**The Summer Dragon** Todd Lockwood, 2016-05-03 “The master of dragon art brings the same skills to dragon storytelling” in this debut high fantasy adventure “as detailed and exciting as anything since the Pern tales” (Terry Brooks, New York Times–bestselling author). “Packed with action and fully-developed characters, both human and scaly.” –Alan Dean Foster, author of *Star Wars: The Force Awakens* Maia and her family raise dragons for the political war machine. As she comes of age, she hopes for a dragon of her own to add to the stable of breeding parents. But the war goes badly, and the needs of the Dragonry dash her hopes. Her peaceful life is shattered when the Summer Dragon—one of the rare and mythical High Dragons—makes an appearance in her quiet valley. The Summer Dragon is an omen of change, but no one knows for certain what kind of change he augurs. Political factions vie to control the implied message, each to further their own agendas. And so Maia is swept into an adventure that pits her against the deathless Horrors—thralls of the enemy—and a faceless creature drawn from her fears. In her fight to preserve everything she knows and loves, she uncovers secrets that challenge her understanding of her world and of herself.

**The Dove Flyer** Eli Amir, 2014-02-11 The Dove Flyer tells the story of the last years of the Jewish community in Baghdad, before their expulsion in 1950 and settlement in Israel. The young narrator, Kabi, watches as the members of his extended family each develop different dreams and a different sets of fears throughout these tumultuous, transitional times: his mother wants to move out of the new Jewish quarter and back to their old Muslim neighborhood where she felt safer; his father wants to emigrate to the promised land, the new State of Israel, where he will farm and grow rice; his uncle Hizkel, a Zionist, is arrested and taken off to prison to await trial and a possible death sentence; his headmaster, Salim, believes in the equality of Arabs and Jews; and his uncle Edouard just wants to hang out on the rooftop with his doves. Meanwhile, as World War II draws closer and Israeli statehood seems more assured, a noose begins to tighten around Jewish Iraqis. Houses are appropriated, Jews are beaten in the streets and hung in public, and young Kabi watches as the storied legacy of the Jewish community in Baghdad is dismantled piecemeal and finally decimated. As for the land of milk and honey, there is neither milk, nor honey. It is a desert, a place as barren and coarse as the community Kabi and his family left behind was vibrant, bountiful, and dreamy.

*The Geopolitics of Emotion* Dominique Moïsi, 2009-05-05 In the first book to investigate the far-reaching emotional impact of globalization, Dominique Moïsi shows how the geopolitics of today is characterized by a “clash of emotions.” The West, he argues, is dominated and divided by fear. For Muslims and Arabs, a culture of humiliation is quickly devolving into a culture of hatred. Asia, on the other hand, has been able to concentrate on building a better future, so it is creating a new culture of hope. Moïsi, a leading authority on international affairs, explains that in order to understand our changing world, we need to confront emotion. And as he makes his case, he deciphers the driving emotions behind our cultural differences, delineating a provocative and important new perspective on globalization.

**Post-Popperian Methodology of Economics** Neil de Marchi, 2012-10-09 For much of the last three decades or more economic methodology has been dominated by the work of Karl Popper who advocated the position that science is what it is by virtue of its adherence to certain ideals. The methodology of science is therefore not empirical or descriptive, but rather a set of rules for producing ‘rational’ or ‘objective’ knowledge. This volume presents alternatives to an exclusively Popperian methodology: its purpose is not to reject Popper, but to show there are other ways of construing methodology. The book is divided into three parts. Part I contains two critical surveys – one dealing with the rule-based tradition which has had a great influence on economic methodology in the last three decades and the other arguing for the social conditioning of knowledge. Part II is concerned with auxiliary hypotheses needed to link rational choice at the social and individual levels. Part III follows up on aspects raised in linking rational choice at the social and individual levels by looking at specific issues, including rhetoric and economics and gender and economic research.

Bridget Riley: The Stripe Paintings 1961-2014 Bridget Riley, 2014-10-31 Published on the occasion of Bridget Riley's major exhibition at David Zwirner in London in the summer of 2014, this fully illustrated catalogue offers intimate explorations of paintings and works on paper produced by the legendary British artist over the past fifty years, focusing specifically on her recurrent use of the stripe motif. Riley has devoted her practice to actively engaging viewers through elementary shapes such as lines, circles, curves, and squares, creating visual experiences that at times trigger optical sensations of vibration and movement. The London show, her most extensive presentation in the city since her 2003 retrospective at Tate Britain, explored the stunning visual variety she has managed to achieve working exclusively with stripes, manipulating the surfaces of her vibrant canvases through subtle changes in hue, weight, rhythm, and density. As noted by Paul Moorhouse, "Throughout her development, Riley has drawn confirmation from Euge`ne Delacroix's observation that 'the first merit of a painting is to be a feast for the eyes.' [Her] most recent stripe paintings are a striking reaffirmation of that principle, exciting and entrancing the eye in equal measure." Created in close collaboration with the artist, the publication's beautifully produced color plates offer a selection of the iconic works from the exhibition. These include the artist's first stripe works in color from the 1960s, a series of vertical compositions from the 1980s that demonstrate her so-called "Egyptian" palette—a "narrow chromatic range that recalled natural phenomena"—and an array of her modestly scaled studies, executed with gouache on graph paper and rarely before seen. A range of texts about Riley's original and enduring practice grounds and contextualizes the images, including new scholarship by art historian Richard Shiff, texts on both the artist's wall paintings and newest body of work by Paul Moorhouse, 20th Century Curator at the National Portrait Gallery in London, and a 1978 interview with Robert Kudielka, her longtime confidant and foremost critic. Additionally, the book features little-seen archival imagery of Riley at work over the years; documentation of her recent commissions for St. Mary's Hospital in West London, taken especially for this publication; and installation views of the exhibition itself, installed throughout the three floors of the gallery's eighteenth-century Georgian townhouse located in the heart of Mayfair.
