### **Knowing al-Qaeda** Christina Hellmich, 2016-04-22

Despite a plethora of studies devoted to it, the current understanding of al-Qaeda and the threat it poses remains vague and ambiguous. Is al-Qaeda a rigidly structured organisation, a global network of semi-independent cells, a franchise, or simply an ideology? What role did Osama bin Laden play within the group and its terrorist campaign? What does it mean to talk about the global Salafi-jihad threat allegedly confronting the West? In addressing such questions many writers have sought to offer definitive answers, yet overall the truth about al-Qaeda remains elusive. This book moves beyond this traditional approach in order to investigate and critically assess how such answers reflect the particular epistemological frameworks within which they are produced. Its chapters explore the varied contexts within which the obscure entity labelled al-Qaeda is constituted as a comprehensible object of political, strategic, cultural, and scientific knowledge, and within which 'terrorism' is rendered an experience of quotidian life. This volume offers a much-needed critical reflection on Western ways of talking and of thinking about the frightening experience of global terrorism. In trying to know how we know al-Qaeda, it offers us an opportunity to try to know ourselves and our often hidden assumptions about legitimacy, violence, and political purpose.

Welcome to Infinity Kathlyn Hinesley, 2002 Writing in an entertaining, autobiographical style, Kathlyn Hinesley combines research in anthropology, history and science with personal psychic experience and metaphysical theory. She tackles questions related to: life after death, spirit communication, shamanism, alien visitations, out-of-body travel, time travel, sacred sites, and the nature of reality of itself. She enlightens the reader by showing how many of

these topics are related and why. Welcome to Infinity presents us with an intriguing view of the universe: one that is home to a variety of otherworldly beings existing at different frequencies of vibration. Ms. Hinesley explores ancient and modern techniques for communicating and collaborating with these beings, and traveling to their realms. She describes the importance placed on human/spirit collaboration by ancient and native peoples, who viewed such contact as critical to the maintenance of harmony on earth. The author argues for a return to our roots: for a future in which humans and otherworldly beings work together for the good of the universe. Kathlyn Hinesley deciphers our interactions with the higher vibrations of our ecosystem. This is the hard science of the future. -Rick Ramsey, Kozmic Engine

**Manual of Romance Languages in Africa** Ursula Reutner, 2023-12-18 With more than two thousand languages spread over its territory, multilingualism is a common reality in Africa. The main official languages of most African countries are Indo-European, in many instances Romance. As they were primarily brought to Africa in the era of colonization, the areas discussed in this volume are thirty-five states that were once ruled by Belgium, France, Italy, Portugal, or Spain, and the African regions still belonging to three of them. Twenty-six states are presented in relation to French, four to Italian, six to Portuguese, and two to Spanish. They are considered in separate chapters according to their sociolinguistic situation, linguistic history, external language policy, linguistic characteristics, and internal language policy. The result is a comprehensive overview of the Romance languages in modern-day Africa. It follows a coherent structure, offers linguistic and sociolinguistic information, and illustrates language contact situations, power relations,

as well as the cross-fertilization and mutual enrichment emerging from the interplay of languages and cultures in Africa.

**Towards a Collaborative Society Through Creative Learning** Therese Keane, Cathy Lewin, Torsten Brinda, Rosa Bottino, 2023-09-27 This book contains the revised selected, refereed papers from the IFIP World Conference on Computers in Education on Towards a Collaborative Society through Creative Learning, WCCE 2022, Hiroshima, Japan, August 20-24, 2022. A total of 61 papers (54 full papers and 7 short papers) were carefully reviewed and selected from 131 submissions. They were organized in topical sections as follows: Digital Education and Computing in Schools, Digital Education and Computing in Higher Education, National Policies and Plans for Digital Competence.

Afghanistan Firouzeh Nahavandi, 2019-08-26 Histoire, société, politique, économie, religion et culture... L'ouvrage clé pour comprendre l'actualité de l'Afghanistan. Pays enclavé mais occupant une position stratégique importante, l'Afghanistan a dû surmonter de nombreuses crises. Elles ont pourtant été sans commune mesure avec la rupture introduite par l'invasion soviétique de 1979. Depuis, le pays est pris dans une spirale de tourmentes et d'agitations dont il peine à sortir. Sécurité et pauvreté sont des problèmes majeurs. L'économie est à reconstruire alors que le pays est un narco-État florissant. L'instabilité a conforté l'islam radical et les mouvements djihadistes se disputent le contrôle des régions. Or, le pouvoir ne dispose d'aucun levier sur le plan politique ou militaire pour faire pression sur les insurgés. Ironiquement, les Américains, qui étaient intervenus en 2001 pour chasser les talibans au pouvoir et combattre le terrorisme, ont commencé à négocier avec leurs ennemis d'antan. C'est sur ce pays complexe que se penche ce livre en essayant de construire des lignes de

compréhension donnant sens aux réalités auxquelles il fait face.

*Las fotografías y sus relatos* Aurora María Pachano Álvarez, 2020-12-30 Muchas investigaciones en Colombia han estudiado los sufrimientos y las violencias que produce el conflicto armado. Entre tanto, *Las fotografías y sus relatos* muestra que, de alguna manera, ha existido otra guerra: contra las mujeres y los niños; a menudo silenciosa, invisible, mas no por eso menos devastadora. De ahí que este libro analice cómo se construye y produce el sufrimiento, por medio de tres casos biográficos sobre mujeres de tres generaciones distintas: abuela, madre e hija, y de trabajo etnográfico, basado en el uso de fotografías como despertadoras de recuerdos y generadoras de historias. Con ello se examina también cómo se afecta la pertenencia a tres tipos de colectivos: el género, la clase social y la generación. El libro destaca, así mismo, la necesidad de visibilizar el sufrimiento de personas que, por su condición de clase o género, tienen pocas oportunidades de ser escuchadas, con la intención de romper con los silencios que llevan a normalizar las violencias cotidianas. Exponer estos sufrimientos —tan comunes, pero tan invisibles— puede constituir, ojalá, un primer paso para dejar de ser cómplices de ellos.

**L'innovation au service de la société** Marianne Chouteau, Joëlle Forest, Céline Nguyen, 2021-04-01 Dans un contexte général marqué par des défis sans précédent – lutte contre les inégalités, changement climatique, diminution des ressources, etc. –, l'innovation technologique est souvent stigmatisée et apparaît comme un parfait bouc-émissaire responsable de tous les maux. L'innovation peut cependant être au service de la société, pour peu que l'on tienne compte de son « sens » afin d'innover en conscience. Cet ouvrage introduit ainsi une

approche appelée « Penser le sens de l'innovation » (P.S.I.) comprenant un ensemble d'outils issus des sciences humaines et sociales comme l'observation, la cartographie, la créativité, la narration, etc. Il considère la question du « sens » comme centrale et l'appréhende tant du point de vue de la direction que de la signification de l'innovation. Ainsi, cette approche a pour but de renouveler la question éminemment politique de savoir quelles innovations doivent être conçues pour quelles sociétés.

*Soyez votre essentiel* Sara

Jaafar, 2022-03-21T00:00:00Z Aide-soignante, puis infirmière diplômée d'État et enfin cadre de santé, Mya est parvenue, à force de travail, à gravir tous les échelons dans le milieu hospitalier. Une carrière idéale, dans un environnement qui l'est beaucoup moins au fil des années : la perte de sens, les injonctions paradoxales, les conflits de valeurs, les tensions interpersonnelles, qui s'ajoutent aux soucis du quotidien... À l'aube de la quarantaine, elle se retrouve en burn-out et doit changer radicalement son approche du monde, du travail, et de la vie en général. À travers l'histoire de Mya, Sara Jaafar livre une véritable réflexion sur l'amour de soi et les clés pour se défaire des impacts de notre environnement et des freins que l'on s'impose inconsciemment. Nous explorons avec elle son parcours, des blessures de son enfance à sa prise de conscience et sa quête d'épanouissement. Un travail éclairant, étayé d'analyses psychologiques et spirituelles, qui vous mènera peut-être à votre tour sur le chemin de votre Essentiel.

**American Military History Volume 1** Army Center of Military History, 2016-06-05 American Military History provides the United States Army-in particular, its young officers, NCOs, and cadets-with a comprehensive but brief account of its past. The Center of Military History first published this work in 1956 as a textbook for senior ROTC courses. Since then it has gone through a number of updates and revisions, but the primary intent has remained the same. Support for military history education has always been a principal mission of the Center, and this new edition of an invaluable history furthers that purpose. The history of an active organization tends to expand rapidly as the organization grows larger and more complex. The period since the Vietnam War, at which point the most recent edition ended, has been a significant one for the Army, a busy period of expanding roles and missions and of fundamental organizational changes. In particular, the explosion of missions and deployments since 11 September 2001 has necessitated the creation of additional, open-ended chapters in the story of the U.S. Army in action. This first volume covers the Army's history from its birth in 1775 to the eve of World War I. By 1917, the United States was already a world power. The Army had sent large expeditionary forces beyond the American hemisphere, and

at the beginning of the new century Secretary of War Elihu Root had proposed changes and reforms that within a generation would shape the Army of the future. But world war-global war-was still to come. The second volume of this new edition will take up that story and extend it into the twenty-first century and the early years of the war on terrorism and includes an analysis of the wars in Afghanistan and Iraq up to January 2009.

*The Whirlwind War* Frank N. Schubert, 1995 CMH

Publication 70-30. Edited by Frank N. Schubert and Theresa L. Kraus. Discusses the United States Army's role in the Persian Gulf War from August 1990 to February 1991. Shows the various strands that came together to produce the army of the 1990s and how that army in turn performed under fire and in the glare of world attention. Retains a sense of immediacy in its approach. Contains maps which were carefully researched and compiled as original documents in their own right. Includes an index.
