The Conquest of Bread Peter Kropotkin, 2021-07-21T00:29:42Z The Conquest of Bread is a political treatise written by the anarcho-communist philosopher Peter Kropotkin. Written after a split between anarchists and Marxists at the First International (a 19th-century association of left-wing radicals), The Conquest of Bread advocates a path to a communist society distinct from Marx and Engels's Communist Manifesto, rooted in the principles of mutual aid and voluntary cooperation. Since its original publication in 1892, The Conquest of Bread has immensely influenced both anarchist theory and anarchist praxis. As one of the first comprehensive works of anarcho-communist theory published for wide distribution, it both popularized anarchism in general and encouraged a shift in anarchist thought from individualist anarchism to social anarchism. It was also an influential text among the Spanish anarchists in the Spanish Civil War of the 1930s, and the late anarchist theorist and anthropologist David Graeber cited the book as an inspiration for the Occupy movement of the early 2010s in his 2011 book Debt: The First 5,000 Years. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

Teaching and Learning the European Union Stefania Baroncelli, Roberto Farneti, Ioan Horga, Sophie Vanhoonacker, 2013-10-04 This volume examines the EU's changing educational context and its challenges. Based on an extensive survey of more than 2000 European Studies courses in 30 European countries, it maps and analyses the features of teaching methodologies as they emerge from both disciplinary as well as interdisciplinary curricula. It presents a series of case studies on some of the most-used innovative teaching tools emerging in the field such as simulation games, e-learning, problem based learning, blended learning, and learning through the use of social networks. Based on the contributors' own experiences and academic research, the book examines both strengths and possible pitfalls of these increasingly popular methods. The book's critical approach will inspire educators and scholars committed to improving the teaching methods and tools in the area of European Studies and other programmes of higher education facing similar challenges.

Irrationality Stuart Sutherland, 2007 Why do qualified professionals make wrong decisions that cause enormous harm to others? And why do you sit through a boring play just because the tickets were expensive? Drawing on a mass of intriguing research, Stuart Sutherland analyses the causes of irrationality, demonstrating that the trait is present in all of us.

Human Insecurity in East Asia Michio Umegaki, Lynn Thiesmeyer, Atsushi Watabe, 2009 Threats to human security do not necessarily take cataclysmic forms such as war or natural disaster, nor does human insecurity exist solely within a suspended living environment like refugee camps. This publication explores less obvious threats to human security and how people and communities face them.--Publisher's description.

Big Data in Complex Systems Aboul Ella Hassanien, Ahmad Taher Azar, Vaclav Snasael, Janusz Kacprzyk, Jemal H. Abawajy, 2015-01-02 This volume provides challenges and Opportunities with updated, in-depth material on the application of Big data to complex systems in order to find solutions for the challenges and problems facing big data sets applications. Much data today is not natively in structured format; for example, tweets and blogs are weakly structured pieces of text, while images and video are structured for storage and display, but not for semantic content and search. Therefore transforming such content into a structured format for later analysis is a major challenge. Data analysis, organization, retrieval, and modeling are other foundational challenges treated in this book. The material of this book will be useful for researchers and practitioners in the field of big data as well as advanced undergraduate and graduate students. Each of the 17 chapters in the book opens with a chapter abstract and key terms list. The chapters are organized along the lines of problem description, related works, and analysis of the results and comparisons are provided whenever feasible.

Statistics Workbook for Evidence-based Health Care Jennifer Peat, Belinda Barton, Elizabeth Elliott, 2009-01-22 This concise, easy to understand and learner-friendly book invites the readers to actively participate in the understanding of medical statistical concepts that are frequently used in health care research and evidence-based practice worldwide. Knowing that the best way to learn statistical concepts is to use them, the authors employ real examples and articles from health science literature, complete with the complexities that real life presents, in an approach that will help bring researchers and clinicians one step closer towards being statistical savvy and better able to critically read research literature and interpret the results. A practical hands-on workbook for individual or group exercises Teaches how to understand statistical methods when reading journals, and how to use them in clinical research Emphasizes the use of statistics in evidence-based research Relevant for anyone needing to use statistics, this workbook is an ideal resource for all health care professionals and students, especially those learning and practising evidence-based medicine.

China's Outbound Tourism Wolfgang Arlt, 2006-09-27 The People's Republic of China has changed from a country which actively discouraged tourism into one of the major source markets for the international industry; the 35 million Chinese travelling across the border in 2005 are merely the tip of the iceberg. China's Outbound Tourism is the first book on this major development and has been written using a multitude of sources from China and around the world. The topic is approached from many angles, using methods from the fields of economics, political sciences, sociology and cross-cultural studies. The book explains the economic and social background of the surge in tourism and the changes in policy in the country since 1949, when it moved from prevention through controlled development to encouragement of outbound travels. Throughout the book, facts and figures

are given for the global development as well as in-depth information about China's key destinations. The growing importance of tourists from China is however not just a question of quantity; the text explains the features which distinguish their travel motivations and behaviours from 'western' and Japanese tourists, and the consequences for product adaptation and marketing methods for destinations interested in attracting and satisfying Chinese tourists. Arlt's groundbreaking book cannot be ignored by professionals, academics and students of tourism and leisure; it offers fresh insight into the topic and indicates some of the future lines of development in this area.

People, Demography and Social Exclusion Dragana Avramov, Council of Europe. Directorate General III--Social Cohesion, 2002-01-01 This report examines the demographic factors likely to have an impact on social exclusion and poverty, including the patterns of young adults leaving the parental home; family household dynamics; cohabitation and separation; reproductive behaviour, and morbidity. It is based on the international study into the complex relationship between demography and social exclusion. Issues considered include: concepts, data and methodology; social disadvantage and the elderly, one-person and one-parent households; and groups most at risk, such as children in poverty, immigrants experiencing deprivation, and the homeless.

Mass Spectrometry-Based Lipidomics Fong-Fu Hsu, 2022-05-20 This detailed volume covers conventional MS-based "shotgun lipidomics" by which samples are introduced by infusion or loop injection, as well as LC-MS-based lipidomics, which are becoming increasingly important due to the ever-increasing demand for a complete and precise lipid analysis of the complex and diversified lipids in nature. The volume features protocols applying chemical reactions, the on-line photochemical reactions combined with various MS methods for comprehensive characterization of various lipid classes, and quantification of specific and rare lipids. Written for the highly successful Methods in Molecular Biology series, chapters include introductions to their respective topics, lists of the necessary materials and reagents, step-by-step, readily reproducible laboratory protocols, and tips on troubleshooting and avoiding known pitfalls. Authoritative and practical, Mass Spectrometry-Based Lipidomics: Methods and Protocols serves as an invaluable guide for biochemists and mass spectroscopists who are interested in lipid studies.
