Voting from Abroad Andrew Ellis ,Carlos Navarro ,Isabel Morales ,Maria Gratschew, Nadja Braun,2007-11-14 The constitutions of many countries guarantee the right to vote for all citizens. However, in reality, voters who are outside their home country when elections take place are often disenfranchised because of a lack of procedures enabling them to exercise that right. Voting from Abroad: The International IDEA Handbook examines the theoretical and practical issues surrounding external voting. It provides an overview of external voting provisions in 115 countries and territories around the world, including a map illustrating the regional spread.

The American Community College Arthur M. Cohen,Florence B. Brawer,1989-09-25 This monograph provides a comprehensive overview of community college education in the United States, emphasizing trends affecting two-year colleges within the past decade. Chapter 1 identifies the social forces that contributed to the development and expansion of community colleges and the continuing changes in institutional purposes. Chapter 2 examines the shifting patterns of student characteristics and goals, the reasons for the predominance of part-time attendance, participation and achievement among minority students, attrition issues, and recent moves toward student assessment. Chapter 3 draws on national data to illustrate the differences between full- and part-time faculty and discusses issues related to tenure, salary, workload, faculty evaluation, moonlighting, burnout, and job satisfaction. Chapter 4 reviews the changes that have taken place in college management as a result of changes in institutional size, the advent of collective bargaining, reductions in available funds, and changes in governance and control. Chapter 5 describes various funding patterns and their relationship to organizational shifts. Chapter 6 discusses the rise of learning resource centers and the maintenance of stability in instructional forms in spite of the introduction of a host of reproducible instructional media. Chapter 7 considers student personnel functions, including counseling, guidance, recruitment, retention, orientation, and extracurricular activities. Chapter 8 traces the rise of occupational education, as it has moved from a peripheral to a central position in the curriculum. Chapter 9 focuses on remedial and developmental programs and addresses the controversies surrounding student assessment and placement. Chapter 10 deals with adult and continuing education, lifelong learning, and community services. Chapters 11 and 12 examine curricular trends in the liberal arts and general education, highlighting problems and proposing solutions. Chapter 13 addresses the philosophical and practical questions that have been raised about the transfer function and the community college's role in enhancing student progress toward higher degrees. Finally, chapter 14 offers projections based on current trends in student and faculty demographics, college organization, curriculum, instruction, and student services. (JMC)

Youth Transforming Conflict Nadine Lyamouri-Bajja,Yael Ohana,Ruben Markosyan,Osama Abukatta,Ditta Dolejšiová,Aleksandra Vidanovic,2013-01-01 In 1998, the Council of Europe and the European Commission decided to take common action in the field of youth. Both institutions initiated a partnership agreement with the aim to promote active European citizenship and civil society by giving impetus to the training of youth leaders and youth workers working within a European dimension. In 2003, additional agreements were signed in the fields of youth research and Euro-Mediterranean youth co-operation. Since 2005, the partnership between the European Commission and the Council of Europe in the field of youth activities has focused on the following topics: European citizenship, human rights education and intercultural dialogue, quality and recognition of youth work and training, better understanding and knowledge of youth and youth policy development. The partnership between the European Commission and the Council of Europe in the field of youth brings together the two institutions' experience in non-formal education, youth policy, youth research and youth work practice. Activities organised within its framework gather representatives of those areas who share their knowledge and experience for the benefit of enhancing evidence-based policy, practice, quality and recognition of youth work and training. Results and other material are made available on the partnership website (<http://youth-partnership-eu.coe.int>) and in various publications, including the Training Kits (T-Kits). T-Kits are thematic publications written by experienced youth trainers and experts and

constitute easy-to-use handbooks for educational activities. All activities and publications enhance the exchange of experience and good practice between the actors involved and contribute to the implementation of the political objectives of both partner institutions.

Freedom of expression and the internet Wolfgang Benedek,Matthias C. Kettemann,2020-09-08 An invaluable resource for students of law, politics, international relations and technology as well as for diplomats and civil society actors, this publication demonstrates how the Council of Europe contributes to ensuring that everyone's voice online can be heard. This is key to sustainable, human rights oriented and people-centred digitalisation. Human rights matter on the internet. Without freedom of expression, people cannot participate in everything that the information society has to offer. Yet online free speech is in danger. Between state laws, private rules and algorithms, full participation in the online communicative space faces many challenges. This publication explores the profound impact of the internet on free expression and how it can be effectively secured online. The second, updated edition of this introduction into the protection of freedom of expression online answers essential questions regarding the extent and limits of freedom of expression online and the role of social networks, courts, states and organisations in online communication spaces. In clear language, with vivid examples spanning two decades of internet law, the authors answer questions on freedom of expression in cyberspace. Addressing issues from the protection of bloggers to the right to access online information, the publication also shows the importance of the standard-setting, monitoring and promotion activities of international and non-governmental organisations and includes a chapter on relevant national practice. It pays special attention to the role of European human rights law and the Council of Europe as this region's most important human rights organisation.

Digital citizenship education handbook Janice Richardson,Elizabeth Milovidov,2019-02-25 Being online, well-being online, and rights online: information, tools and good practice Digital citizenship competences define how we act and interact online. They comprise the values, attitudes, skills and knowledge and critical understanding necessary to responsibly navigate the constantly evolving digital world, and to shape technology to meet our own needs rather than to be shaped by it. The Digital citizenship education handbook offers information, tools and good practice to support the development of these competences in keeping with the Council of Europe's vocation to empower and protect children, enabling them to live together as equals in today's culturally diverse democratic societies, both on- and offline. The Digital citizenship education handbook is intended for teachers and parents, education decision makers and platform providers alike. It describes in depth the multiple dimensions that make up each of ten digital citizenship domains, and includes a fact sheet on each domain providing ideas, good practice and further references to support educators in building the competences that will stand children in good stead when they are confronted with the challenges of tomorrow's digital world. The Digital citizenship education handbook is consistent with the Council of Europe's Reference Framework of Competences for Democratic Culture and compatible for use with the Internet literacy handbook.

Gender matters (2nd ed) Anca-Ruxandra Pandea,Dariusz Grzemny,Ellie Keen,2020-02-24 Gender-based violence undermines the core values of human rights on which the Council of Europe is based and to which its member states have subscribed Gender-based violence refers to any type of harm that is perpetrated against a person or group of people because of their actual or perceived sex, gender, sexual orientation and/or gender identity. Gender-based violence can be sexual, physical, verbal, psychological (emotional), or socio-economic and it can take many forms – from verbal violence and hate speech on the internet, to rape or murder. Statistics show that gender-based violence affects women disproportionately. Gender-based violence undermines the core values of human rights on which the Council of Europe is based and to which its member states have subscribed. It is a problem in all member states and affects millions of women and men, young people and children, regardless of their social status, cultural or religious background, sexual orientation or gender identity. Preventing, addressing and combating gender-based violence are intrinsic to human rights education, youth work and non-formal learning activities which support young people on their path to autonomy as active citizens, mindful of everyone's human rights. The issues that are addressed through this work are all relevant to young people's lives, and they relate directly to the world in which young people live. Gender Matters is a manual to address gender-based violence with young people. It provides insights into gender and gender-based violence, background information to key social, political and legal issues and, especially, educational activities and methods for education and training activities with young people. Gender Matters should be used as a practical resource in guiding young people to become more aware of their own actions and the actions of others. It contributes to a better understanding of how to stay safe and secure and how to support those who have experienced violence in their lives. It will not suffice to eradicate gender-based violence. However it is a necessary and urgent step towards dignity for all.

Gowers Review of Intellectual Property Andrew Gowers,Great Britain: H.M. Treasury,2006-12-06 This report examines the importance of intellectual property (IP), ranging from patents, copyright, design and trade marks, and whether in the age of globalization, digitization and increasing economic specialization it still creates incentives for innovation, without unduly limiting access to consumers and stifling further innovation. The report does recommend a radical overhaul of the system, with the review concentrating on three areas, and setting out the following recommendations: (i) strengthening enforcement of IP rights, whether through clamping down on piracy or trade in counterfeit goods; (ii) reducing costs of registering and litigating IP rights for businesses large and small; (iii) improving the balance and flexibility of IP rights to allow individuals, businesses and institutions to use content in ways consistent with the digital age.

Right to Remember - A Handbook for Education with Young People on the Roma Genocide ,2014-01-01 Right to Remember is a self-contained educational resource for all those wishing to promote a deeper awareness of the Roma Genocide and combat discrimination. The handbook is based on the principles of human rights education, and places remembrance as an aspect of learning about, through and for human rights. Strengthening the identity of Roma young people is a priority for the Roma Youth Action Plan of the Council of Europe. This implies the creation of an environment where they can grow up free from discrimination and confident about their identity and future perspectives, while appreciating their history and their plural cultural backgrounds and affiliations. The Roma Genocide carried out before and during the Second World War has deeply impacted on Roma communities across Europe and plays a central role in understanding the prevailing antigypsyism and discrimination against Roma. Learning about the Genocide is very important for all young people. For Roma young people it is also a way to understand what was perpetrated against their communities, and to help them to come to terms with their identity and situation today. Involving young people, including Roma youth, in researching, discussing and discovering the meanings of the Roma Genocide is a way to involve them as agents and actors in their own understanding of human rights and of history. Right to Remember includes educational activities, as well as ideas for commemoration events, and information about the Genocide and its relevance to the situation of the Roma people today. It has been designed primarily for youth workers in non-formal settings, but it will be useful for anyone working in education, including in schools.

The importance of teaching Great Britain: Department for Education,2010-11-24 England's school system performs below its potential and can improve significantly. This white paper outlines action designed to: tackle the weaknesses in the system; strengthen the status of teachers and teaching; reinforce the standards set by the curriculum and qualifications; give schools back the freedom to determine their own development; make schools more accountable to parents, and help them to learn more quickly and systematically from good practice elsewhere; narrow the gap

in attainment between rich and poor. The quality of teachers and teaching is the most important factor in determining how well children do. The Government will continue to raise the quality of new entrants to the profession, reform initial teacher training, develop a network of teaching schools to lead training and development, and reduce the bureaucratic burden on schools. Teachers will be given more powers to control bad behaviour. The National Curriculum will be reviewed, specifying a tighter model of knowledge of core subjects so that the Curriculum becomes a benchmark against which school can be judged. Schools will be given more freedom and autonomy, the Academies programme extended and parents will be able to set up Free Schools to meet parent demand. Accountability for pupil performance is critical, and much more information will be available to aid understanding of a school's performance. School improvement will be the responsibility of schools, not central government. Funding of schools needs to be fairer and more transparent, and there will be a Pupil Premium to target resources on the most deprived pupils.

Higher Education for Modern Societies Sjur Bergan,Radu Damian,2010-01-01 Developing learners' competence is an important part of the mission of higher education. The kind of competences that higher education should develop depend on what we see as the purposes of higher education. The term converging competences points to the need not only to train individuals for specific tasks, but to educate the whole person. Education is about acquiring skills, but also about acquiring values and attitudes. As education policies move from an emphasis on process to a stronger emphasis on the results of the education processes, learning outcomes have come to be seen as an essential feature of policies both in Europe and North America. This book explores the roles and purposes of higher education in modern, complex societies and the importance of competences in this respect. Although public debate in Europe could give the impression that the sole purpose of higher education is to prepare for the labour market, this important role is complemented by at least three others: preparation for democratic citizenship, personal development and the development of a broad and advanced knowledge base. This work draws on the experiences in both Europe and North America to underline that the discussion is not in fact about which of these different purposes is the real one; they are all important, and they coexist.
