American Prisoners of the Revolution Danske Dandridge,1911 Liberty Street Sugar House was a tall, narrow building five stories in height, and with dismal underground dungeons. In this gloomy abode jail fever was ever present. In the hot weather of July, 1777, companies of twenty at a time would be sent out for half an hour's outing, in the court yard. Inside groups of six stood for ten minutes at a time at the windows for a breath of air.

**Hoosiers and the American Story** Madison, James H.,Sandweiss, Lee Ann,2014-10-01 A supplemental textbook for middle and high school students, Hoosiers and the American Story provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.

"1812" Vasilii Vasil'evich Vereshchagin,1899 The following pages are not offered to the reader as a history of the invasion of Russia by Napoleon. They are but the statement of the basis of observation on which M. Verestchagin has founded his great series of pictures illustrative of the campaign. These pictures are now to be exhibited in this country, and the painter has naturally desired to show us from what point of view he has approached the study of his subject-one of the greatest subjects in the whole range of history-especially for a Russian artist. The point of view is inevitably in his case-that of the Realist; and this consideration gives unity to the conception of his whole career and endeavour. He has ever painted war as it is, and therefore in its horrors, as one of its effects, though not necessarily as an effect sought in and for itself. He has tried to be true in all his representations of the battle-field. His work may thus be said to constitute a powerful plea in support of the Tsar's Rescript to the Nations in favour of peace. My meaning will be best illustrated by a short sketch of M. Verestchagin and his work, as painter, as soldier, and as traveller.
