The Good News Al Danks,2022-11-22 Jesus told his disciples to proclaim the Good News. Paul said that the Good News is how God saves people. What is the Good News? Is our understanding of the Good News accurate and complete enough to produce salvation for ourselves and others? The Good News begins when Zechariah prophesies that the promised blessing and kingdom have come. Zechariah's son, John the Baptist, continues this message. Jesus adds to the Good News. He teaches the Good News of the Word and announces that he is the promised good shepherd. Near the close of his temporal ministry, Jesus reveals the coming of the promised new covenant and outpouring of the Spirit. The Good News is the message that God has redeemed us, delivered us from the power of our enemies, and provided a way for us to serve him without fear in holiness and righteousness. It tells us how God did this and how we are to align our lives with God's deliverance and his provision for holiness and righteousness. God's Good News declares deliverance in the present age, from destruction when God sweeps the wicked from the earth, and from eternal punishment in the future age.

Hamas Matthew Levitt,2008-10-01 How does a group that operates terror cells and espouses violence become a ruling political party? How is the world to understand and respond to Hamas, the militant Islamist organization that Palestinian voters brought to power in the stunning election of January 2006? This important book provides the most fully researched assessment of Hamas ever written. Matthew Levitt, a counterterrorism expert with extensive field experience in Israel, the West Bank, and Gaza, draws aside the veil of legitimacy behind which Hamas hides. He presents concrete, detailed evidence from an extensive array of international intelligence materials, including recently declassified CIA, FBI, and Department of Homeland Security reports. Levitt demolishes the notion that Hamas' military, political, and social wings are distinct from one another and catalogues the alarming extent to which the organization's political and social welfare leaders support terror. He exposes Hamas as a unitary organization committed to a militant Islamist ideology, urges the international community to take heed, and offers well-considered ideas for countering the significant threat Hamas poses.

Uniting Against Terror David Cortright,George A. Lopez,2007 Argues that defeating the global terrorist threat requires engaging international financial, diplomatic, intelligence, and defense communities and law enforcement organizations in an atmosphere of cooperation. - cover.

The Palestinian Strategic Report 2010/11 Dr. Mohsen Mohammad Saleh,2011-05-23 This annual referential report,

has become an essential classic in the academic realm of Palestinian Studies. It includes the latest and most recent statistical and analytic data on the various developments related to the Palestinian issue. Al-Zaytouna Centre for Studies and Consultations issued its Palestinian Strategic Report 2010/11 (PSR 2010/11) which addresses the developments of the Palestinian issue in 2010/11. The PSR is considered one of the most important scientific studies published annually by Al-Zaytouna Centre. The Report is rich with information, analyses, tables and charts besides strategic visions and future outlooks. It is published for the sixth year in a row and it has become one of the major sources for experts and those interested in the Palestinian issue. It provides a comprehensive coverage of the developments of the Palestinian issue that happened over a year while abiding by strict scientific and professional standards. The Report is 444 medium-sized pages. It is co-authored by 15 researchers specialized in the Palestinian issue, reviewed by four consultants and edited by Dr. Mohsen M. Saleh. The PSR 2010/11 stresses that the uprisings witnessed in the Arab world since early 2011, especially in Egypt, will have a direct impact on the Palestinian issue. The impact will most likely be positive if the uprisings achieved their goals and yielded political regimes which express the real will of the Arab peoples. However, the Report notes that the internal affairs would most probably be the primary concern during the coming period. Regarding the inter-Palestinian reconciliation, PSR 2010/11 asserts that the reconciliation agreement signed in Cairo last May still needs more serious steps to end the division and achieve real reconciliation on the ground. It needs to resolve many obstacles through cooperation between the different parties, away from external interventions and pressures. On the Israeli level, the Report mentions that 2010 has continuously witnessed the inclination of the Israeli society towards the extreme right. It further notes the absence of any breakthroughs in 2011 especially in the light of Israel’s rejection for the negotiations with President Mahmud ‘Abbas. The agreement signed with Hamas and the PA’s attempts to obtain international recognition of the Palestinian State in September 2011 hindered such negotiations. On the international level, the PSR says that the international diplomatic efforts towards the Palestinian issue have failed again in 2010. They could not achieve any significant progress regarding the peace settlement track or the siege imposed on the Gaza Strip. Moreover, PSR 2010/11 includes a large number of figures and statistics on Israeli violations on different levels. During 2010, 98 Palestinians were killed in the West Bank and Gaza Strip (including Jerusalem) by Israeli forces and settlers while 967 Palestinians and international solidarity activists were wounded. On the other hand, Israel’s internal security service mentioned that during 2010, 9 Israelis were killed and 28 were wounded in operations carried out by the Palestinians. Concerning settlement building, the Report shows that despite the 10-month Israeli moratorium on settlement building, Israel established 1819 buildings/apartments in 133 settlements all over the West Bank, including Jerusalem; in addition to 1433 mobile homes (caravans). PSR 2010/11 also discusses the increased Israeli attacks on the Islamic and Christian holy sites in Jerusalem and historic Palestine, during 2010. It further shows that the developments during that year revealed that the Judaization of Jerusalem has become the primary battle for Israel due to the obsession with the “Jewishness of the state” dominating the Israeli mind. Concerning demographic indicators, PSR 2010/11 mentions that at the end of 2010 the number of Palestinians around the world was around 11.14 million people. More than half of them, i.e., 5.75 million (51.6%) live in Diaspora, while the rest, i.e., 5.39 million (48.4%) live in historic Palestine. The latter are distributed by 1.28 million people in the territories occupied in 1948 and 4.11 million in the ’67 territories. The Report mentions that if the current growth rates of the Palestinians and the Jews persist, the number of Palestinians and Jews will become on par by 2017 where each will reach around 6.53 million. Thus, in 2020, around 49.2% of the population will be Jews as their number will reach 6.87 million compared to 7.09 million Palestinians. Regarding the economic indicators in the West Bank and the Gaza Strip, the Report shows that events during 2010 has not affected the direct dependence of the Palestinian economy on the Israeli economy. In addition, the isolation of the Palestinian economy from the outside world continued due to the Israeli control of all international exits and Palestinian border crossings besides the Palestinian foreign trade. PSR 2010/11 also refers to the enormous difference between the Palestinian economy in the West Bank and the Gaza Strip on one hand and the Israeli economy on the other. Thus, it shows, for example, that in 2010 the Palestinian GDP per capita was $1500 (around $1925 in the West Bank and $877 in the Strip) compared to $28,500 in Israel. In addition, the GDP amounted to $5.73 billion for the Palestinians compared to $217.13 billion for the Israelis.

Perspectives on American Dance Jennifer Atkins,Sally R. Sommer,Tricia Henry Young,2020-04-14 “Accessible and well researched, [combines] practical and theoretical perspectives on ways that dance shapes the American experience. . . . Highly recommended.”—Choice “Unpredictable. Counterintuitive. Stunningly conceived. So you think you know dance history? These anthologies are full of revelations.”—Mindy Aloff, editor of Leaps in the Dark: Art and the World “This is a picture of American dance—and a picture of America through dance—as we have not conceived of it before, advancing the bold and capacious idea that movement can illuminate who Americans are and who they want to be. A startlingly original compilation that includes stops in the unlikeliest places, it makes the case that following the moving body into every byway of life reveals an America that has been hiding in plain sight. It will be impossible to think of this subject in the same way again.”—Suzanne Carbonneau, George Mason University and scholar-in-residence, Jacob’s Pillow Dancing embodies cultural history and beliefs, and each dance carries with it features of the place where it originated. Influenced by different social, political, and environmental circumstances, dances change and adapt. American dance evolved in large part through combinations of multiple styles and forms that arrived with each new group of immigrants. Perspectives on American Dance is the first anthology in over twenty-five years to focus exclusively on American dance practices across a wide span of American culture. This volume and its companion show how social experience, courtship, sexualities, and other aspects of life in America are translated through dancing into spatial patterns, gestures, and partner relationships. In this volume of Perspectives on American Dance, the contributors explore a variety of subjects: white businessmen in Prescott, Arizona, who created a “Smoki tribe” that performed “authentic” Hopi dances for over seventy years; swing dancing by Japanese American teens in World War II internment camps; African American jazz dancing in the work of ballet choreographer Ruth Page; dancing in early Hollywood movie musicals; how critics identified “American” qualities in the dancing of ballerina Nana Gollner; the politics of dancing with the American flag; English Country Dance as translated into American communities; Bob Fosse’s sociopolitical choreography; and early break dancing as Latino political protest. The accessible essays use a combination of movement analysis, thematic interpretation, and historical context to convey the vitality and variety of American dance. They offer new insights on American dance practices while simultaneously illustrating how dancing functions as an essential template for American culture and identity. Jennifer Atkins is associate professor of dance at

Brought to life through interviews with the principal figures in the case, Bong Hits 4 Jesus is a gripping tale of the boundaries of free speech in an American high school.

The African Jihad Gregory Alonso Pirio,2007 A fascinating examination of the efforts by international jihadists to bring about their grand vision of Islamist hegemony in the greater Horn of Africa region, which began with the collaboration between Al Qaeda and the National Islamic Front government of Sudan. Dr Pirio demonstrates how a faction within Somalia's Islamic Courts movement with historic ties to Al Qaeda came to dominate the Islamic Court's movement and threaten wider regional insecurity and the expansion of the Middle East conflict into Africa.

EU Counter-Terrorism and Intelligence Javier Argomaniz,Oldrich Bures,Christian Kaunert,2017-10-02 The Treaty on

the European Union stipulates that one of the key objectives of the Union is to provide citizens with a high level of safety within an Area of Freedom, Security and Justice. Given that the fight against terrorism is a prominent aspect of this general objective, it is remarkable that, in spite of its political relevance and decade-long history, it has only relatively recently received due attention in the academic community. Yet an analysis of the successes and failures of the EU's involvement in this field is imperative and this is a particularly pertinent moment to take stock of progress. The goal of this book is therefore to look back at the post-9/11 period and answer the question of whether, when it comes to the measures taken to combat terrorism following these attacks, the EU has lived up to the promise made in its founding treaties. In pursuing this goal, this volume presents the views of leading experts casting a critical eye over the EU's performance, recognising achievements but also being suitably critical when the realities did not match the European rhetoric. In doing this, the book makes a significant contribution not only to the scholarly investigation of European Union policies, but also to the study of counter-terrorism in general. This book was published as a special issue of Intelligence and National Security.
