NATO and the Western Balkans Niall Mulchinock, 2017-03-28 This book provides a critical examination of NATO's evolving strategic and operational roles in the Western Balkans since the disintegration of Yugoslavia in 1991, with a particular focus on Bosnia, Kosovo and the former Yugoslav Republic of Macedonia, in both the conflict and post-conflict phases. While there is a myriad of literature available on the various conflicts that engulfed the former Yugoslavia after the collapse of communism, less has been written on NATO's overall role in these conflicts. This text, therefore, fills the gap, offering a thematic study of NATO's roles and duties in this region from the early 1990s to the present day. The 'levels of analysis' introduced by Mulchinock provide a new framework for examining NATO's response to the Yugoslav wars of secession, focusing on the role of key NATO member states and the role of different NATO Secretaries-General, along with the impact of inter-institutional cooperation (and conflict) with other international organisations.

China, the UN, and Human Protection Rosemary Foot, 2020-05-27 Over a relatively short period of time, Beijing moved from dismissing the UN to embracing it. How are we to make sense of the People's Republic of China's (PRC) embrace of the UN, and what does its engagement mean in larger terms? This study focuses directly on Beijing's involvement in one of the most contentious areas of UN activity – human protection – contentious because the norm of human protection tips the balance away from the UN's Westphalian state-based profile, towards the provision of greater protection for the security of individuals and their individual liberties. The argument that follows shows that, as an ever-more crucial actor within the United Nations, Beijing's rhetoric and some of its practices are playing an increasingly important role in determining how this norm is articulated and interpreted. In some cases, the PRC is also influencing how these ideas of human protection are implemented. At stake in the questions this book tackles is both how we understand the PRC as a participant in shaping global order, and the future of some of the core norms which constitute that order.

The Rhetorics of US Immigration E. Johanna Hartelius, 2015-11-10 In the current geopolitical climate—in which unaccompanied children cross the border in record numbers, and debates on the topic swing violently from pole to pole—the subject of immigration demands innovative inquiry. In *The Rhetorics of US Immigration*, some of the most prominent and prolific scholars in immigration studies come together to discuss the many facets of immigration rhetoric in the United States. *The Rhetorics of US Immigration* provides readers with an integrated sense of the rhetorical multiplicity circulating among and about immigrants. Whereas extant literature on immigration rhetoric tends to focus on the media, this work extends the conversation to the immigrants themselves, among others. A collection whose own eclecticism highlights the complexity of the issue, *The Rhetorics of US Immigration* is not only a study in the language of immigration but also a frank discussion of who is doing the talking and what it means for the future. From questions of activism, authority, and citizenship to the influence of Hollywood, the LGBTQ community, and the church, *The Rhetorics of US Immigration* considers the myriad venues in which the American immigration question emerges—and the interpretive framework suited to account for it. Along with the editor, the contributors are Claudia Anguiano, Karma R. Chávez, Terence Check, Jay P. Childers, J. David Cisneros, Lisa M. Corrigan, D. Robert DeChaine, Anne Teresa Demo, Dina Gavrilos, Emily Ironside, Christine Jasken, Yazmin Lazcano-Pry, Michael Lechuga, and Alessandra B. Von Burg.

Burning Faith Christopher B. Strain, 2020-09-08 In the 1990s, churches across the southeastern United States were targeted and set ablaze. These arsonists predominately targeted African American congregations and captured the attention of the media nationwide. Using oral histories, newspaper accounts, and governmental reports, Christopher Strain gives a chronological account of the series of church fires. Burning Faith considers the various forces at work, including government responses, civil rights groups, religious forces, and media coverage, in providing a thorough, comprehensive analysis of the events and their fallout. Arguing that these church fires symbolize the breakdown of communal bonds in the nation, Strain appeals for the revitalization of united Americans and the return to a sense of community. Combining scholarly sophistication with popular readability, Strain has produced one of the first histories of the last decade and demonstrates that the increasing fragmentation of community in America runs deeper than race relations or prejudice. Technology and Innovation in Japan Martin Hemmert, Christian Oberländer, 1998-08-20 Long-awaited reforms in technology policy and corporate strategy are now taking place in Japan. This book asks whether it is the programme of reform or the will and ability to implement reforms which is new.

Race Still Matters Yuya Kiuchi, 2016-11-15 Essays debunking the notion that contemporary America is a colorblind society. More than half a century after the civil rights era of the mid-1950s to the late 1960s, American society is often characterized as postracial. In other words, that the country has moved away from prejudice based on skin color and we live in a colorblind society. The reality, however, is the opposite. African Americans continue to face both explicit and latent discriminations in housing, healthcare, education, and every facet of their lives. Recent cases involving law enforcement officers shooting unarmed Black men also attest to the reality: the problem of the twenty-first century is still the problem of the color line. In Race Still Matters, contributors drawn from a wide array of disciplines use multidisciplinary methods to explore topics such as Black family experiences, hate crimes, race and popular culture, residual discrimination, economic and occupational opportunity gaps, healthcare disparities, education, law enforcement issues, youth culture, and the depiction of Black female athletes. The volume offers irrefutable evidence that race still very much matters in the United States today.

Global Civil Society in International Lawmaking and Global Governance Barbara Woodward, 2010-05-17 Drawing upon 'global governance,' 'global civil society' (GCS) and 'international lawmaking' scholarship and presenting studies of GCS practice in international lawmaking processes, including treaty-making, conferences, international organisations and adjudicatory mechanisms, this book comprehensively re-evaluates GCS's role in public international lawmaking.
