The New OPL Sourcebook Judith A. Siess, 2006 This updated and expanded edition of the essential guide for small and one-person libraries (OPLs) covers virtually every key management topic of interest to OPLs. In addition to offering a wealth of practical tips, strategies, and case studies, author Judith Siess takes an international perspective that reflects the growing number of OPL's worldwide. The book's in-depth directory section lists important organizations, publications, vendors and suppliers, discussion lists, and Web sites.

Managing Cover Crops Profitably (3rd Ed.) Andy Clark, 2008-07 Cover crops slow erosion, improve soil, smother weeds, enhance nutrient and moisture availability, help control many pests and bring a host of other benefits to your farm. At the same time, they can reduce costs, increase profits and even create new sources of income. You'll reap dividends on your cover crop investments for years, since their benefits accumulate over the long term. This book will help you find which ones are right for you. Captures farmer and other research results from the past ten years. The authors verified the info. from the 2nd ed., added new results and updated farmer profiles and research data, and added 2 chap. Includes maps and charts, detailed narratives about individual cover crop species, and chap. about aspects of

cover cropping.

India's Naval Diplomacy P.V. Rao, 2022-05-16 This book studies India's evolving naval engagements with other nations of the Indian Ocean region. It traces the growth of the Indian Navy and discusses its role as an instrument of meeting national objectives, particularly for furthering foreign policy. The volume analyses themes such as Indian Navy's (IN) transition from a brown water to blue water force, Indian maritime debates and doctrines, naval 'bridge-building' missions, and Sino-Indian maritime competitions. It examines Indian Navy's regional roles within the broader framework of its diplomatic objectives in particular regions and looks at how keen regional states are to accept India as a crisis manager and would allow it to build a regional maritime security architecture. The author also discusses state control over naval diplomatic roles and investigates if Indian Navy can effectively hedge extra-regional, mainly Chinese, involvement in the Indian Ocean. An important study of India's naval prowess, this book will be indispensable to students and researchers of political science, international relations, maritime and naval studies, strategic studies, geopolitics, defence studies, conflict studies, diplomacy, Indian Ocean studies, South Asian studies and those interested in India-China maritime rivalry.

Think Bayes Allen B. Downey, 2021-05-18 If you know how to program, you're ready to tackle Bayesian statistics. With this book, you'll learn how to solve statistical problems with Python code instead of mathematical formulas, using discrete probability distributions rather than continuous mathematics. Once you get the math out of the way, the Bayesian fundamentals will become clearer and you'll begin to apply these techniques to real-world problems. Bayesian statistical methods are becoming more common and more important, but there aren't many resources

available to help beginners. Based on undergraduate classes taught by author Allen B. Downey, this book's computational approach helps you get a solid start. Use your programming skills to learn and understand Bayesian statistics Work with problems involving estimation, prediction, decision analysis, evidence, and Bayesian hypothesis testing Get started with simple examples, using coins, dice, and a bowl of cookies Learn computational methods for solving real-world problems

The Prescribing Pharmacist Dr Barry Strickland-Hodge, Dr Mary-Claire Kennedy, 2019-08-02 Prescribing has traditionally been the responsibility of medical doctors but independent prescribing courses are now firmly established in the UK and increasing numbers of healthcare professionals have taken on prescribing responsibilities. The Prescribing Pharmacist reflects these changes, beginning with an overview of pharmacist prescribing and continuing with an exploration of consultation, patient clinical assessment, team working, and understanding cultural and religious issues and ethics. Internal and external influences on the new prescriber are considered, as well as medicines optimisation. The authors also look at prescribing for specific patient groups, such as the elderly, the very young, pregnant women and breast-feeding women, and finally move on to specific medicines that require special care when prescribing. Each chapter of the book refers and links to the Royal

Pharmaceutical Society framework written in 2016, A Competency Framework for All Prescribers, which is reproduced, with permission. Written by a team of pharmacy experts, this book is intended for any pharmacist who is thinking of becoming an independent prescriber, those on pharmacy courses and those who are already qualified as independent or supplementary pharmacist prescribers, who may use it as a reminder of important points covered on their course. Contents include: • List of abbreviations • An introduction to pharmacist prescribing • The consultation, diagnostic process, diagnosis and influences on prescribing • Patient clinical assessment • Patient partnership and prescribing • Prescribing for specific groups of patients • Medicines requiring particular care when prescribing • Appendix 1: A Competency Framework for All Prescribers

Communication Skills and Challenges in Medical Practice, An Issue of Medical Clinics of North America, E-Book Heather Hofmann, 2022-06-23 In this issue of Medical Clinics of North America, guest editor Dr. Heather Hofmann brings her considerable expertise to the topic of Communication Skills and Challenges in Medical Practice. Communication is a core part of medical practice, and just as physicians increase their knowledge and hone clinical reasoning skills, so too must communication skills be refined. This issue provides an evidence-based review of patient-centered communication for the general practitioner, covering key communications skills commonly used in patient encounters, including challenges posed by modern medicine to effective communication. Contains 15 relevant, practice-oriented topics including addressing the challenges of cross-cultural communication; gender and health communication; eliciting the patient narrative; motivating behavioral change; breaking bad news; using technology to enhance communication; and more. Provides in-depth clinical reviews on communication skills and challenges in medical practice, offering actionable insights for clinical practice. Presents the latest information on

this timely, focused topic under the leadership of experienced editors in the field. Authors synthesize and distill the latest research and practice guidelines to create clinically significant, topic-based reviews.

Fingerprints and Other Ridge Skin Impressions

Christophe Champod, Chris J. Lennard, Pierre Margot, Milutin Stoilovic, 2017-12-19 Since its publication, the first edition of *Fingerprints and Other Ridge Skin Impressions* has become a classic in the field. This second edition is completely updated, focusing on the latest technology and techniques—including current detection procedures, applicable processing and analysis methods—all while incorporating the expansive growth of literature on the topic since the publication of the original edition. Forensic science has been challenged in recent years as a result of errors, courts and other scientists contesting verdicts, and changes of a fundamental nature related to previous claims of infallibility and absolute individualization. As such, these factors represent a fundamental change in the way training, identifying, and reporting should be conducted. This book addresses these questions with a clear viewpoint as to where the profession—and ridge skin identification in particular—must go and what efforts and research will help develop the field over the next several years. The second edition introduces several new topics, including Discussion of ACE-V and research results from ACE-V studies Computerized marking systems to help examiners produce reports New probabilistic models and decision theories about ridge skin evidence interpretation, introducing Bayesnet tools Fundamental understanding of ridge mark detection techniques, with the introduction of new aspects such as nanotechnology, immunology and hyperspectral imaging Overview of reagent preparation and application Chapters cover all aspects of the subject, including the formation of friction ridges on the skin, the deposition of latent marks, ridge skin mark identification, the detection and enhancement of such marks, as

well the recording of fingerprint evidence. The book serves as an essential reference for practitioners working in the field of fingermark detection and identification, as well as legal and police professionals and anyone studying forensic science with a view to understanding current thoughts and challenges in dactyloscopy.

Statistical Abstract of the United States, 2008

Creating Socially Responsible Citizens David L.

Grossman, John J. Cogan, 2012-09-01 This book originates from a collaborative research initiative to examine how various societies in the Asia-Pacific Region construct moral and civic education, and to what extent these systems achieve the democratic objective of creating socially responsible citizens. In many western societies there is at least a rhetorical tendency to separate the moral and civic dimensions of citizenship education, and in some cases to exclude the moral dimension from the discourse of preparing citizens. However, as cross-societal dialogues and research about citizenship education have increased in the past two decades, scholars have identified differences in the emphasis put on the moral dimension of citizenship education across the Asia-Pacific region. In many predominantly Confucian, Islamic and Buddhist societies, for example, the emphasis on the moral dimension of citizenship education is explicit, and in some cases, central. While awareness of a divide, or perhaps more appropriately a continuum in the role of moral versus civic education in democratic societies has been recognized for some time, to our knowledge this book marks the first effort of this scope to address the issue of the moral/civic divide in citizenship education. Thus, through a cross-cultural dialogue across societies in the Asia-Pacific Region, this book addresses the issue of whether elements of both civic and moral education can be effectively joined to create a “socially responsible” citizen.

International Business Andrew Delios,2012-12-10

International Business: An Asia Pacific Perspective (Second Edition) provides a unique exploration of the topic of international business. It examines decisions relevant to managers in internationalizing and multinational firms operating in the Asia Pacific region. Its uniqueness stems from the cutting-edge conceptual material that underlies the decision-making frameworks in the text and in the numerous Asian company examples and illustrations. Users of this text examine such essential topics as the measurement and analysis of the cultural, political and economic dimensions of the international environment; the formation of internationalization strategies, including entry mode choice and strategic alliances; the analysis of the competitive implications of multinational firms and business groups; multinational, subsidiary and expatriate management; and the management of ethical issues.
