Accelerando Charles Stross,2005-07-05 The Singularity. It is the era of the posthuman. Artificial intelligences have surpassed the limits of human intellect. Biotechnological beings have rendered people all but extinct. Molecular nanotechnology runs rampant, replicating and reprogramming at will. Contact with extraterrestrial life grows more imminent with each new day. Struggling to survive and thrive in this accelerated world are three generations of the Macx clan: Manfred, an entrepreneur dealing in intelligence amplification technology whose mind is divided between his physical environment and the Internet; his daughter, Amber, on the run from her domineering mother, seeking her fortune in the outer system as an indentured astronaut; and Sirhan, Amber's son, who finds his destiny linked to the fate of all of humanity. For something is systematically dismantling the nine planets of the solar system. Something beyond human comprehension. Something that has no use for biological life in any form...

An Obedient Father Akhil Sharma,2022-07-12 Revised and featuring a new foreword by the author, this uncompromising novel returns, more powerful than ever: A portrait of a country ravaged by vendetta and graft, its public spaces loud with the complaints of religious bigots and its private spaces cradling unspeakable pain. (Hilary Mantel, New York Review of Books) An Obedient Father introduced one of the most admired voices in contemporary fiction. Set in Delhi in the 1990s, it tells the story of an inept bureaucrat enmired in corruption, and of the daughter who alone knows the true depth of his crimes. Decried in India for its frank treatment of child abuse, the novel was widely praised elsewhere for its compassion, and for a plot that mingled the domestic with the political, tragedy with farce. Yet, as Akhil Sharma writes in his foreword to this new edition, he was haunted by what he considered shortcomings within the book: almost twenty years later, he returned to face them. Here is the result, a leaner, surer version with even greater power.

Better Pensions, Better Jobs Mariano Bosch,Angel Melguizo,Carmen Pagés,2013-10-16 The Latin America and Caribbean (LAC) region has reduced its inequality and poverty, and is looking towards the future with greater optimism than in the past. As the region grows, new problems appear that economic policymakers must address. How to provide adequate pensions for the elderly is one such problem. This book offers an analysis of pension systems from the perspective of the functioning of the regions labor markets. It clarifies why, more than half a century after pension systems were created, only a minority of workers in the region save for their pension in the contributory systems through payroll taxes. The study points out that the problem lies not only in the lack of coverage, but also in the low level of benefits, even of contributory pensions. It argues that to design public policies for pensions, it is essential to understand the complex web of interactions between employers and workers that take place in the labor market.

Intelligence-Led Policing Jerry H. Ratcliffe,2016-04-14 What is intelligence-led policing? Who came up with the idea? Where did it come from? How does it relate to other policing paradigms? What distinguishes an intelligence-led approach to crime reduction? How is it designed to have an impact on crime? Does it prevent crime? These are just a few of the questions that this book seeks to answer. This revised and updated second edition includes new case studies and viewpoints, a revised crime funnel based on new data, and a new chapter examining the expanding role of technology and big data in intelligence-led policing. Most importantly, the author builds upon an updated definition of intelligence-led policing as it has evolved into a framework capable of encompassing more operational police activity than simply organized crime and recidivist offenders. Topics covered in this book include: • The origins and aims of intelligence-led policing • A comparison of intelligence-led policing with other conceptual models of policing • An exploration of analysis concepts and the role of analysis in target-selection • Evaluations of intelligence-led policing as a crime-control strategy Written by an expert in the field, this book offers a comprehensive and engaging introduction to intelligence-led policing for students, practitioners and scholars of policing, criminal intelligence and crime analysis. This book will be of particular interest to professionals within the law enforcement environment; senior officers, middle management, analysts and operational staff. A companion website offers a range of resources for students and instructors, including slides, chapter headings with supporting notes, key terms and names, critical-thinking questions, and quizzes.

Individual Preparedness and Response to Chemical, Radiological, Nuclear, and Biological Terrorist Attacks Lynn E. Davis,Arthur Melmed,Richard Krop,2003-09-05 Individual preparedness is an important element of our nation's strategy for homeland security. This report adopts a scenario-driven approach that provides a rigorous way to identify actions-linked specifically to terrorist attacks-individuals can take to protect their health and safety. The result is an individual's strategy across four types of terrorist attacks-chemical, radiological, nuclear, and biological-consisting of overarching goals and simple and directive response and preparatory actions. The actions are appropriate regardless of likelihood of an attack, scale of attack, or government alert level;

designed to be sensitive to potential variations; and defined in terms of simple rules that should be easy for individuals to adopt.
