of medical miscellany about wacky doctors and their curious patients, from their smallest bones (the stapes) to their heaviest organs (the liver) In this addictive collection of trivia, Nicholas Bakalar, the Vital Signs columnist for The New York Times, spoons out the things you never realized you really want to know about your body and your health. Bakalar shares the wonders of medicine, from medical firsts (in 1667, the first survivor of a blood transfusion received sheep's blood) to medical onlys (rabies is the only infectious disease that is 100 percent curable when treated and 100 percent fatal if not). He takes a tour of diseases that belong in horror movies: liquefying organs, flesh-eating bacteria, mushrooms sprouting in the throat. He notes remarkable remedies, such as dark chocolate, which can stand in for blood-pressure pills. And he dissects the chemistry of the human body (including the 0.00000000000000015259 percent that is radium). With a specialist's attention to the funny bone as well as the gray matter, Bakalar's *The Medicine Cabinet of Curiosities* tickles the curiosity of both the healthy and the hypochondriac, following Voltaire's dictum that the art of medicine consists of amusing the patient while nature cures the disease.
