Examine Your Faith! Pamela Christian,2013-07 Well-meaning people want to believe that all roads lead to the same God and heaven. But wanting something to be true is far different from truth lining up with reality. Unless you make an intentional effort to examine what you believe and why you believe it, it's quite possible you are living your life on the basis of a lie, and don't know it. - What is truth? - Is it relative or absolute? - Is it personal or universal? - What are the differences among the various religious faiths? Can they be blended? - Are we creating faith--a belief system--that is impotent by trying to accept all religions as equal?

Virtual Caliphate Yaakov Lappin,2011-01-01 In 1924 the last caliphate--an Islamic state as envisioned by the Koran--was dismantled in Turkey. With no caliphate in existence matching their ideals, al Qaeda and its hundreds of affiliate organizations have failed to achieve their goal of reestablishing radical Islamic rule. Journalist Yaakov Lappin asserts that this failure to create a homeland necessitated the formation of an unforeseen and unprecedented entity: an Islamist state on the Internet, the virtual caliphate. The virtual caliphate is an Islamist state that exists on computer servers around the world. Islamists use it to carry out functions typically reserved for a physical state, such as recruiting an army and training its soldiers, handling foreign affairs, and directing finances. In Virtual Caliphate, Lappin shows how Islamists employ twenty-first-century technology to achieve a seventh-century vision, hoping to soon upload the online state into the physical world. Lappin draws links between online sermons calling for violence and subsequent terror attacks like 2005's London transport bombing, a chilling glimpse of how the virtual caliphate has already moved beyond mere words and videos. Weaving together hard-to-find resources that often no longer exist online, Lappin captures a recent history of the virtual caliphate for the reader, exposing and demystifying all aspects of the jihadi online netherworld. Virtual Caliphate is a compelling and indispensable guide for anyone interested in understanding the technological aptitude of the global jihadi movement.

Very, Very, Very Dreadful Albert Marrin,2018-01-09 From National Book Award finalist Albert Marrin comes a fascinating look at the history and science of the deadly 1918 flu pandemic--and its chilling and timely resemblance to the worldwide coronavirus outbreak. In spring of 1918, World War I was underway, and troops at Fort Riley, Kansas, found themselves felled by influenza. By the summer of 1918, the second wave struck as a highly contagious and lethal epidemic and within weeks exploded into a pandemic, an illness that travels rapidly from one continent to another. It would impact the course of the war, and kill many millions more soldiers than warfare itself. Of all diseases, the 1918 flu was by far the worst that has ever afflicted humankind; not even the Black Death of the Middle Ages comes close in terms of the number of lives it took. No war, no natural disaster, no famine has claimed so many. In the space of eighteen months in 1918-1919, about 500 million people--one-third of the global population at the time--came down with influenza. The exact total of lives lost will never be known, but the best estimate is between 50 and 100 million. In this powerful book, filled with black and white photographs, nonfiction master Albert Marrin examines the history, science, and impact of this great scourge--and the possibility for another worldwide pandemic today. A Chicago Public Library Best Book of the Year!

The Algebra of Wealth Scott Galloway,2024-04-23 A must-have guide to optimizing your life for wealth and success, from bestselling author, NYU professor, and co-host of the Pivot podcast Scott Galloway. Today's workers have more opportunities and mobility than any generation before. They also face unprecedented challenges, including inflation, labor and housing shortages, and climate volatility. Even the notion of retirement is undergoing a profound rethink, as our life spans extend and our relationship with work evolves. In this environment, the tried-and-true financial advice our parents followed no longer applies. It's time for a new playbook. In The Algebra of Wealth, Galloway lays bare the rules of financial success in today's economy. In his characteristic unvarnished, no-BS style, he explains what you need to know in order to better your chances for economic security no matter what. You'll learn: How to find and follow your talent, not your passion, when making career decisions How to ride and optimize big economic waves (hard

truth: market dynamics always trump individual achievement) What small steps you can take that pay big returns later, including diversification and tax planning How stoicism can help you minimize spending and develop better financial habits Bursting with practical, game-changing advice from one of the world's most popular business school professors, *The Algebra of Wealth* is the practical guidebook you need to win today's wealth game.

Egyptians in Revolt Adel Abdel Ghafar, 2016-10-04 *Egyptians in Revolt* investigates the political economy of the Egyptian labor and student movements. Using elements of social movement theory within a broad political economy framework, it assesses labor and student mobilizations in four eras of contemporary Egyptian history: the pre-1952 era, the Nasser era, the Sadat era and the Mubarak era. *Egyptians in Revolt* examines how both student and labor groups responded to the political economy pressures of the respective eras. Within the context of social movement theory, the book argues that political opportunities and threats have had a significant impact on both student and labor mobilizations. In addition, the book explores how the movements have, at times, been able to affect government policies. However, the argument is made that the inability of both groups to sustain momentum in the long term is due to cooptation efforts by established political forces and the absence of viable and enduring organizational structures that are autonomous of state control. By combining analysis to include both labor and student movements, *Egyptians in Revolt* is a valuable resource for understanding the Egyptian political economy and its impact on mobilizations. It will therefore be of interest to students and scholars of Middle East Studies, as well as those interested in social movement more broadly.

Heath Course Pak Rfc Tan Lin, 2012 Like its predecessor, *HEATH* (plagiarism/outsource), *Heath Course Pak* exists somewhere between a Project Gutenberg version of Samuel Pepys Diary and a minute-to-minute news feed and blog of Heath Ledger's death. Sad, appropriated, lyrical and confused, the book contains a brief history of recent performance art, a legal defense of plagiarism, the diary of a poetry workshop at the Asian American Writer's Workshop, an MP3 protest song, and an examination of SMS and GMS technologies as distribution networks for human sadness. Multi-authored, and with numerous text blocks and photos, the revised edition contains 52 pages of new material, an interview, an annotated text, autographed photos of Jackie Chan and Heath Ledger, e-PostIts, COAs, and coffee/tea stains.

Wagadu Volume 4 Pushpa Parekh, 2008-08-15 This volume of *Wagadu: A Journal of Transnational Womens and Gender Studies* launches its second printed edition. *Wagadu* the Soninke name of the Ghana Empire controlled the present-day Mali, Mauritania and Senegal and was famous for its prosperity and power from approximately 300-1076 CE. It constituted the bridge between North Africa, the Mediterranean and Middle Eastern worlds and Sub-Saharan Africa. Ghana gave birth to the two most powerful West African Empires: Mali and Songhay. The modern country of Ghana (former British Gold Coast) derives its name from the Ghana Empire. Why *Wagadu*? *Wagadu* has come to be the symbol of the sacrifice women continue to make for a better world. *Wagadu* has become the metaphor for the role of women in the family, community, country, and planet. *Duna taka siro no yagare npale* The world does not go without women. This volume investigates the intersecting perspectives, grounded in or emanating from theoretical, discursive as well as experiential frameworks and positions specific to gender, disability and postcoloniality.

Anticipating a Nuclear Iran Jacquelyn K. Davis, Robert L. Pfaltzgraff Jr., 2013-12-17 This volume is based on the assumption that Iran will soon obtain nuclear weapons, and Jacquelyn K. Davis and Robert L. Pfaltzgraff Jr. develop alternative models for assessing the challenges of a nuclear Iran for U.S. security. Through three scenario models, the book explores the political, strategic, and operational challenges facing the United States in a post-Cold War world. The authors concentrate on the type of nuclear capability Iran might develop; the conditions under which Iran might resort to threatened or actual weapons use; the extent to which Iran's military strategy and declaratory policy might embolden Iran and its proxies to pursue more aggressive policies in the region and vis-à-vis the United States; and Iran's ability to transfer nuclear materials to others within and outside the region, possibly sparking a nuclear cascade. Drawing on recent post-Cold War deterrence theory, the authors consider Iran's nuclear ambitions as they

relate to its foreign policy objectives, domestic politics, and role in the Islamic world, and they suggest specific approaches to improve U.S. defense and deterrence planning.

Uprooted Albert Marrin, 2016-10-25 A Publishers Weekly Best Book of the Year A Booklist Editor's Choice On the 75th anniversary of the bombing of Pearl Harbor comes a harrowing and enlightening look at the internment of Japanese Americans during World War II— from National Book Award finalist Albert Marrin Just seventy-five years ago, the American government did something that most would consider unthinkable today: it rounded up over 100,000 of its own citizens based on nothing more than their ancestry and, suspicious of their loyalty, kept them in concentration camps for the better part of four years. How could this have happened? *Uprooted* takes a close look at the history of racism in America and carefully follows the treacherous path that led one of our nation's most beloved presidents to make this decision. Meanwhile, it also illuminates the history of Japan and its own struggles with racism and xenophobia, which led to the bombing of Pearl Harbor, ultimately tying the two countries together. Today, America is still filled with racial tension, and personal liberty in wartime is as relevant a topic as ever. Moving and impactful, National Book Award finalist Albert Marrin's sobering exploration of this monumental injustice shines as bright a light on current events as it does on the past.

Purpose Driven Creation Carlos Ramirez Trevino, 2016-12-05 *Purpose Driven Creation* endeavors to enhance our understanding of God's reason for creating a spiritual and material existence and our role in creation by addressing themes that drive our Christian experience and commitment. To know the will of God for creation is to fathom the answer to the question the psalmist posed: What is mankind that you show so much concern for them? The book also details a theologically and philosophically viable apologetic, in a way not previously explored, to the question of the existence of pain, suffering, corruption, and evil in a world created by a good and almighty God. Also discussed are the existence of extraterrestrial life, the future, and free will as the driving force behind the fall. Easy-to-follow, biblically sound arguments give readers much to reflect on and study. Motivating and inspirational, this book will refresh, uplift, and edify the soul of evangelical Christianity.

Research Methods for Community Change: A Project-Based Approach Randy Stoecker, 2013 *Research Methods for Community Change: A Project-Based Approach*, Second Edition is an in-depth review of all of the research methods that communities can use to solve problems, develop their resources, protect their identities, and build power. With an engaging writing style and numerous real world examples, Randy Stoecker shows how to use a project-based research model in the community to: diagnose a community condition; prescribe an intervention for the condition; implement the prescription; and evaluate its impact. At every stage of this model there are research tasks, from needs and assets assessments to process and outcome studies. Readers also learn the importance of involving community members at every stage of the project and in every aspect of the research, making the research part of the community-building process.

Recognition and Redistribution Heloise Weber, Mark T. Berger, 2019-07-09 This is an innovative and insightful approach to the global politics of development. The authors challenge conventional perspectives of, and approaches to, development and offer alternative accounts of the politics of development from the perspective of non-state centred and non-state centric approaches. The authors offer critical reinterpretations of historical experiences of development processes and together with insightful analysis of contemporary development strategies this is a genuinely new perspective on the global politics of development. Moreover, in moving beyond more 'economistic' approaches to development this book seeks to uncover the complexity of development in ways that account for social relations of power and identity. The authors successfully demonstrate the transdisciplinary nature of the politics of development in their respective engagement with political theory, anthropological and sociological perspectives in ways that provide an overall integrated approach to the politics of recognition and redistribution in development. In contrast to globalisation calling into question the idea and practices of international development, this study situates the question of the politics of the

'international' within a broader historical context of global social relations of power and dispossession, and their impact on states, regions and cultures. In framing the project as whole through the concepts of recognition and redistribution, this is a genuine effort to 'rethink development'. It is timely in an era of global politics and globalisation wherein both issues of identity and struggles over development challenge us to re-rethink disciplinary boundaries.

International Council of Nurses Madrean Schober, Fadwa Affara, 2009-02-12 Advanced Nursing Practice addresses the key issues in practice, education, regulation, research and role/practice development, which are central to defining the distinctive nature of advanced nursing practice (ANP) and explores international developments in the field of ANP. Advanced Nursing Practice has been developed in recognition of the key role nurses with advanced knowledge and skills play in developing health care services worldwide. The book tracks the evolution of new advanced practice nursing roles and innovative practice models, and examines the need for international guidelines. In exploring strategies for implementing ANP in the context of countries' health care needs, Advanced Nursing Practice addresses legal and ethical challenges and commonalities and differences in advanced nursing practice, while examining the implications, obstacles, and facilitative strategies in maintaining, implementing and supporting the development of ANP. This book provides guidance in decision-making, examines the implications for liaising with other health care professionals and encourages nurses to shape their role to the needs of their patients and practice.

Light Colour Line - Perceiving the Mediterranean Thomas Dittelbach, Ágnes Sebestyén, 2017-02-01 Das Licht, die Farbe, die Horizontlinie sind Parameter für unsere Wahrnehmung des Mittelmeers. Wir müssen uns die Frage stellen, ob sich diese Wahrnehmung auch in den Erzählungen, in den Ritualen der „Anderen“, in ihren performativen und mündlichen Traditionen widerspiegelt. Narrative Formen der Vermittlung offenbaren im Vergleich mit der wahrgenommenen Realität Brüche und Widersprüche. Auf verschiedenen Wegen, die vom Mittelalter bis in die Gegenwart führen, versuchen die Autoren zu zeigen, wie eine Verständigung auf allen Seiten des Mittelmeers möglich ist. The light, the colour, the horizon line are parameters for the perception of the Mediterranean. The key issue is how we can connect all the specific ways of perception which each of us necessarily has of the Mediterranean. All the different convergences need to reflect themselves and reverberate in the narratives, the rituals, the performances and oral traditions of our perception of one another. Perceiving the Mediterranean means to pursue a dialectical process in discovering the otherness of our counterparts at the other edge of the horizon which is not simply an aesthetic line. Using narrative forms of representation, literary, filmic and photographic media require modes of perceiving the Mediterranean that in comparison with perceived reality reveal fractures and contradictions – conflicting narratives. This book tries to offer different ways, topics and interdisciplinary methods, from medieval to recent times, to drive forward a mutual communication on Mediterranean issues.

The Devil That Never Dies Daniel Jonah Goldhagen, 2013-09-03 A groundbreaking--and terrifying--examination of the widespread resurgence of antisemitism in the 21st century, by the prize-winning and #1 internationally bestselling author of Hitler's Willing Executioners. Antisemitism never went away, but since the turn of the century it has multiplied beyond what anyone would have predicted. It is openly spread by intellectuals, politicians and religious leaders in Europe, Asia, the Arab world, America and Africa and supported by hundreds of millions more. Indeed, today antisemitism is stronger than any time since the Holocaust. In THE DEVIL THAT NEVER DIES, Daniel Jonah Goldhagen reveals the unprecedented, global form of this age-old hatred; its strategic use by states; its powerful appeal to individuals and groups; and how technology has fueled the flames that had been smoldering prior to the millennium. A remarkable work of intellectual brilliance, moral stature, and urgent alarm, THE DEVIL THAT NEVER DIES is destined to be one of the most provocative and talked-about books of the year.

Revolution, Representation, and Authoritarianism Sarah Wessel, 2021-11-29 This book examines Egypt's turbulent and contradictory political period

(2011-2015) as key to understanding contemporary politics in the country and the developments in the Arab region after the mass protests in 2010/11, more broadly. In doing so, it breaks new ground in the study of political representation, providing analytical innovation to the study of disenchantment with politics, democracy fatigue and social cohesion. Based on five years of intense fieldwork, the author provides rare insights into local and national ideas on politics, justice and identity, and on how people situate themselves and Egypt in the regional and global context. It analyzes how the creation of an alternate, political system was discussed and negotiated among the Egyptian population, the military, the government, public figures, the media, and international actors, and yet nevertheless today, Egypt has a new political regime that is the most repressive in the countries' modern history. Finally, it recalls the emotions and perceptions of individuals and collectives and interlinks these local perspectives to national events and developments through time. This book will be of key interest to scholars and students of democratization and authoritarianism, Middle East Studies, political representation and informality, collective action, and more broadly to cultural studies and international relations.

The Process of Community Health Education and Promotion Eva I. Doyle, Susan E. Ward, Jody Oomen-Early, 2009-08-05 Improved health and quality of life are the overarching goals of community health education and promotion, and thus form the backbone of this thoroughly revised and updated text. The authors provide a balanced overview of the information, perspectives, and competencies that health professionals need to promote health and quality of life effectively in community, school, workplace, and health-care settings. They orient the discussion within the professional paradigm of boundary-crossing partnerships across health disciplines, emphasizing the role of collaborative efforts to better meet community health needs. The Process of Community Health Education and Promotion, Second Edition, is designed to stimulate thought, discussion, and action. It incorporates real-world examples, practical questions, and a conversational tone to engage readers in a meaningful way. The authors' experiential learning approach is evident in the multitude of special features designed to help readers explore ideas and test recommended approaches. For example, learning objectives and review questions highlight targeted learning concepts. For Your Information boxes provide nutshell descriptions, how-to guidelines, checklists, and examples that complement and expand on chapter content. The For Your Application activities at the end of each chapter offer abundant opportunities for self-directed or instructor-guided learning experiences. Moreover, the appendixes include a community assessment project guide and a professional portfolio guide, to which many of the activities throughout the book contribute. This text successfully links the classroom to the real world with a skills-based focus that not only enhances professional preparation but also facilitates and supports continuing professional development.

Pharaohs of the Bible (Mizraim to Shishak) Eve Clarity, 2012 Pharaohs of the Bible (Mizraim to Shishak) proves the Biblical history is accurate. It explains how over 200 pharaohs of the 1st - 17th dynasties reigned during only 600 years between Noah's flood and Joseph's famine. This breakthrough book intertwines the history of the Old Testament with the archaeological facts and events of Egypt, the Levant, and the cultures around the Mediterranean Sea. By correlating facts of famines in Egypt with the Bible, several major connections were made. For example, thirty huge temporary silos were constructed at Tell el-Daba (Avaris) soon after Ahmose I conquered it, connecting Ahmose I with Joseph's 7-year famine and the huge grain silos in Boeotia, Greece. Hundreds of black and white maps, charts, and pictures simplify the complexity and immensity of the data to enable readers to follow God's remarkable revelation of history.
