Housing Governance in a Time of Financialization Roman Zwicky,2020-12-31 In recent years, the financialization of housing has become a major challenge to many cities across the globe, not the least because it tends to favor the interests of global finance over the needs of residents. Based on three case studies in the city regions of Zurich, Birmingham and Lyon, the present investigation analyzes the interplay of housing governance and policies over the past 20 years against the backdrop of the financialization of housing.

Crashes, Crises, and Calamities Len Fisher,2011-03-29 Why do certain civilizations, societies, and ecosystems collapse? How does the domino effect relate to the credit crunch? When can mathematics help explain marriage? And how on earth do toads predict earthquakes? The future is uncertain. But science can help foretell what lies ahead. Drawing on ecology and biology, math and physics, Crashes, Crises, and Calamities offers four fundamental tools that scientists and engineers use to forecast the likelihood of sudden change: stability, catastrophe, complexity, and game theories. In accessible prose, Len Fisher demonstrates how we can foresee and manage events that might otherwise catch us by surprise. At the cutting edge of science, Fisher helps us find ways to act before a full-fledged catastrophe is upon us. Crashes, Crises, and Calamities is a witty and informative exploration of the chaos, complexity, and patterns of our daily lives.

Comparative Racial Politics in Latin America Kwame Dixon,Ollie A. Johnson III,2018-09-04 Latin America has a rich and complex social history marked by slavery, colonialism, dictatorships, rebellions, social movements and revolutions. Comparative Racial Politics in Latin America explores the dynamic interplay between racial politics and hegemonic power in the region. It investigates the fluid intersection of social power and racial politics and their impact on the region's histories, politics, identities and cultures. Organized thematically with in-depth country case studies and a historical overview of Afro-Latin politics, the volume provides a range of perspectives on Black politics and cutting-edge analyses of Afro-descendant peoples in the region. Regional coverage includes Argentina, Brazil, Colombia, Cuba, the Dominican Republic, Ecuador, Haiti and more. Topics discussed include Afro-Civil Society; antidiscrimination criminal law; legal sanctions; racial identity; racial inequality and labor markets; recent Black electoral participation; Black feminism thought and praxis; comparative Afro-women social movements; the intersection of gender, race and class, immigration and migration; and citizenship and the struggle for human rights. Recognized experts in different disciplinary fields address the depth and complexity of these issues. Comparative Racial Politics in Latin America contributes to and builds on the study of Black politics in Latin America.

Proceedings of the 3rd International Conference of Economics and Management (CIREG 2016) Volume II Hocine Berbou,Aziz Fassouane,Mustapha Belaissaoui,2020-04-06 This book brings together papers presented at the 3rd Conference of Research in Economics and Management (CIREG) held in Morocco in May 2016. With a focus on the challenges of SMEs and innovative solutions, they highlight the contribution of researchers in the fields of business and management, with all their micro and macro-economic aspects. They shed light on the universal scientific vision of the importance of SMEs with answers relevant to their local context and adapted to their specific national situation. The relevance of SME research lies in its heuristic value of analyzing change, rather than in constructing a category, a particularly useful empirical concept. This third volume is focused on marketing and human resources.

Kafka's Monkey and Other Phantoms of Africa Seloua Luste Boulbina,2019-05-24 Even though many of France's former colonies became independent over fifty years ago, the concept of colony and who was affected by colonialism remain problematic in French culture today. Seloua Luste Boulbina, an Algerian-French philosopher and political theorist, shows how the colony's structures persist in the subjectivity, sexuality, and bodily experience of human beings who were once brought together through force. This text, which combines two works by Luste Boulbina, shows how France and its former colonies are haunted by power relations that are supposedly old history, but whose effects on knowledge, imagination, emotional habits, and public controversies have persisted vividly into the present. Luste Boulbina draws on the work of Michel Foucault, Frantz Fanon, and Édouard Glissant to build a challenging, original, and intercultural philosophy that responds to blind spots of inherited political and social culture. Kafka's Monkey and Other Phantoms of Africa offers unique insights into how issues of migration, religious and ethnic identity, and postcolonial history affect contemporary France and beyond.

Globalisation and Energy Transition in Latin America and the Caribbean Matheus Koengkan,José Alberto Fuinhas,2022-10-13 This book explores the potential for renewable energy development and the adoption of sustainable production processes in Latin America and the Caribbean. By examining the energy transition process, the impact of environmental degradation, and the relationship between renewable energy sources and economic growth, the effects of increased globalisation and liberalisation in this part of the world are analysed. Particular attention is given to renewable energy investment, the energy-economics growth nexus, the impact of trade openness, and the mitigation of carbon emissions. This book aims to highlight econometric techniques that can be used to tackle issues relating to globalisation, the energy transition, and environmental degradation. It

will be relevant to researchers and policymakers interested in energy and environmental economics.

Obesity Epidemic and the Environment Matheus Koengkan, Jose Alberto Fuinhas, Aida Isabel P. Tavares, Nuno Silva, 2022-10-20 *Obesity Epidemic and the Environment: Latin America and the Caribbean Region* provides a broad analysis of the macroeconomic impact of the obesity epidemic on environmental degradation in the LAC region. Case studies combine theory and practice to achieve critical conclusions (and subsequent policy implications), providing useful tools for those working on actual health, energy and environmental challenges. Written for researchers, policymakers, international organizations and practitioners in various fields, especially those in public health, health economics, energy and environmental economics and social sciences, this book thoroughly highlights the obesity epidemic in this region. In the LAC region, obesity has become a public health issue. The increase of this problem is related to the economic gains obtained from the process of liberalization and privatization, the increase of foreign investment, and infrastructure investments. Analyzes the macroeconomic impact of the obesity epidemic in the Latin America and Caribbean region Examines the effect of environmental degradation (CO₂ emissions) and the contribution it plays Develops working tools for the reader to access econometric techniques to grasp empirical approaches on health, energy and environmental economics

Migration and Integration Roland Hsu, Christoph Reinprecht, 2016-01-18 *Globalization has led to new forms, and dynamics, of migration and mobility. What are the consequences of these changes for the processes of reception, settlement and social integration, for social cohesion, institutional practices and policies?* The essays collected in this volume discuss these issues with reference to recent research on migration and mobility in Europe, the US, North and East Africa and South and Southeast Asia. The twenty authors are leading migration researcher from different academic fields such as sociology, geography, political science and cultural studies.

Evolution of Water Supply Through the Millennia Andreas N. Angelakis, Larry W. Mays, Demetris Koutsoyiannis, Nikos Mamassis, 2012-04-14 *Evolution of Water Supply Through the Millennia* presents the major achievements in the scientific fields of water supply technologies and management throughout the millennia. It provides valuable insights into ancient water supply technologies with their apparent characteristics of durability, adaptability to the environment, and sustainability. A comparison of the water technological developments in several civilizations is undertaken. These technologies are the underpinning of modern achievements in water engineering and management practices. It is the best proof that “the past is the key for the future.” Rapid technological progress in the twentieth century created a disregard for past water technologies that were considered to be far behind the present ones. There are a great deal of unresolved problems related to the management principles, such as the decentralization of the processes, the durability of the water projects, the cost effectiveness, and sustainability issues such as protection from floods and droughts. In the developing world, such problems were intensified to an unprecedented degree. Moreover, new problems have arisen such as the contamination of surface and groundwater. Naturally, intensification of unresolved problems led societies to revisit the past and to reinvestigate the successful past achievements. To their surprise, those who attempted this retrospect, based on archaeological, historical, and technical evidence were impressed by two things: the similarity of principles with present ones and the advanced level of water engineering and management practices. *Evolution of Water Supply Through the Millennia* is intended for engineers in water resources companies, hydraulic design companies, and water Institutes. It can be used for all courses related to water resources. Authors: Andreas N. Angelakis, Institute of Iraklion, National Foundation for Agricultural Research (N.A.G.R.E.F.), Greece, Larry W. Mays, School of Sustainable Engineering and the Built Environment, Arizona State University, USA, Demetris Koutsoyiannis, School of Civil Engineering, National Technical University of Athens, Greece, Nikos Manassis, School of Civil Engineering, National Technical University of Athens, Greece.

En quête de la vie en plénitude Jean Mollière Elarion,2018-04-22 Comment concilier la conviction fondamentale de la foi chrétienne, qui affirme que Dieu se révèle définitivement en Jésus-Christ vrai Dieu et vrai homme pour le salut de tous, avec la reconnaissance de la valeur positive des autres religions du monde ? Pourquoi l'évènement Jésus-Christ, situé dans l'espace et le temps, a-t-il une portée universelle et transhistorique ? Peut-on affirmer sans ambages que le processus du salut s'effectue de manière indépendante et sans ambiguïté dans les autres religions ? Comment respecter les expériences « salvifiques » non-chrétiennes dans ce qu'elles ont de spécifiques face aux affirmations de la foi chrétienne ? Dans cette étude, il s'agit en effet, dans un premier temps, d'évaluer théologiquement la spécificité de la foi chrétienne dans l'autorévélation de Dieu en Jésus de Nazareth face et en relation avec la pluralité des religions du monde à partir des perspectives de trois théologiens francophones. Et dans un deuxième temps, de fournir un instrument conceptuel adéquat permettant d'appréhender la diversité, de gérer et de neutraliser la variété en vue d'un dialogue vrai et efficace entre les religions, et par extension, entre le Catholicisme et la religion Vodou en Haïti. D'où le sens du concept « théologie des frontières » développé par l'auteur.

The New Allergy Solution Dr. Clifford Bassett,2017-03-21 One of America's top allergy doctors offers a revolutionary, full-body approach to diagnosing, preventing, and treating allergies—in many cases, for good. Millions of Americans currently suffer from allergies, and the rate is growing. Climate change, globalization, air pollution, and oversanitization of the environment in the early years of life are just a few of the causes that, taken together, have introduced new allergens into our environment that are wreaking havoc and causing needless suffering. This “new allergen marketplace” requires a new allergy solution. According to Dr. Clifford W. Bassett, traditional remedies focus on treating symptoms but leave allergy sufferers vulnerable to continued bouts of misery. Dr. Bassett argues that when we consider a person’s genetics, environment, and overall health, we can more effectively identify—and take appropriate action to forestall—symptoms before they even begin. For the first time, Dr. Bassett presents the unique, integrative approach he’s used in his Manhattan offices for two decades to vanquish allergy symptoms for countless individuals. In addition to explaining what allergy is (and isn’t) and identifying key triggers—from nuts to gluten to the nickel commonly used in cell phones—Dr. Bassett offers both medical and nonmedical alternatives to treatment, and specific, proactive steps to protect against common allergens. Allergens are here to stay, but with *The New Allergy Solution*, your life need no longer be ruled and ruined by allergy. *The New Allergy Solution* strives to enhance your well-being through strategies for a greater sense of control, giving you more freedom to do what you love.

The Horizontal Effect of Fundamental Rights in the European Union Eleni Frantziou,2019-01-31 This book analyses the horizontal effect of fundamental rights in the European Union, from a constitutional perspective. It advances two main arguments: First, it argues that the horizontal effect of fundamental rights (i.e. their application to disputes between private parties) cannot be usefully discussed based on the existing EU horizontality doctrine, which associates horizontality with the exercise of horizontal direct effect only. That doctrine is characterised by a series of overly technical rules as to how the latter may be produced and has a case-specific nature that lacks overall constitutional coherence. Secondly, the book argues that a substantive theory of horizontality is required in EU law and sketches its main parameters. In the fundamental rights context, horizontal effect has organisational implications for society, which go beyond specific intersubjective disputes. It is argued that its determination requires an explicit recognition of the public character of certain private platforms of will formation (e.g. the workplace) and a discussion of the role of fundamental rights therein. At the same time, a constitutionally adequate model of horizontality involves an acknowledgment of the supranational character of EU adjudication: the determination of horizontal applicability of a fundamental right within a type of private authority relationship falls upon the Court of Justice, but the precise manifestation of horizontal effect (e.g. direct, indirect or state-mediated effect) rests with national courts.

Scotland and Beyond; the Families of Donald Gunn (Tormsdale) and John Gunn (Dalnaha, Strathmore and Braehour) Alastair Gunn, Donald Gunn, 2012-04 This book examines two linked Caithness Gunn families over many generations in places such as Scotland, Canada, Jamaica and Australia. It has many family trees, photographs and original documents including details of trips to Canada in the 1840s and Australia in the 1850s. Many letters from the mid 1800s are included. The book has many biographies including the Hon. Donald Gunn of Canada, William Gunn of Waranga Park, Sir John Gunn of Tormsdale and the Hon. John Alexander Gunn of New South Wales ('anthrax' Gunn). This book contains much original information showing how Gunns integrated into new lands. This work has taken many years and builds on documents held within the family and much detailed genealogical research. Two versions are available; a paperback black and white version and a deluxe hardback version with some colour photographs. The information and images are the same in both texts.
