Ad Nauseam Carrie McLaren, Jason Torchinsky, 2009-06-23 With the style and irreverence of Vice magazine and the critique of the corporatocracy that made Naomi Klein's No Logo a global hit, the cult magazine Stay Free!—long considered the Adbusters of the United States—is finally offering a compendium of new and previously published material on the impact of consumer culture on our lives. The book questions, in the broadest sense, what happens to human beings when their brains are constantly assaulted by advertising and corporate messages. Most people assert that advertising is easily ignored and doesn't have any effect on them or their decision making, but Ad Nauseam shows that consumer pop culture does take its toll. In an engaging, accessible, and graphically appealing style, Carrie McLaren and Jason Torchinsky (as well as contributors such as David Cross, The Onion's Joe Garden, The New York Times's Julie Scelfo, and others) discuss everything from why the TV program CSI affects jury selection, to the methods by which market researchers stalk shoppers, to how advertising strategy is like dog training. The result is an entertaining and eye-opening account of the many ways consumer culture continues to pervade and transform American life.

Knowledge Alchemy Tero Erkkilä, Meng-Hsuan Chou, Niilo Kauppi, 2023-05-31 This book introduces the concept of 'knowledge alchemy' to capture the generic process of transforming mundane practices and policies of governance into competitive ones following imagined global gold standards. Using examples

from North America, Europe and Asia, it explores how knowledge alchemy increasingly informs national and institutional policies and practices on economic performance, higher education, research and innovation. The book examines how governments around the world have embraced global models of world-class university, human capital and talent competition as essential in ensuring national competitiveness. Through its analysis, the book shows how this strongly future-oriented and anticipatory knowledge governance is steered by a surge of global classifications, rankings and indicators, resulting in numerous comparisons of various domains that today form more constraining global policy scripts.

Analysing Women's Imprisonment Pat Carlen, Anne Worrall, 2013-01-11 In both the UK and the rest of the world there have been rapid increases in the numbers of women in prison, which has led to an acceleration of interest in women's crimes and the social control of women, and women's experience of both prison and the criminal justice system is very different to men's. This text is concerned to address the key issues relating to women's imprisonment, contributing at the same time to an understanding of prison issues in general and the historical and contemporary politics of gender and penal justice. What are women's prisons for? What are they like? Why are lone mothers, ethnic minority and very poor women disproportionately represented in the women's prison population? Should babies be sent to prison with their mothers? These are amongst the issues with which this book is concerned.

Analysing Women's Imprisonment is written as an introductory text to the subject, aiming to guide students of penology carefully through the main historical and contemporary discourses on women's imprisonment. Each chapter has a clear summary ('concepts to know'), essay questions and recommendations for further reading, and will help students prepare confidently for seminars, course examinations and project work.

Application Service Providers in Business Luisa Focacci, Robert Mockler, Marc Gartenfeld, 2013-10-23 Learn how to use Application Service Providers to enhance the future of your business! *Application Service Providers in Business* is a comprehensive analysis of the present ASP model and its place

in business today. Business success in today's information-intensive marketplace depends on a company's ability to acquire and fully use the latest advancements in business-critical applications. By having these applications delivered as services over the Internet, businesses can lessen the demands on company IT staff, and increase the ability to get complex software into use immediately. Within this context, a new outsourcing business model called ASP (Application Service Provider) has emerged that is transforming how businesses access and leverage software applications. The book explains the specific contingent ASP models, including business, enterprise, functional-focused, and vertical market ASPs, and ASP aggregators. It demonstrates how different ASP models have fulfilled diverse market/customer expectations and explores future scenarios for current ASP business models. Case studies, tables, and figures illustrate important concepts and make complex information easy to access and understand. Based on a thorough analysis of the ASP market environment, the book provides detailed Best Practices Guidelines that managers of ASPs can use to improve the chances of success of their respective ASPs. It outlines contingency factors such as application offerings, customer selection, operations, and strategic fit. The book also not only assists business managers in deciding on whether to use an ASP, but it presents ways to use ASPs to effectively support their business process. The ability to provide the workforce with access to data whenever and wherever is crucial for positively impacting a company's

profitability, and ASPs provide the software to make it possible. Topics included in Application Service Providers in Business are: Best Practices Guidelines strategic management management decision making and planning IT management and outsourcing future of the ASP market ASP business models and much more! Application Service Providers in Business is a comprehensive resource for executives, managers, professors, and business students in the US and worldwide. Using the information and guidelines provided, executives and managers can learn how to use ASPs to enhance their business, and managers of ASPs can learn how to increase their chance of success in the competitive ASP market. The Concept of Genocide in International Criminal Law Marco Odello,Piotr Łubiński,2020-07-14 This book presents a review of historical and emerging legal issues that concern the interpretation of the international crime of genocide. The Polish legal expert Raphael Lemkin formulated the concept of genocide during the Nazi occupation of Europe, and it was then incorporated

into the 1948 Convention on the Prevention and Punishment of the Crime of Genocide. This volume looks at the issues that are raised both by the existing international law definition of genocide and by the possible developments that continue to emerge under international criminal law. The authors consider how the concept of genocide might be used in different contexts, and see whether the definition in the 1948 convention may need some revision, also in the light of the original ideas that were expressed by Lemkin. The book focuses on specific themes that allow the reader to understand some of the problems related to the legal definition of genocide, in the context of historical and recent developments. As a valuable contribution to the debate on the significance, meaning and application of the crime of genocide the book will be essential reading for students and academics working in the areas of Legal History, International Criminal Law, Human Rights, and Genocide Studies. Chapter 12 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license available at <http://www.taylorfrancis.com/books/e/9781003015222>

Enough Is Enough Brian O. Hemphill, Brandi Hephner LaBanc, 2023-07-03 Are your violence prevention and mental health efforts on campus coordinated? Are all your campus professionals aware of the system for reporting information about students who may be in distress or at-risk for harming themselves or others? Is the information reviewed and acted on? Recent campus crises have highlighted that campus administrators will be judged by three things: What the campus was doing before the crisis, its immediate response during the crisis, and the follow-up after the crisis. Born out of the call by Virginia Tech's Zenobia Hikes for urgent action to stem the tide of societal violence, and the NASPA "Enough is Enough" campaign (www.EnoughisEnoughcampaign.org) that she inspired, this book provides guidance on how to be proactive in preventing violence, and be prepared to provide a comprehensive response to a crisis. *Enough is Enough* presents first-hand accounts and experienced counsel from professionals who have lived through a violent incident, and continue to deal with its aftermath. They cover violence, suicide prevention, and mental

health promotion in an integrated way, and offer a comprehensive plan to create a campus-wide system for collecting information about students at-risk for self-harm or violence toward others. The authors describe how to develop university-wide emergency plans, using the National Incident Management System template and involving a wide spectrum of campus services; how to create crisis response teams and victim liaison programs; offer recommendations about communication and the management of information; and address institutionally-appropriate and sensitive ways to achieve healing and recovery. The book is addressed to administrators, student affairs, services and mental health professionals, and counselors, on all the nation's campuses, elementary through post-secondary. A Joint ACPA & NASPA Publication

Mission Partnership in Creative Tension Samuel Cueva, 2015-04-14 Samuel Cueva has refined his concept of 'partnership in mission' by advocating the use of reciprocal contextual collaboration in this important contribution to scholarly reflection on contemporary missiology. Referencing historical, theological and functional aspects of how mission has been carried out, as well as analyzing its impact on the evangelical movement, the author identifies that mission always develops with positive and negative tensions. Emphasizing an understanding of current missions which include traditional, networking and emergent models, and how they can be combined, interconnected and interchanged, the author proposes a fresh model that ensures the suitability for every mission context.

Healthcare Solved - Real Answers, No Politics Debra Smith, 2009-09-11 Written for the citizen consumer, healthcare professional and employer who asks: What is health reform going to mean for me? If you want to know more, this is the book for you. It is written in response to politicians attempting to hijack healthcare at the expense of the American people. As both a physician and economist, Dr. Smith plainly lays out the problems and real, workable solutions. With clinical and administrative experience, Dr. Smith has worked in every area of healthcare, from hospitals to insurance companies. She has seen what's worked and what hasn't in the United States, Europe and the Third World. The answers to how healthcare is actually delivered and where the money is really going will likely surprise you. If we are going to have a serious debate about healthcare, it is time for the American people, healthcare professionals and employers to fully understand and reclaim this most important issue.

Electoral Guerrilla Theatre L.M. Bogad, 2005-10-09 Across the globe, in liberal democracies where the right to vote is framed as both civil right and

civic duty, disillusioned creative activists run for public office on sarcastic, ironic and iconoclastic platforms. With little intention of 'winning' in the conventional sense, they use drag, camp and stand-up comedy to undermine the legitimacy of their opponents and sometimes the electoral system itself. Electoral Guerilla Theatre explores the recent phenomenon of the satirical election campaign, and questions: What is the purpose of such public political performances? What theatrical devices and aesthetic sensibilities do electoral guerrillas draw on to enhance their satire? How do electoral guerrillas create their public personas and platforms, and which audiences are they playing to and/or against? How do parodies and the 'respectable' political performances that they mock interact and how can this tactic backfire? Drawing on extensive archival and ethnographic research this is entertaining, enlightening and informative read that will be invaluable to students working across a variety of disciplines, including performance studies, social science, cultural studies and politics.

Pathways and Patterns in History Peter J. Morden, 2020-10-06 Professor David Bebbington is a highly regarded historian. He holds a chair at the University of Stirling, has been President of the Ecclesiastical History Society, and has delivered numerous endowed lecture series, as well as being deeply involved in the Dr Williams's Dissenting Academies Project. He is both a popular and influential academic historian, whose writings have significantly shaped our thinking about the history of evangelicalism, Baptist life, and

political developments. In Pathways and Patterns, colleagues, former research students and friends who are indebted to Professor Bebbington and value his contribution to scholarship join together to pay tribute to his outstanding work. Not only has he stimulated academic endeavour, he has also given much personal support, not least to those in the Baptist Historical Society and in Colleges, among them Spurgeon's College and Baylor University (USA) where he is a Distinguished Visiting Professor. This volume reflects his wide involvements and the grateful esteem in which he is held. Among Professor Bebbington's achievements has been both instituting and masterminding the very important International Conference on Baptist Studies (ICOBS), held every three years in different parts of the world. It is appropriate, then, that this volume was presented to him at the Seventh ICOBS Conference held in Manchester, July 2015.

Poverty, Growth and Institutions in Developing Asia E. Pernia,A. Deolalikar,2003-10-07 The theme of this book is that economic growth is key, but institutions and other national and subnational attributes matter as well. They are critical to explaining differences in social development and poverty reduction across countries and subnational areas that cannot be accounted for by growth alone. The book concludes that a more complete strategy needs to consider various institutional factors at the national and subnational levels to achieve rapid and sustained poverty reduction. Indeed, paying attention to these factors will benefit both growth and poverty

reduction.

Electronic Government Linda D. Koontz, 2004-03 In accordance with the President's management agenda, the Office of Management and Budget (OMB) has sponsored initiatives to promote expansion of electronic gov't. -- the use of information technology, particularly Web-based Internet applications, to enhance gov't. services. Each initiative demands a high degree of collaboration among organizations. For four of these initiatives, the GAO was asked to determine, among other things, their implementation progress and the extent of collaboration among agencies and other parties involved. GAO determined that all four of the e-government initiatives that it reviewed have made progress in meeting the objectives and milestones of their early phase. Charts and tables.
