Terrorist Movements and the Recruitment of Arab Foreign Fighters Roger Warren, 2020-02-20

This book offers the first detailed, in-depth account of how and why some Arab foreign fighters subsequently became involved in Islamist terrorism. Drawing on a personal dataset of 3,010 Arab foreign fighters compiled using biographies, martyrdom eulogies, and postings on 'jihadi' websites, *Terrorist Movements and the Recruitment of Arab Foreign Fighters* suggests that the subsequent involvement in Islamist terrorism by some Arab foreign fighters is primarily forged in the crucible of defensive jihad.

International Law, Necropolitics, and Arab Lives Khaled Al-Kassimi, 2022-10-27

International Relations and International Law continue to be accented by epistemic violence by naturalizing a separation between law and morality. What does such positivist juridical ethos make possible when considering that both disciplines reify a secular (immanent) ontology? *International Law, Necropolitics, and Arab Lives* emphasizes that positivist jurisprudence (re)conquered Arabia by subjugating Arab life to the power of death using extrajudicial techniques of violence seeking the implementation of a New Middle East that is no longer resistant to Latin-European modernity, but amenable to such exclusionary telos. The monograph goes beyond the limited remonstrance asserting that the problématique with both disciplines is that they are primarily Eurocentric. Rather, the epistemic inquiry uncovers that legalizing necropower is necessary for the temporal coherence of secular-modernity since a humanitarian logic masks sovereignty inherently being necropolitical by categorizing Arab-Islamic epistemology as an internal-external enemy from which national(ist) citizenship must be defended. This creates a sense of danger around which to unite modern epistemology whilst reinforcing the purity of a particular ontology at the expense of banning and de-

humanizing a supposed impure Arab refugee. This book will be of interest to graduate students, scholars, and finally, practitioners of international relations, political theory, philosophical theology, and legal-theory.

EU Personal Data Protection in Policy and Practice Bart Custers, Alan M. Sears, Francien Dechesne, Ilina Georgieva, Tommaso Tani, Simone van der Hof, 2019-02-28 In this book, the protection of personal data is compared for eight EU member states, namely France, Germany, the United Kingdom, Ireland, Romania, Italy, Sweden and the Netherlands. The comparison of the countries is focused on government policies for the protection of personal data, the applicable laws and regulations, implementation of those laws and regulations, and supervision and enforcement. Although the General Data Protection Regulation (GDPR) harmonizes the protection of personal data across the EU as of May 2018, its open norms in combination with cultural differences between countries result in differences in the practical implementation, interpretation and enforcement of personal data protection. With its focus on data protection law in practice, this book provides in-depth insights into how different countries deal with data protection issues. The knowledge and best practices from these countries provide highly relevant material for legal professionals, data protection officers, policymakers, data protection authorities and academics across Europe. Bart Custers is Associate Professor and Director of Research at the Center for Law and Digital Technologies of the Leiden Law School at Leiden University, the Netherlands. Alan M. Sears, Francien Dechesne, Ilina Georgieva and Tommaso Tani are all affiliated to that same organization, of which Professor Simone van der Hof is the General Director.

Education Reform in China Janette Ryan, 2013-07-03 Over the past decade there has been radical reform at all levels of China's education system as it attempts to meet changing economic

and social needs and aspirations. Changes have been made to pedagogy and teacher professional learning and also to the curriculum - both at the basic education level, from kindergarten to year 12, and at the higher education level. This book focuses on reform at the early childhood, primary and secondary levels, and is the companion book to China's Higher Education Reform and Internationalisation, which covers reform at the higher education level. Education Reform in China outlines the systematic transformation that has occurred of school curriculum goals, structure and content, teaching and learning approaches, and assessment and administrative structures, including the increasing devolvement of control from the centre to provincial, district and school levels. As well as illustrating the changes that are occurring within classrooms, it demonstrates the continuity of cultural and educational ideas and values in the midst of these changes, showing that reform does not just involve the adoption of foreign ideas, but builds on and even resurrects traditional Chinese educational values. Importantly, it considers how exchanges of people and ideas can contribute to new ways of working between Western and Chinese educational systems.

The Rhetoric of Conversion in English Puritan Writing from Perkins to Milton David Parry, 2021-12-30 This rhetorical study of the persuasive practice of English Puritan preachers and writers demonstrates how they appeal to both reason and imagination in order to persuade their hearers and readers towards conversion, assurance of salvation and godly living. Examining works from a diverse range of preacher-writers such as William Perkins, Richard Sibbes, Richard Baxter and John Bunyan, this book maps out continuities and contrasts in the theory and practice of persuasion. Tracing the emergence of Puritan allegory as an alternative, imaginative mode of rhetoric, it sheds new light on the paradoxical question of how allegories such as John Bunyan's *The Pilgrim's Progress* came to be among the most significant contributions of Puritanism to the English

literary canon, despite the suspicions of allegory and imagination that were endemic in Puritan culture. Concluding with reflections on how Milton deploys similar strategies to persuade his readers towards his idiosyncratic brand of godly faith, this book makes an original contribution to current scholarly conversations around the textual culture of Puritanism, the history of rhetoric, and the rhetorical character of theology.

The Commission on the Limits of the Continental Shelf Øystein Jensen, 2014-07-14 The Commission on the Limits of the Continental Shelf: Law and Legitimacy examines the Commission from two different but interrelated perspectives: a legal analysis of the Commission's decision-making; and a study of normative legitimacy related to the Commission and its procedures.

Drawing on extensive empirical research, this book explains how the judges who sit on international courts are selected.

Calibration of Watershed Models Qingyun Duan, Hoshin V. Gupta, Soroosh Sorooshian, Alain N. Rousseau, Richard Turcotte, 2003-01-10 Published by the American Geophysical Union as part of the Water Science and Application Series, Volume 6. During the past four decades, computer-based mathematical models of watershed hydrology have been widely used for a variety of applications including hydrologic forecasting, hydrologic design, and water resources management. These models are based on general mathematical descriptions of the watershed processes that transform natural forcing (e.g., rainfall over the landscape) into response (e.g., runoff in the rivers). The user of a watershed hydrology model must specify the model parameters before the model is able to

properly simulate the watershed behavior.

The Founding Fathers, Pop Culture, and Constitutional Law Professor Susan Burgess, 2013-02-28 Applying innovative interpretive strategies drawn from cultural studies, this book considers the perennial question of law and politics: what role do the founding fathers play in legitimizing contemporary judicial review? Susan Burgess uses narrative analysis, popular culture, parody, and queer theory to better understand and to reconstitute the traditional relationship between fatherhood and judicial review. Unlike traditional, top-down public law analyses that focus on elite decision making by courts, legislatures, or executives, this volume explores the representation of law and legitimacy in various sites of popular culture. To this end, soap operas, romance novels, tabloid newspapers, reality television, and coming out narratives provide alternative ways to understand the relationship between paternal power and law from the bottom up. In this manner, constitutional discourse can begin to be transformed from a dreary parsing of scholarly and juristic argot into a vibrant discussion with points of access and understanding for all.

Covering 34 countries, this text provides a useful snapshot of the issues that permeate virtual life. This text will aid lawyers when looking for where to begin when faced with a problem in this fast moving arena. Stephen Mason, barrister, academic and author International Handbook of Social Media Laws is the only title currently available to address social networking laws at an international level. It clearly explains each of the main legal issues and developments across various legal jurisdictions to ensure that a company's social media presence can be fully compliant with the law of each country. It covers all aspects of the law from a UK and international perspective by offering country report chapters that highlight the legal issues, cases and rules in each jurisdiction. Reviews "I was simply riveted ... [expert contributors] of a very high order indeed ... so much more than a worthy

compendium of SM laws and cases. It simply brings the whole subject alive ... [it] not merely describes what is going on. It makes you think. That is why this book is so valuable ...” The Rt. Hon. Professor Sir Robin Jacob. Foreword. “Social media has become the online meeting place. People now communicate on an unparalleled scale. Covering 34 countries, this text provides a useful snapshot of the issues that permeate virtual life. This text will aid the lawyer, student, journalist and others when looking for where to begin when faced with a problem in this fast moving arena.” Stephen Mason. Barrister, International expert and author on electronic evidence and electronic signatures. “In one wide-ranging volume, Lambert and the country reporters demonstrate that law can not only keep up with technological change, but can in fact stay well ahead by anticipating upcoming questions. This comprehensive comparative reference will be invaluable for lawyers and students serious about the widespread legal impact of social software, and the myriad ways in which different legal regimes react to these new and growing challenges.” Professor Joshua Fairfield. Washington and Lee University School of Law. The Internet offers amazing and at times bewildering choices, especially when it comes to online social media. This volume is your guiding star, shedding expert light not only on the legal perspectives of issues cropping up, but also on what we can expect the future to hold. An essential work for everyone in the field! Viktor Mayer-Schönberger. Professor Oxford Internet Institute, internet and law expert, author of the bestselling book Delete: The Virtue of Forgetting in the Digital Age.

Enforcing Privacy David Wright, Paul De Hert, 2016-04-19 This book is about enforcing privacy and data protection. It demonstrates different approaches – regulatory, legal and technological – to enforcing privacy. If regulators do not enforce laws or regulations or codes or do not have the resources, political support or wherewithal to enforce them, they effectively eviscerate and make

meaningless such laws or regulations or codes, no matter how laudable or well-intentioned. In some cases, however, the mere existence of such laws or regulations, combined with a credible threat to invoke them, is sufficient for regulatory purposes. But the threat has to be credible. As some of the authors in this book make clear – it is a theme that runs throughout this book – “carrots” and “soft law” need to be backed up by “sticks” and “hard law”. The authors of this book view privacy enforcement as an activity that goes beyond regulatory enforcement, however. In some sense, enforcing privacy is a task that befalls to all of us. Privacy advocates and members of the public can play an important role in combatting the continuing intrusions upon privacy by governments, intelligence agencies and big companies. Contributors to this book – including regulators, privacy advocates, academics, SMEs, a Member of the European Parliament, lawyers and a technology researcher – share their views in the one and only book on Enforcing Privacy.

Millennial Missionaries Katherine Dugan, 2019-01-02 Millennials in the U.S. have been characterized as uninterested in religion, as defectors from religious institutions, and as agnostic about the role of religious identity in their culture. Amid the rise of so-called nones, though, there has also been a countervailing trend: an increase in religious piety among some millennial Catholics. The Fellowship of Catholic University Students (FOCUS), which began evangelizing college students on American university campuses in 1998, hires recent college graduates to evangelize college students and promote an attractive and culturally savvy Catholicism. These millennial Catholics have personal relationships with Jesus, attend Mass daily, and know and defend papal teachings, while also being immersed in U.S. popular culture. With their skinny jeans, devotional tattoos, and large-framed glasses, FOCUS missionaries embody a hip, attractive style of Catholicism. They promote a faith that interweaves distinctly Catholic identity with outreach methods of twentieth-century

evangelical Protestants and the anxieties of middle-class emerging adulthood. Though this new generation of missionaries lives according to strict gender essentialism prescribed by papal teachings—including the notions that men lead while women follow and that biology dictates gender roles—they also support stay-at-home fatherhood and women earning MBAs. *Millennial Missionaries* examines how these young people navigate their Catholic and American identities in the twenty-first century. Illuminating the ways missionaries are reshaping American Catholic identity, Katherine Dugan explores the contemporary U.S. religious landscape from the perspective of millennials who proudly proclaim I am Catholic—and devote years of their lives to convincing others to do the same.

Humans and Animals: Intersecting Lives and Worlds Anja Höing, Arieahn Matamonasa Bennett, 2019-07-22 Addressing the non-human animal from the standpoint of various social and cultural constructions from a global and multidisciplinary perspective, this volume seeks to draw attention to the complexity of the underlying issues and the manifold dimensions of the animal-human bond.

Wildlife Damage Management Russell F. Reidinger Jr., Russell F. Reidinger, James E. Miller, 2013-11 Reidinger and Miller argue that, in recent years, the rate of undesirable human-wildlife interactions has risen in many areas, owing in part to the expansion of residences into places formerly wild or agricultural, making wildlife damage management even more relevant. From suburban deer eating gardens and shrubs, to mountain lions threatening pets and people, to accidentally introduced species outcompeting native species, Reidinger and Miller show how proper management can reduce wildlife damage to an acceptable, cost-effective level. An extensive section on available resources, a glossary that explains terms and concepts, and detailed figures will aid both students and seasoned professionals. Instructors will find this text arranged perfectly for a

semester-long course. The end-of-chapter questions will allow students to ponder the ways wildlife damage management concepts can be put into practice.

Aiming Big with Small Cars Rajnish Tiwari, Cornelius Herstatt, 2013-10-28 This book focuses on the small car segment of India's automotive industry to explain the emergence of lead markets. The authors contend that the current understanding of lead markets does not sufficiently explain the business practices that are born out of the intensified globalization of innovation. Lead markets are considered crucial for the global diffusion of new products and this book investigates whether sustainable lead markets can also emerge in developing economies, and if so, under which conditions. The authors question the conventional wisdom and propose updates and extensions to the lead market theory to better reflect the changing ground realities on ground.
