Tests and Assessments in Counseling Bill McHenry,Kathryn C. MacCluskie,Jim McHenry,2018-04-09 Tests and Assessments in Counseling provides students with current information on assessment tools and techniques through detailed case scenarios and vignettes. Going beyond basic information about a multitude of assessments, the authors focus on the use of instruments in individual cases to allow readers to more fully grasp the integral relationship between tests and assessment data and the counseling process. Chapters guide students through choosing the most effective assessment tool, successfully administering the assessment, and making meaningful and useful results of the data with the client. Test questions are also included at the end of each chapter.

Disease Control Priorities, Third Edition (Volume 2) Robert Black,Ramanan Laxminarayan,Marleen Temmerman,Neff Walker,2016-04-11 The evaluation of reproductive, maternal, newborn, and child health (RMNCH) by the Disease Control Priorities, Third Edition (DCP3) focuses on maternal conditions, childhood illness, and malnutrition. Specifically, the chapters address acute illness and undernutrition in children, principally under age 5. It also covers maternal mortality, morbidity, stillbirth, and influences to pregnancy and pre-pregnancy. Volume 3 focuses on developments since the publication of DCP2 and will also include the transition to older childhood, in particular, the overlap and commonality with the child development volume. The DCP3 evaluation of these conditions produced three key findings: 1. There is significant difficulty in measuring the burden of key conditions such as unintended pregnancy, unsafe abortion, nonsexually transmitted infections, infertility, and violence against women. 2. Investments in the continuum of care can have significant returns for improved and equitable access, health, poverty, and health systems. 3. There is a large difference in how RMNCH conditions affect different income groups; investments in RMNCH can lessen the disparity in terms of both health and financial risk.

MiFID II and Private Law Federico Della Negra,2019-07-11 In the wake of the global financial crisis, investors have suffered significant losses as a result of breaches of conduct of business rules in the distribution of financial instruments. MiFID II introduced new disclosure, distribution and product governance rules to strengthen the protection of investors but, like MiFID I, did not harmonise the civil law consequences for their violation. This book asks whether, in spite of the silence of the EU legislators, the MiFID II conduct of business rules may produce civil law effects, enabling investors to enforce them against investment firms before national courts and alternative dispute resolution (ADR) mechanisms. Building on the case law of the CJEU, the book shows the conditions under which the breach of MiFID II conduct of business rules should give rise to a private law remedy, and what remedies would be compatible with EU law. MiFID II and Private Law is an essential contribution to academic research in EU and financial law and will be a key text for policy-makers and legal practitioners working in the field of investor protection regulation and mis-selling litigation.

Writing Awesome Answers to Comprehension Questions (Even the Hard Ones) Nancy Boyles,2021-05-04 Help students appreciate texts and write about them with conviction. Responding to a comprehension question is a surprisingly complex task. It draws on multiple skills: students must be able to read and analyze a text passage; consider what aspect of the text the question addresses; and then quickly and concisely write about their ideas, citing evidence to support them. Hence the prominence of constructed-response questions in standardized testing. In this refreshingly clear and upbeat guide, literacy consultant Nancy Boyles gives a step-by-step demonstration of how to help students achieve success with this task—and in the process of unpacking the steps involved, demonstrates how the instruction can inspire teachers' creativity as well as deepen students' literacy skills. Filled with ready-to-use scaffolds for every stage of instruction—sets of sample questions, anchor charts, cue cards, answer frames—this is a one-stop resource for teaching students how to organize their thoughts about what they've read, and then set them down in writing.
