ULYSSES (Modern Classics Series) James Joyce, 2024-01-10 This carefully crafted ebook: ULYSSES (Modern Classics Series) is formatted for your eReader with a functional and detailed table of contents. Ulysses is a modernist novel by Irish writer James Joyce. It is considered to be one of the most important works of modernist literature, and has been called a demonstration and summation of the entire movement. Ulysses chronicles the peripatetic appointments and encounters of Leopold Bloom in Dublin in the course of an ordinary day, 16 June 1904. Ulysses is the Latinised name of Odysseus, the hero of Homer's epic poem *Odyssey*, and the novel establishes a series of parallels between its characters and events and those of the poem (the correspondence of Leopold Bloom to Odysseus, Molly Bloom to Penelope, and Stephen Dedalus to Telemachus). Joyce divided Ulysses into 18 chapters or episodes. At first glance much of the book may appear unstructured and chaotic; Joyce once said that he had put in so many enigmas and puzzles that it will keep the professors busy for centuries arguing over what I meant, which would earn the novel immortality. James Joyce (1882-1941) was an Irish novelist and poet, considered to be one of the most influential writers in the modernist avant-garde of the early 20th century. Joyce is best known for Ulysses, the short-story collection *Dubliners*, and the novels *A Portrait of the Artist as a Young Man* and *Finnegans Wake*.

**India and Tibet** Sir Francis Younghusband,2014-11-18 One of the last great imperial adventurers, Sir Francis Younghusband (1863–1942) was a British army officer whose explorations yielded major contributions to geographical research. In addition to charting a new route across the Gobi Desert, Younghusband was among the first Britons to enter the forbidden Tibetan city of Lhasa, where he headed a 1904 civil and military campaign. Younghusband's expedition forms a landmark in British exploration, the culmination of more than 140 years of attempts to establish good diplomatic terms with Tibet. This survey offers an in-depth examination of relations between India and Tibet from 1772 through 1910, the year Tibet was invaded by China. The account focuses particularly on Younghusband's firsthand observations on the 1904 mission and the treaty negotiations between Great Britain and Tibet.

Line and Form Walter Crane, 2024-02-10 As in the case of The Bases of Design, to which this is intended to form a companion volume, the substance of the following chapters on Line and Form originally formed a series of lectures delivered to the students of the Manchester Municipal School of Art. There is no pretension to an exhaustive treatment of a subject it would be difficult enough to exhaust, and it is dealt with in a way intended to bear rather upon the practical work of an art school, and to be suggestive and helpful to those face to face with the current problems of drawing and design. These have been approached from a personal point of view, as the results of conclusions arrived at in the course of a busy working life which has left but few intervals for the elaboration of theories apart from practice, and such as they are, these papers are now offered to the wider circle of students and workers in the arts of design as from one of themselves. They were illustrated largely by means of rough sketching in line before my student audience, as well as by photographs and drawings. The rough diagrams have been re-drawn, and the other illustrations reproduced, so that both line and tone blocks are used, uniformity being sacrificed to fidelity. WALTER CRANE. Outline, one might say, is the Alpha and Omega of Art. It is the earliest mode of expression among primitive peoples, as it is with the individual child, and it has been cultivated for its power of characterization and expression, and as an ultimate test of draughtsmanship, by the most accomplished artists of all time. The old fanciful story of its origin in the work of a lover who traced in charcoal the boundary of the shadow of the head of his sweetheart as cast upon the wall by the sun, and thus obtained the first profile portrait, is probably more true in substance than in fact, but it certainly illustrates

the function of outline as the definition of the boundaries of form. Silhouette As children we probably perceive forms in nature defined as flat shapes of colour relieved upon other colours, or flat fields of light on dark, as a white horse is defined upon the green grass of a field, or a black figure upon a background of snow. Definition of Boundaries To define the boundaries of such forms becomes the main object in early attempts at artistic expression. The attention is caught by the edges—the shape of the silhouette which remains the paramount means of distinction of form when details and secondary characteristics are lost; as the outlines of mountains remain, or are even more clearly seen, when distance subdues the details of their structure, and evening mists throw them into flat planes one behind the other, and leave nothing but the delicate lines of their edges to tell their character. We feel the beauty and simplicity of such effects in nature. We feel that the mind, through the eye resting upon these quiet planes and delicate lines, receives a sense of repose and poetic suggestion which is lost in the bright noontide, with all its wealth of glittering detail, sharp cut in light and shade. There is no doubt that this typical power of outline and the value of simplicity of mass were perceived by the ancients, notably the Ancient Egyptians and the Greeks, who both, in their own ways, in their art show a wonderful power of characterization by means of line and mass, and a delicate sense of the ornamental value and quality of line. Formation of Letters Regarding line—the use of outline from the point of view of its value as a means of definition of form and fact—its power is really only limited by the power of draughtsmanship at the command of the artist. From the archaic potters' primitive figures or the rudimentary attempts of children at human or animal forms up to the most refined outlines of a Greek vase-painter, or say the artist of the Dream of Poliphilus, the difference is one of degree.

**The Jungle** Upton Sinclair, 2010-08-19 A searing novel of social realism, Upton Sinclair's *The Jungle* follows the fortunes of Jurgis Rudkus, an immigrant who finds in the stockyards of turn-of-the-century Chicago a ruthless system that degrades and impoverishes him, and an industry whose filthy practices contaminate the meat it processes. From the stench of the killing-beds to the horrors of the fertilizer-works, the appalling conditions in which Jurgis works are described in intense detail by an author bent on social reform. So powerful was the book's message that it caught the eye of President Theodore Roosevelt and led to changes to the food hygiene laws. In his Introduction to this new edition, Russ Castronovo highlights the aesthetic concerns that were central to Sinclair's aspirations, examining the relationship between history and historical fiction, and between the documentary impulse and literary narrative. As he examines the book's disputed status as novel (it is propaganda or literature?), he reveals why Sinclair's message-driven fiction has relevance to literary and historical matters today, now more than a hundred years after the novel first appeared in print.
