Saving the News Martha Minow, 2021 As traditional for-profit news media in the United States declines in economic viability and sheer numbers of outlets and staff, what does and what should the constitutional guarantee of freedom of the press mean? The book examines the current news ecosystem in the U.S. and chronicles historical developments in government involvement in shaping the industry. It argues that initiatives by the government and by private-sector actors are not only permitted but called for as transformations in technology, economics, and communications

jeopardize the production and distribution of and trust in news and the very existence of local news reporting. It presents ten proposals for change to help preserve the free press essential to our democratic society--

Racism on Trial Ian F. Haney López, 2009-07-01 In 1968, ten thousand students marched in protest over the terrible conditions prevalent in the high schools of East Los Angeles, the largest Mexican community in the United States. Chanting Chicano Power, the young insurgents not only demanded change but heralded a new racial politics. Frustrated with the previous generation's efforts to win equal treatment by portraying themselves as racially white, the Chicano protesters demanded justice as proud members of a brown race. The legacy of this fundamental shift continues to this day. Ian Haney Lopez tells the compelling story of the Chicano movement in Los Angeles by following two criminal trials, including one arising from the student walkouts. He demonstrates how racial prejudice led to police brutality and judicial discrimination that in turn spurred Chicano militancy. He also shows that legal violence helped to convince Chicano activists that they were nonwhite, thereby encouraging their use of racial ideas to redefine their aspirations, culture, and selves. In a groundbreaking advance that further connects legal racism and racial politics, Haney Lopez describes how race functions as common sense, a set of ideas that we take for granted in our daily lives. This racial common sense, Haney Lopez argues, largely explains why racism and racial affiliation persist today. By tracing the fluid position of Mexican Americans on the divide between

white and nonwhite, describing the role of legal violence in producing racial identities, and detailing the commonsense nature of race, Haney Lopez offers a much needed, potentially liberating way to rethink race in the United States.

Earth System Analysis Hans-Joachim Schellnhuber, Volker Wenzel, 2012-12-06 Since this new science is of an unprecedented interdisciplinary nature, the book does not merely take stock of its numerous ingredients, but also delivers their multifaceted integration. The resulting master paradigm - the co-evolution of nature and anthroposphere within a geo-cybernetic continuum of processes - is based on a structured manifold of partial paradigms with their specific ranges. Most importantly, this serves the scientific foundation of a meaningful, safe and efficient environment and development management for solving the most burning questions concerning humankind and its natural environment. The more concrete elucidation of the natural and human dimensions, as well as various attempts and instruments of integration are represented in the different parts of the book, while the didactic quality is heightened by many allegoric illustrations.

Homegrown Alexander Meleagrou-Hitchens, Seamus Hughes, Bennett Clifford, 2020-11-12 How big is the threat posed by American ISIS supporters? How many Americans have joined ISIS and how many want to return to the United States? Compared to participation by Americans in other jihadist groups, the scale of American involvement in jihadist activity today is unprecedented. This book, from one of the leading counter-terror centres, draws on first-hand interviews with former American Islamic State members and law enforcement officials who tracked them, and includes detailed analysis of the court cases against them and their social media presence. Homegrown reveals how and why ISIS was able to radicalize and recruit a new generation of jihadist sympathizers in America.

Australian Dictionary of Biography, Volume 19 Melanie Nolan, 2021-03-09 Volume 19 of the Australian Dictionary of

Biography (ADB) contains concise biographies of individuals who died between 1991 and 1995. The first of two volumes for the 1990s, it presents a colourful montage of late twentieth-century Australian life, containing the biographies of significant and representative Australians. The volume is still in the shadow of World War II with servicemen and women who enlisted young appearing, but these influences are dimming and there are now increasing numbers of non-white, non-male, non-privileged and non-straight subjects. The 680 individuals recorded in volume 19 of the ADB include Wiradjuri midwife and Ngunnawal Elder Violet Bulger; Aboriginal rights activist, poet, playwright and artist Kevin Gilbert; and Torres Strait Islander community leader and land rights campaigner Eddie Mabo. HIV/AIDS child activists Tony Lovegrove and Eve Van Grafhorst have entries, as does conductor Stuart Challender, 'the first Australian celebrity to go public' about his HIV/AIDS condition in 1991. The arts are, as always, well-represented, including writers Frank Hardy, Mary Durack and Nene Gare, actors Frank Thring and Leonard Teale and arts patron Ian Potter. We are beginning to see the effects of the steep rise in postwar immigration flow through to the ADB. Artist Joseph Stanislaw Ostojka-Kotkowski was born in Poland. Pilar Moreno de Otaegui, co-founded the Spanish Club of Sydney. Chinese restaurateur and community leader Ming Poon (Dick) Low migrated to Victoria in 1953. Often we have a dearth of information about the domestic lives of our subjects; politician Olive Zakharov, however, bravely disclosed at the Victorian launch of the federal government's campaign to Stop Violence Against Women in 1993 that she was a survivor of domestic violence in her second marriage. Take a dip into the many fascinating lives of the Australian Dictionary of Biography.

Global Perspectives on Teaching Excellence Christine Broughan, Graham Steventon, Lynn Clouder, 2018-02-02 Teaching

excellence in higher education needs to be promoted and celebrated. However, a universal definition of excellent teaching remains elusive, and robust evidence about how it affects student learning appears to be lacking. This timely book explores the notion of teaching excellence from the viewpoint of a variety of international authors; guiding the reader to understand the complex terrain in which teaching excellence is foregrounded, and highlighting a number of key issues facing the future of global higher education. *Global Perspectives on Teaching Excellence* explores: what is meant by teaching excellence, whether it can be measured and if so, how? the impact of teaching excellence frameworks, initiatives and awards. the new challenges for delivering global teaching excellence fit for the 21st century. With a mix of political, theoretical and applied research foci, each chapter also includes a short critical commentary from international experts in the field to further the debate and situate the topics in a wider context. *Global Perspectives on Teaching Excellence* is essential reading for academic and education policymakers, researchers, and undergraduate and postgraduate students in education.

Punishment Without Crime Alexandra Natapoff, 2018-12-31 A revelatory account of the misdemeanor machine that unjustly brands millions of Americans as criminals. *Punishment Without*

Crime offers an urgent new interpretation of inequality and injustice in America by examining the paradigmatic American offense: the lowly misdemeanor. Based on extensive original research, legal scholar Alexandra Natapoff reveals the inner workings of a massive petty offense system that produces over 13 million cases each year. People arrested for minor crimes are swept through courts where defendants often lack lawyers, judges process cases in mere minutes, and nearly everyone pleads guilty. This misdemeanor machine starts punishing people long before they are convicted; it punishes the innocent; and it punishes conduct that never should have been a crime. As a result, vast numbers of Americans -- most of them poor and people of color -- are stigmatized as criminals, impoverished through fines and fees, and stripped of drivers' licenses, jobs, and housing. For too long, misdemeanors have been ignored. But they are crucial to understanding our punitive criminal system and our widening economic and racial divides. A Publishers Weekly Best Book of 2018

The Changing Dynamics of Higher Education Middle Management V. Lynn Meek,Leo Goedegebuure,Rui Santiago,Teresa Carvalho,2010-07-16 Known as either 'soft' or 'hard' 'managerialism', 'new managerialism' or 'new public management', this new narrative has, irrespective of moniker, permeated the institutions of higher education almost everywhere. Taking this as its context, this volume is founded on a comprehensive international comparative analysis of the evolving role of middle-level academic managers—deans, heads of department and their equivalents. The chapters address key questions that will determine the future of academe: have the imperatives of management theory caused a realignment of the values and expectations of middle-level academic managers? In

what way do the new expectations placed on this group shape the academic profession as a whole? And, whose interests do middle-level academic managers represent? Based on material presented at one of the high-level Douro Seminars on research into tertiary education, this volume systematically combines theoretical views with empirical analysis. It argues that 'managerialist' pressure has resulted in changes in the way academic performance is measured. There has been a shift in criteria away from research reputation, teaching and scholarship to the measurement of performance based upon management capacities. This has given middle-level academic managers a pivotal role halfway between the predilections of high-level decision makers and the maintenance of academic values and control. The enhanced expectations and more defined functions of middle-level academic managers are in clear contrast to earlier times, when the position was considered a public-spirited rite of passage for career-minded academics. Despite this, the contributors to this book believe that the middle-level managers in the ten countries examined are neither corporate lackeys nor champions of academe. It is becoming increasingly clear that the ability of organisations to achieve their aims is largely dependent on the skill and dedication of middle managers. Past studies of organisational dynamics have been preoccupied with the executive level of management. This text, which will be of great interest to researchers and policy makers alike, attempts to redress the balance.

Women in India [2 volumes] Sita Anantha

Raman, 2009-06-08 Are Indian women powerful mother goddesses, or domestic handmaidens trailing behind men in literacy, wages, opportunities, and rights? Have they been agents of their own destinies, or voiceless victims of patriarchy? Behind these colorful over-simplifications lies the reality of many feminine personas belonging to various classes, ethnicities, religions, and castes. This two-volume set looks at Indian history from ancient to modern times, revealing precisely why ideas of gender rights were not

static across eras or regions. Raman's work is a reflection on the various ways in which women in a non-Western culture have developed and expressed their own feminist agenda. Raman's work is a reflection on the various ways in which women in a non-western culture have developed and expressed their own feminist agenda. Individual chapters highlight the enduring legacies of many important male and female figures, illustrating how each played a key role in modifying the substance of women's lives. Political movements are examined as well, such as the nationalist reform movement of 1947 in which the ideal of Indian womanhood became central to the nation and the push for independence. Also included is a survey of women in contemporary India and the role they played in the resurgence of militant Hindu nationalism. Aside from being an engaging and readable narrative of Indian history, this set integrates women's issues, roles, and achievements into the general study of the times, providing a clear presentation of the social, cultural, religious, political, and economic realities that have helped shape the identity of Indian women.
