Think Bayes Allen B. Downey,2021-05-18 If you know how to program, you're ready to tackle Bayesian statistics. With this book, you'll learn how to solve statistical problems with Python code instead of mathematical formulas, using discrete probability distributions rather than continuous mathematics. Once you get the math out of the way, the Bayesian fundamentals will become clearer and you'll begin to apply these techniques to real-world problems. Bayesian statistical methods are becoming more common and more important, but there aren't many resources available to help beginners. Based on undergraduate classes taught by author Allen B. Downey, this book's computational approach helps you get a solid start. Use your programming skills to learn and understand Bayesian statistics Work with problems involving estimation, prediction, decision analysis, evidence, and Bayesian hypothesis testing Get started with simple examples, using coins, dice, and a bowl of cookies Learn computational methods for solving real-world problems

The Gacaca Courts, Post-Genocide Justice and Reconciliation in Rwanda Phil Clark,2010-09-09 Since 2001, the Gacaca community courts

have been the centrepiece of Rwanda's justice and reconciliation programme. Nearly every adult Rwandan has participated in the trials, principally by providing eyewitness testimony concerning genocide crimes. Lawyers are banned from any official involvement, an issue that has generated sustained criticism from human rights organisations and international scepticism regarding Gacaca's efficacy. Drawing on more than six years of fieldwork in Rwanda and nearly five hundred interviews with participants in trials, this in-depth ethnographic investigation of a complex transitional justice institution explores the ways in which Rwandans interpret Gacaca. Its conclusions provide indispensable insight into post-genocide justice and reconciliation, as well as the population's views on the future of Rwanda itself.
