Samuel, Kings, Chronicles, Ezra-Nehemiah Athalya Brenner-Idan, Gale A. Yee, 2021-07-29 This volume brings together disparate views about biblical texts in the books of Samuel, Chronicles and Ezra-Nehemiah and examines their influence in the life of contemporary communities, demonstrating how today's environments and disorders help readers to acquire new insights into such texts. The contributing scholars hail from different continents - from East Asia to the United States to Europe to South Africa and Israel - and count themselves as members of various Jewish and Christian traditions or secularist ways of life. But, in spite of their differences in location and community membership, and perhaps in the spirit of the times (2020 and its global discontents), they share preoccupations with questions of ethics in politics and life, 'proper' death, violence and social exclusion or inclusion. This volume offers readers a better understanding of how politics and faith can be melded, both in ancient and contemporary contexts, to serve the interests of certain classes and societies, often at the expense of others.

Civil Democracy Protection Uwe Backes, Thomas Lindenberger, 2023-12-21 Civil Democracy Protection is an overview of attempts by organisations to oppose groups that are perceived to threaten democracy. The book traces the history of civil democracy protection actors from the establishment of democratic constitutional states up to the present day and develops a set of systematic and comparative approaches. The central question it explores is: What significance do civil actors have for the establishment and consolidation of democratic constitutional states, especially in relation to the protection of democracy by state institutions? The volume includes contributions from historians and social scientists, who combine idiographic approaches that focus on the specifics of individual cases with nomothetic approaches that aim to provide generalisable insights, incorporating historical experiences from various European countries and the USA in the 20th and early 21st century. This book will be of interest to scholars of democracy protection, civil society, consolidation of democracy, and anti- extremism. The Arabic Freud Omnia El Shakry, 2020-03-31 Omnia El Shakry challenges the notion of a strict divide between

psychoanalysis and Islam by tracing how postwar thinkers in Egypt blended psychoanalytic theories with concepts from classical Islamic thought in a creative encounter of ethical engagement. Drawing on scholarly writings as well as popular literature on self-healing, El Shakry provides the first in-depth examination of psychoanalysis in Egypt and reveals how a new science of psychology – or science of the soul, as it came to be called – was inextricably linked to Islam and mysticism. She explores how Freudian ideas of the unconscious were crucial to the formation of modern discourses of subjectivity in areas as diverse as psychology, Islamic philosophy, and the law.

L'Extase Christophe Stener, 2017-02-14 Le Dictionnaire amoureux de l'extase présente les diverses expressions de l'extase spirituelle dans les religions et spiritualités ainsi que la transe des cultes primitifs et antiques, l'extase de la Gnose et celle des occultismes, mais aussi la possession satanique. Le regard de la médecine et de la psychanalyse sur l'extase, la transe et la possession, le traitement médical par l'invention du vibromasseur de l'hystérie féminine sont présentés. La pensée des philosophes mystiques éclaire l'analyse. L'extase sensuelle, dans ses expressions extrêmes de l'asphyxie érotique, est étudiée comme l'extase artistique, celle de la musique et de la danse. L'extase collective, celle des foules, comme le marketing de l'extase sont discutés. Rapprocher dans un même Dictionnaire sainte Thérèse, l'icône du mysticisme catholique et l'héroïne de l'Empire des sens, choquera le lecteur pudibond mais elles furent toutes deux, de grandes amoureuses.

Judas Iscariot dans la littérature moderne Christophe Stener, 2021-09-17 Judas Iscariot est une figure majeure du récit évangélique. Sans Judas pas de mort de Jésus-Christ en Croix et pas de Rédemption. Le geste de Judas, sa livraison de Jésus, sa trahison traduira à tort Jérôme dans sa Vulgate dans une intention accusatoire qui nourrira deux mille ans d'antijudaïsme chrétien, reste un mystère. Les motivations de l'Iscariot ne sont pas explicitées par Marc et Matthieu, Luc et Jean introduisent Satan dans l'intrigue évangélique, Jean invente l'avarice mais ne convainc pas. Pourquoi Jésus a-t-il laissé ce disciple agir ? Ne lui a-t-il même pas enjoint de le faire ? La fin de Judas, suicidé ou mort par accident, ayant survécu, reste incertaine. Les Ecritures autorisent bien des théories. Le cas Judas est une crux theologia. Face à ces apories, la littérature religieuse glose, celle profane invente un passé, une famille, des amours, un caractère au disciple égaré pour instruire son procès, à charge ou à décharge selon les auteurs. Hagiographié, sanctifié ou en Enfer pour l'éternité ? Judas le félon, le traître, le perfide ou Judas l'initié, le disciple le plus proche de Jésus, celui qui l'aimât tant qu'il fut le seul apôtre à assumer la fatale livraison. Damné ou corédempteur ? L'analyse de 392 textes montre combien le personnage fascine et reste mystérieux. Le volume 1er de cet ouvrage présente une analyse thématique et la littérature française, le volume 2nd présente la littérature non française. Cet ouvrage constitue le Ve tome de l'Iconographie antisémite de la vie de Judas Iscariot, ouvrage qui comporte sept volumes.

Топ-менеджмент. Теория и практика Лариса Калганова, Игорь Ложевский, 2020-06-29 В книге восполняется теоретический пробел, образовавшийся на протяжении почти 150-летнего развития общего менеджмента, в составе которого рассматривался топ-менеджмент. Впервые топ-менеджмент теоретически дифференцирован из состава общего менеджмента и его деятельность выведена из рамок организации на границу внешней и внутренней сред. Определены особые функции топ-менеджмента как пограничного слоя, без которых организация не может функционировать. Топ-менеджмент рассматривается как актив организации, прямо влияющий на ее результативность. Создавая теорию, авторам пришлось разрушить каноны и стереотипы, чтобы по-новому взглянуть на топ-менеджмент и познакомить читателя с широким спектром взаимосвязанных вопросов экономики и общества. Книга адресована топ-менеджерам, членам советов директоров и других органов корпоративного управления, а также менеджерам среднего и низового уровня, которые хотят работать наверху, каждый из них найдет в книге полезное для себя. Она также представляет интерес для исследователей и

аналитиков новыми теоретическими результатами, создающими научные основы топ-менеджмента и позволяющие перейти на более высокий уровень познания и исследования процессов управления организаций.

The U.S. Constitution Carla Mooney, 2016-09-19 Where did the American democratic tradition begin? From ancient civilizations in Greece and Rome to the Enlightenment in Europe, democratic ideas throughout time have influenced the development of democracy in the United States. In *The U.S. Constitution: Discover How Democracy Works*, children ages 9 through 12 learn about the foundation of democracy and how the documents crafted hundreds of years ago still have an impact on our country today. They explore the Declaration of Independence, U.S. Constitution, and the Bill of Rights, among others. These documents provide a framework with which we make the laws and processes that help keep democracy a vital paradigm. Through hands-on projects, which include analyzing how the promises made in the Preamble of the Constitution were put into practice and investigating how to balance the freedom of speech in the digital age, students investigate how American democracy operates. With colorful illustrations, interesting sidebars, and links to online primary sources, this book asks readers to consider the effect of technology on democracy and make predictions about future documents that will be important to the preservation of democracy around the world.

American Military History Volume 1 Army Center of Military History, 2016-06-05 American Military History provides the United States Army-in particular, its young officers, NCOs, and cadets-with a comprehensive but brief account of its past. The Center of Military History first published this work in 1956 as a textbook for senior ROTC courses. Since then it has gone through a number of updates and revisions, but the primary intent has remained the same. Support for military history education has always been a principal mission of the Center, and this new edition of an invaluable history furthers that purpose. The history of an active organization tends to expand rapidly as the organization grows larger and more complex. The period since the Vietnam War, at which point the most recent edition ended, has been a significant one for the Army, a busy period of expanding roles and missions and of fundamental organizational changes. In particular, the explosion of missions and deployments since 11 September 2001 has necessitated the creation of additional, open-ended chapters in the story of the U.S. Army in action. This first volume covers the Army's history from its birth in 1775 to the eve of World War I. By 1917, the United States was already a world power. The Army had sent large expeditionary forces beyond the American hemisphere, and at the beginning of the new century Secretary of War Elihu Root had proposed changes and reforms that within a generation would shape the Army of the future. But world war-global war-was still to come. The second volume of this new edition will take up that story and extend it into the twenty-first century and the

early years of the war on terrorism and includes an analysis of the wars in Afghanistan and Iraq up to January 2009.

Hard Times Charles Dickens, 1854

Waters of Discord Rodman L. Underwood, 2008-03-18 At the beginning of the American Civil War the Federal government imposed a blockade of the southern coast of the Confederate States of America, including the dark corner of the Confederacy--Texas. Much of the fighting in Texas during the Civil War took place in the state's coastal counties and the adjoining Gulf of Mexico waters, and nearly all of these engagements were involved in one way or another with the Union blockade of the Texas coast. This book examines all major blockade-related land and sea engagements in and near Texas, and also includes many minor ones. It begins with a discussion of the blockade's creation and then concentrates on the successful Confederate efforts to evade the blockade by shipping cotton out of Mexico and, in return, receiving materiel and civilian goods through that neutral nation. The author also covers political intrigue and the spy activity with the French who had invaded Mexico. The book concludes with an analysis of the effectiveness of the Union blockade of Texas.

World War II Diane Taylor, 2018-05-01 Why did the world find itself immersed in another global conflict only two decades after World War I? World War II: From the Rise of the Nazi Party to the Dropping of the Atomic Bomb introduces kids ages 12 to 15 to the political, military, and cultural forces that shook the globe from 1939 to 1945 and beyond. Germany suffered terribly after World War I, due to the harsh repercussions imposed on the country with the 1919 Treaty of Versailles. Hitler and the Nazi party, with their extremist views on racial superiority and their eagerness to erase certain ethnicities and cultures through systemic murder, found a country ready to rise up and conquer weaker nations. Totalitarianism wasn't limited to Germany, however. The Axis countries of Italy and Japan also saw opportunities to overcome surrounding nations. The early events of the 1940s convinced the Allied countries of France, Britain, Russia, and the United States to join forces against the aggressor nations. World War II invites middle school students to examine the events leading up to, during, and after WWII and the repercussions of these events on populations around the world. Readers learn about Germany's

invasion of Poland and the resulting domino fall of events that engaged several countries and eventually caused the deaths of 60 million people, including 40 million civilians. They also see how the dark side of Hitler's ideology was always present, eventually resulting in the Holocaust, the systematic murder of 11 million people, including 6 million Jews and other populations. Through primary sources, essential questions, and engaging text, readers gain a comprehensive understanding of the politics, the economics, the strategy, and the human experience of this global conflict. They also work to find comparisons and parallels between the world as it was before and during WWII and as it is now. Investigative activities, including deconstructing patriotic songs of the era and examining maps of Europe, Asia, and Africa during different time periods serve as jumping-off points for further critical thinking and explorative inquiry as kids delve into the legacy of World War II. What did the world learn from World War II? Could World War II ever happen again? World War II is one book in a set of four that explore great events of the twentieth century. Other titles in this set include Globalization: Why We Care About Faraway Events; The Vietnam War; and The Space Race: How the Cold War Put Humans on the Moon.
