

The Digital Transformation of the Healthcare System Katarzyna Kolasa, 2023-07-31 This book examines how the digital revolution has reorganized the model of healthcare during the COVID-19 pandemic and argues for a continued paradigm shift to digital healthcare. Katarzyna Kolasa sets the vision of healthcare 5.0 that relieves the burden on limited healthcare resources and creates better health outcomes by switching the focus from treatment to prediction and prevention. She advocates for a patient-centric ecosystem that empowers patients to take control of their health via new knowledge-based technologies such as next-generation sequencing (NGS), nanotechnology, artificial intelligence and digital therapeutics. Highlighting the mindset shift needed to transform healthcare and outlining in detail a futuristic vision of healthcare 5.0, this book will be of interest to academics and professionals of health policy, health economics and digital health.

Leadership by Example Institute of Medicine, Committee on Enhancing Federal Healthcare Quality Programs, 2003-05-21 The federal government operates six major health care programs that serve nearly 100 million Americans. Collectively, these programs significantly influence how health care is provided by the private sector. Leadership by Example explores how the federal government can leverage its unique position as regulator, purchaser, provider, and research sponsor to improve care – not only in these six programs but also throughout the nation's health care system. The book describes the federal programs and the populations they serve: Medicare (elderly), Medicaid (low income), SCHIP (children), VHA (veterans), TRICARE (individuals in the military and their dependents), and IHS (native Americans). It then examines the steps each program takes to assure and improve safety and quality of care. The Institute of Medicine proposes a national quality enhancement strategy focused on performance measurement of clinical quality and patient perceptions of care. The discussion on which this book focuses includes recommendations for developing and pilot-testing performance measures, creating an information infrastructure for comparing performance and disseminating results, and more. Leadership by Example also includes a proposed research agenda to support quality enhancement. The third in the series of books from the Quality of Health Care in America project, this well-targeted volume will be important to all readers of To Err Is Human and Crossing the Quality Chasm – as well as new readers interested in the federal government's role in health care.

Global Livestock Production Systems Timothy P. Robinson, 2011 Informed livestock sector policy development and priority setting is heavily dependent on a good understanding of livestock production systems. In a collaborative effort between the Food and Agriculture Organization and the International Livestock Research Institute, stock has been taken of where we have come from in agricultural systems classification and mapping; the current state of the art; and the directions in which research and data collection efforts need to take in the future. The book also addresses issues relating to the intensity and scale of production, moving from what is done to how it is done. The intensification of production is an area of particular importance, for it is in the intensive systems that changes are occurring most rapidly and where most information is needed on the implications that intensification of production may have for livelihoods, poverty alleviation, animal diseases, public health and environmental outcomes. A series of case studies is provided, linking livestock production systems to rural livelihoods and poverty and examples of the application of livestock production system maps are drawn from livestock production, now and in the future; livestock's impact on the global environment; animal and public health; and livestock and livelihoods. This book provides a formal reference to Version 5 of the global livestock production systems map, and to revised estimates of the numbers of rural poor livestock keepers, by country and livestock production system.

TRABALHO EM TRANSE: RAÍZES E EFEITOS POLÍTICOS DAS MUDANÇAS NO MUNDO DO TRABALHO NO BRASIL Adalberto Cardoso, Fabiano Santos, Ericson Crivelli, 2023-11-23 A Editora Contracorrente tem a satisfação de anunciar a publicação do livro TRABALHO EM TRANSE: RAÍZES E EFEITOS POLÍTICOS DAS MUDANÇAS NO MUNDO DO TRABALHO NO BRASIL, organizado por Adalberto Cardoso, Fabiano Santos e Ericson Crivelli. A obra reúne alguns dos maiores especialistas no campo do trabalho e oferece uma análise perspicaz das complexas questões que envolvem as transformações no cenário laboral. Nos tempos atuais, o avanço tecnológico e as mudanças nas formas de produção e organização dos serviços estão reconfigurando profundamente o mundo do trabalho. No entanto, as representações tradicionais dos trabalhadores muitas vezes não conseguem acompanhar esse ritmo vertiginoso de mudança, resultando em desafios para a solidariedade e a coesão entre os trabalhadores. O livro questiona se as estruturas associativas que historicamente sustentaram a luta política dos trabalhadores estão sofrendo um declínio gradual e preocupante, e se a sociedade compreende plenamente a gravidade dessa transformação. Os dez capítulos do livro exploram de maneira abrangente e profunda os diversos aspectos desse processo de transformação. Cada capítulo é uma contribuição valiosa para a compreensão das raízes e dos efeitos políticos das mudanças no mundo do trabalho. Com um olhar crítico e fundamentado, os autores apresentam diagnósticos que proporcionam reflexões cruciais para enfrentar os desafios da organização capitalista contemporânea.

Last Will and Testament E. X. Ferrars, 2021-10-19 A wealthy woman's last will and testament draws together friends, family, a master felon, and a charming conman in this delightful mystery series debut. Mrs. Arliss was witty. Mrs. Arliss was delightful. But mostly, Mrs. Arliss was rich. And now, Mrs. Arliss is dead. Her friends and relations—gathered to shed a tear, knock back a post-funeral sherry, and determine what loot they've inherited—are horrified to discover that things are not as they might have wished. Only two people seem to have cared for Mrs. Arliss more than for her bank account and exquisite collection of eighteenth-century miniatures. One is her girlish secretary, the very model of a flustered ingenue. The other is Virginia Freer, who had in many ways been a second Arliss daughter. They should be free to mourn, but Virginia has a problem. The miniatures are missing and all clues point to her ex-husband Felix—a man who is charming, affectionate, and a double-dipped scoundrel.

Achieving the Paris Climate Agreement Goals Sven Teske, 2019-02-01 This open access book presents detailed pathways to achieve 100% renewable energy by 2050, globally and across ten geographical regions. Based on state-of-the-art scenario modelling, it provides the vital missing link between renewable energy targets and the measures needed to achieve them. Bringing together the latest research in climate science, renewable energy

technology, employment and resource impacts, the book breaks new ground by covering all the elements essential to achieving the ambitious climate mitigation targets set out in the Paris Climate Agreement. For example, sectoral implementation pathways, with special emphasis on differences between developed and developing countries and regional conditions, provide tools to implement the scenarios globally and domestically. Non-energy greenhouse gas mitigation scenarios define a sustainable pathway for land-use change and the agricultural sector. Furthermore, results of the impact of the scenarios on employment and mineral and resource requirements provide vital insight on economic and resource management implications. The book clearly demonstrates that the goals of the Paris Agreement are achievable and feasible with current technology and are beneficial in economic and employment terms. It is essential reading for anyone with responsibility for implementing renewable energy or climate targets internationally or domestically, including climate policy negotiators, policy-makers at all levels of government, businesses with renewable energy commitments, researchers and the renewable energy industry.

Death of a Minor Character E.X. Ferrars,2022-09-20 A couple’s been separated for six years—but it doesn’t stop them from sleuthing together—in this British mystery by a CWA Lifetime Achievement Award winner. Virginia Freer has had it with her sort-of-ex-husband’s taste for drama. A shopkeeper who lived in Virginia’s town has been murdered, and Felix Freer’s neighbor in London, a sweet old bird, has too. The crimes took place miles apart. But look at the coincidences, Felix insists. That unpleasant silversmith. That awful couple seeking revenge. These were not two separate murders, according to him—there is Something going on. Virginia raises an eyebrow and sighs deeply: The world lost a second Olivier, she thinks, when Felix opted for gambling, mooching, and petty theft rather than the stage. But eventually even her relentless pragmatism gets worn down, and thank goodness, because there is, indeed, Something going on. And Felix and Virginia are just the duo to sort it out, chalk and cheese though they may be . . . “There are few detective-story writers so consistently good.” –Sunday Times

Crossing the Quality Chasm Institute of Medicine,Committee on Quality of Health Care in America,2001-08-19 Second in a series of publications from the Institute of Medicine's Quality of Health Care in America project Today's health care providers have more research findings and more technology available to them than ever before. Yet recent reports have raised serious doubts about the quality of health care in America. Crossing the Quality Chasm makes an urgent call for fundamental change to close the quality gap. This book recommends a sweeping redesign of the American health care system and provides overarching principles for specific direction for policymakers, health care leaders, clinicians, regulators, purchasers, and others. In this comprehensive volume the committee offers: A set of performance expectations for the 21st century health care system. A set of 10 new rules to guide patient-clinician relationships. A suggested organizing framework to better align the incentives inherent in payment and accountability with improvements in quality. Key steps to promote evidence-based practice and strengthen clinical information systems. Analyzing health care organizations as complex systems, Crossing the Quality Chasm also documents the causes of the quality gap, identifies current practices that impede quality care, and explores how systems approaches can be used to implement change.

Morality Politics in a Secular Age Eva-Maria Euchner,2019-05-13 Euchner’s carefully researched and cogently argued study of morality politics in Europe adds an outstanding piece of research to the ever growing literature on religion and politics. Its combination of quantitative and qualitative comparative analysis involving a novel data set and cross-policy perspectives demonstrates persuasively the role of religion as a resource for political action even in secularized societies. –Michael Minkenberg, Viadrina European University, Germany “Building upon the dichotomy between the “secular” and “religious” worlds of European morality politics, Dr. Euchner plumbs the empirical depths of four nations to unearth a compelling theoretical explanation for when value-laden conflicts surface in parliaments with a strong secular-religious party cleavage. This singularly important volume belongs in the institutional libraries and bibliographic collections of every serious student of public policy analysis, especially those of us who focus on morality policy.” –Raymond Tatalovich, Loyola University Chicago, USA This book introduces a new theoretical framework from which to understand religion and morality politics in Europe. This framework provides a first—and rather provocative—answer to the general debate on how religion influences policy-making processes. Specifically, the book argues that religion is more a strategic resource for political parties than a fundamental normative doctrine shaping political parties’ policy-making behavior in a systematic and coherent way. The framework proposes a mechanism (i.e. wedge issue competition) that can be used to identify and explain the conditions under which issues related to religious values rise and fall in parliaments of the religious world in Europe and what consequences we may expect in terms of policy reforms.

Supervision in the Hospitality Industry John R. Walker,Jack E. Miller,2015-12-29 Supervision in the Hospitality Industry, 8th Edition focuses on the different roles of employees from beginning leaders, newly promoted supervisor, or anyone planning a career in the hospitality field. A market leader, this text is widely used by thousands of students training for a career in the hospitality industry and current hospitality supervisors alike. Supervision is unique in that it does not solely rely on the supervisor’s point of view; instead, it considers the viewpoints of all levels of associates to create an informed picture of management and supervision in the hospitality industry.
