Knowledge Alchemy Tero Erkkilä, Meng-Hsuan Chou, Niilo Kauppi, 2023-05-31 This book introduces the concept of 'knowledge alchemy' to capture the generic process of transforming mundane practices and policies of governance into competitive ones following imagined global gold standards. Using examples from North America, Europe and Asia, it explores how knowledge alchemy increasingly informs national and institutional policies and practices on economic performance, higher education, research and innovation. The book examines how governments around the world have embraced global models of world-class university, human capital and talent competition as essential in ensuring national competitiveness. Through its analysis, the book shows how this strongly future-oriented and anticipatory knowledge governance is steered by a surge of global classifications, rankings and indicators, resulting in numerous comparisons of various domains that today form more constraining global policy scripts.

The Code of Canon Law, 1985

High-Performance Buildings M.S. Robinson, 2020-12-17 This book provides a blueprint for action for readers making decisions about how to improve the energy efficiency and performance of new or existing buildings. Suitable for both seasoned veterans and new managers, it takes an objective and orderly approach to what is often a complex, costly, and time-consuming process. The book presents fundamental principles illustrated with case studies. It thoroughly covers the topics in a concise, technically accurate way. The book is designed for architects, engineers, and construction managers.

China's High-tech Companies: Case Studies Of China And Hong Kong Special Administrative Region (Sar) Tai Wei Lim, 2023-10-12 China is now considered a tech superpower in many areas. This book illustrates certain aspects and case studies of China's technological developments and further analyzes them under various areas like coal energy, housing, connectivity, digital and space technologies. Furthermore, it examines technological developments in the periphery of China, focusing especially on Hong Kong Special Administrative Region (HKSAR). This book does not pretend to be comprehensive in its coverage albeit surveys a spectrum of sectors in China and Hong Kong to get an idea of their developments. By peering into China through the mainland continental perspective and also looking into China from its periphery (e.g., 'Greater China' perspectives from HKSAR), this book provides readers with the broad contours of technological development in China through a multidisciplinary area studies perspective.

Arms Control and Iranian Foreign Policy Bobi Pirseyedi, 2012 This book examines how Iran's arms control operations have been driven by external threat as well as regional power aspirations, and have been marked by a sense of grievance.

Jihad in the West Frazer Egerton, 2011-03-17 Militant Salafism is one of the most significant movements in politics today. Unfortunately its significance has not been matched by understanding. To begin to address this knowledge deficit this book argues that, rather than the largely unhelpful pursuit of individual 'root causes' offered in much of the literature, we would be better served by looking at the factors that have enabled and facilitated a particular political imaginary. That political imaginary is one that allows individuals to conceive of themselves as integral members of a global battle waged between the forces of Islam and the West, something that lies at the heart of militant Salafism. Frazer Egerton shows how the ubiquity of modern media and the prevalence of movement have allowed for a transformation of existing beliefs into an ideology supportive of militant Salafism against the West amongst Western Muslims.

Cryptography,

Fighting Cross-Border Cartels Pierre Horna, 2020-03-19 This book is the first detailed treatment of the approaches taken to enforce

competition laws against cross-border cartels (CBCs) from the perspective of young and small competition authorities (more than 70% of the total number of authorities worldwide). No other legal or inter-disciplinary scholarship exists in the market that deals with the issue of a taxonomy of CBCs combined with young/small competition authorities' problems. The book looks at the extent of the harms caused by CBCs and issues associated with tackling them at a transnational level. It explains why past solutions to problems with cooperation have failed and proposes novel ideas on how to improve cooperation and coordination in certain types of CBC investigations (transnational and regional CBCs). The proposals are based on primary-source information and observations made by the author as part of his work in the UN, and interviews with leading enforcers from young, small, old and large jurisdictions. Young/small competition authorities, competition lawyers and economists, scholars and students within the fields of competition law and international law, and those interested in international cooperation and coordination in the area of cartel enforcement in emerging markets will greatly benefit from this book. It is clearly structured and extensively referenced, providing a valuable guide to the topic.

Terrorism in Asymmetrical Conflict Ekaterina A. Stepanova, 2008 This volume combines qualitative research with the analysis of available data on trends in modern terrorism and the use of primary sources and writings. It puts forward an original typology of terrorism based on the overall level of a militant group's goals and the extent to which its terrorist activities are linked to a broader armed conflict.

The Political and Economic Dynamics of the Eurozone Crisis James A. Caporaso, Martin Rhodes, 2016 The book is distinguished from existing research by its avoidance (and rejection) of the too-often simplistic analysis that has characterized political, media and regrettably some academic coverage, and by its attempt to escape from the tyranny of day-to-day events and short-term developments. Each of the contributors identifies an important question and undertakes a careful empirical, theoretically-informed analysis that produces novel perspectives. Together they seek to balance many of the existing accounts that have rushed to sometimes unwarranted conclusions, concerning, for example, the locus of institutional power in European crisis-management; the power and centrality of particular member states, notably Germany which has been attributed with 'hegemonic' status; the supposed entrapment of EU policy makers by an 'austerity ideology'; and the deep flaws that apparently afflict the solutions to the crisis put painstakingly in place, such as Banking Union.

Direito do Seguro Contemporâneo: edição comemorativa dos 20 anos do IBDS Ernesto Tzirulnik, Ana Maria Blanco, Carolina Cavalcanti, Vítor Boaventura Xavier, 2021-10-15 A Editora Contracorrente, em parceria com a Editora Roncarati, tem a honra de publicar a coletânea *Direito do Seguro Contemporâneo: edição comemorativa dos 20 anos do IBDS*, organizada pelos ilustres advogados Ernesto Tzirulnik, Ana Maria Blanco, Carolina Cavalcanti, Vítor Boaventura Xavier. Há vinte anos, um grupo de advogados e técnicos de seguro criava o IBDS - Instituto Brasileiro de Direito do Seguro. Pensando na necessidade de tirar o Direito do Seguro do setor segurador e levá-lo para o mundo, criar uma oficina para o desenvolvimento de uma doutrina crítica, na qual surgissem verdadeiros estudiosos dedicados ao exame aprofundado da matéria, o IBDS surgiu de forma bem-sucedida. Nesses dois densos tomos, mais de cinquenta especialistas, brasileiros e estrangeiros, versam sobre os frutos dessa empreitada de sucesso e saber. Nas palavras de Ernesto Tzirulnik e Paulo Luiz de Toledo Piza, Nestes tempos conturbados, segue o IBDS mobilizado na luta pela emancipação do Direito do Seguro Brasileiro e contra os abusos e vícios que vêm cada dia mais caracterizando a atividade da Administração Pública, por último as desorganizadoras propostas normativas que ameaçam colocar por terra a consensualidade e a natureza de contrato de adesão dos seguros de danos, características iminentes a todo e qualquer contrato de seguro. Além de um vasto material doutrinário, os organizadores nos agradam com uma galeria de fotos que ilustram a história desses 20 anos de IBDS.
