Mars Hugh H. Kieffer, 1992-10 The planet Mars has been a subject of wonder for millennia, as attested by its place in mythology, by later speculation about its canals, and by the scientific and public excitement over the Viking mission. Although the scientific literature about the planet is voluminous, no comprehensive treatment of the results of modern spacecraft exploration has yet been made available. This volume fills that gap by providing a summary of what is presently known about Mars and identifying many puzzles such as polar cap variance, occurrence of dust storms, and the possible location of water. The introductory chapter cites questions, controversies, and milestones in the study of Mars, and also includes an annotated book list, basic data about the planet, and a guide to Martian seasons. A chapter on telescopic observation credits the contributions made by many amateurs that have advanced our knowledge of variations observed on Mars. A chapter on spacecraft exploration, by an American and a Russian author who have participated in all Mars missions, includes a revelation of an additional Soviet attempt. Twenty-nine technical articles cover geophysics; bedrock geology; surface; atmosphere; exosphere and magnetic field; and climate history. Two chapters address the search for life on Mars; three concluding chapters consider the Martian satellites. An indispensable reference for scientists, Mars will also serve as a complete sourcebook for serious amateur astronomers.

Analysing Women's Imprisonment Pat Carlen, Anne Worrall, 2013-01-11 In both the UK and the rest of the world there have been rapid increases in the numbers of women in prison, which has led to an acceleration of interest in women's crimes and the social control of women, and women's experience of both prison and the criminal justice system is very different to men's. This text is concerned to address the key issues relating to women's imprisonment, contributing at the same time to an understanding of prison issues in general and the historical and contemporary politics of gender and penal justice. What are women's prisons for? What are they like? Why are lone mothers, ethnic minority and very poor women disproportionately represented in the women's prison population? Should babies be sent to prison with their mothers? These are amongst the issues with which this book is concerned. *Analysing Women's Imprisonment* is written as an introductory text to the subject, aiming to guide students of penology carefully through the main historical and contemporary discourses on women's imprisonment. Each chapter has a clear summary ('concepts to know'), essay questions and recommendations for further reading, and will help students prepare confidently for seminars, course examinations and project work.

Singing the Gospel along Scotland's North-East Coast, 1859–2009 Frances Wilkins, 2018-01-17 Following three years of ethnomusicological fieldwork on the sacred singing traditions of evangelical Christians in North-East Scotland and Northern Isles coastal communities, Frances Wilkins documents and analyses current singing practices in this book by placing them historically and contemporaneously within their respective faith communities. In ascertaining who the singers were and why, when, where, how and what they chose to sing, the study explores a number of related questions. How has sacred singing contributed to the establishment and reinforcement of individual and group identities both in the church and wider community? What is the process by which specific regional repertoires and styles develop? Which organisations and venues have been particularly conducive to the development of sacred singing in the community? How does the subject matter of songs relate to the immediate environment of coastal inhabitants? How and why has gospel singing in coastal communities changed? These questions are answered with comprehensive reference to interview material, fieldnotes, videography and audio field recordings. As one of the first pieces of ethnomusicological research into sacred music performance in Scotland, this ethnography draws important parallels between practices in the North East and elsewhere in the British Isles and across the globe.

Project Business Management Oliver F. Lehmann, 2018-07-17 Roughly half of all project managers have to lead customer projects as profit centers on contractor side with two big objectives: making the customer happy and bringing money home. Customer projects are a high-risk business on both sides, customers and contractors, but the dynamics of this business have so far been mostly ignored in literature. The book is intended to fill this gap. The book helps project managers better understand the dynamics of customer projects under contract from business development through handover and find solutions for common problems. A central aspect is international contract laws, an often underestimated factor in projects.

ASEAN Regionalism Christopher B. Roberts, 2012-03-15 This book examines the key motivations for and challenges to greater regional integration in Southeast Asia. It demonstrates how security and economic concerns - domestic, regional and international - have either contributed to, or detracted from, an increased level of unity and cooperation in ASEAN. It also explores how the patterns of interaction and socialization generated by these issues, together with the nature of domestic political systems, have affected the emergence of common values, norms and interests. It covers the full range of issues confronting ASEAN at present, and the full range of ASEAN countries, and discusses both developments in ASEAN to date and also likely future developments.

Japan and the shaping of post-Vietnam War Southeast Asia Andrea Pressello, 2017-09-05 The Vietnamese invasion of Cambodia in 1978 and the consequent outbreak of the Cambodian conflict brought Southeast Asia into instability and deteriorated relations between Vietnam and the subsequently established Vietnam-backed government in Cambodia on the one hand and the Association of Southeast Asian Nations (ASEAN) countries on the other. As a result of the conflict, the Soviet Union established a foothold in Southeast Asia while China, through its support of the anti-Vietnam Cambodian resistance, improved relations with Southeast Asian countries such as Thailand. Japan's Fukuda Doctrine - its declared priorities of promoting cooperative and friendly relations between Communist Indochinese nations and non-Communist ASEAN countries - became increasingly at odds with Japan's role as a member of the Free World in the broader Cold War confrontation. Tokyo had to steer a path between Washington's hard-line policy of isolating Vietnam and its own desire to prevent regional destabilization. Against this background, this book addresses the following questions: what was Japan's response to the challenges to its objectives and interests in Southeast Asia and to the Fukuda Doctrine? What role did Japan play for the settlement of the conflict in Cambodia? How did Japan's diplomacy on the Cambodian problem affect the Japanese role in the region? It argues that Japan's contribution was more active than has widely been recognized.

Containing Iran Sasan Fayazmanesh, 2013-11-13 Since the 1979 Revolution in Iran and the end of a close relationship between the US and the Shah, successive American administrations - including the Obama Administration

– have tried to contain Iran by various means, particularly sanctions and military threats. Even though President Obama came to office promising to engage Iran, in reality his administration has followed the policy of “tough diplomacy,” which has included, among other acts, imposing draconian sanctions against Iran. Following the author’s earlier book on the history of containment of Iran and Iraq, the current book examines closely the Obama Administration’s policy toward Iran, as well as the role played by Israel, the European Union and the International Atomic Energy Agency (IAEA) in the implementation of this policy. Specifically, it is argued that the policy of “tough diplomacy,” designed mostly by those associated with the Israeli lobby groups, was intended to give an ultimatum to Iran in some direct meetings, telling Iran to either accept the US-Israeli demands or face aggression. The meetings were also intended to create the illusion of engaging Iran in order to gain international support for aggressive actions. Barack Obama announced this policy in his speeches as a Senator, particularly at the American Israel Public Affairs Committee policy conferences. After he became president in 2008, the policy of “aggressive diplomacy” was put in motion. While pretending to engage Iran in diplomacy, the Obama Administration, in coordination with the US Congress and the government of Israel, pushed for the most confrontational IAEA reports on Iran and an unprecedented set of unilateral and multilateral sanctions. The US and Israel also engaged in a campaign of military threats, sabotage and assassination of Iranian nuclear scientists. Yet, after four years of hostilities, the policy of “tough diplomacy” failed to achieve many of its goals and failed to contain Iran.

Public-Private Partnerships Akintola Akintoye, Matthias Beck, Cliff Hardcastle, 2008-04-15 Public Private Partnership is a key issue in the construction industry – causing much concern among contractors, funders and facility managers. Demand has been building for a thorough analysis ... This edited book will familiarise both researchers and construction professionals working with public private partnerships (PPP) with the issues involved in the planning, implementation and day-to-day management of public private projects. It will show how current risk management methods can help the complex process of managing procurement via such partnerships. The chapters – most authored by a practitioner/academic partnership – are organised round the concepts of best value and use the findings of a major research project investigating Risk Assessment and Management in Private Finance Initiative Projects. The analysis of this research will be supplemented with contributions by leading international experts from Hong Kong, Australia and Singapore, covering hospitals, schools, waste management and housing – to exemplify best practice in PPP-based procurement.

Music, Branding and Consumer Culture in Church Tom Wagner, 2019-10-16 Starting as a single congregation in Australia, Hillsong Church now has campuses worldwide, releases worship music that sells millions of albums and its ministers regularly appear in mainstream media. So, how has a single church gained such international prominence? This book offers an ethnographic exploration of the ways in which music and marketing have been utilised in the pursuit and production of spiritual experience for members of Hillsong Church. An experience that has proven to be incredibly popular. The main theme of this book is that marketing, specifically branding, is not just a way to sell religion, but rather an integral part of spiritual experience in consumer society. Focussing on the London Hillsong church as a case study, the use of its own music in tandem with strong branding is shown to be a co- and re-productive method of organizing, patterning, and communicating information. The church provides the branded material and cultural context in which participants’ sacred experience of self unfolds. However, this requires participants to do the work to properly understand, and ultimately embody, the values associated with the brand. This book raises important questions about the role of branding and music in forming modern sacred identities. As such, it will be of great interest to scholars of Religious Studies, Ethnomusicology and Media Studies.

Singapore, ASEAN and the Cambodian Conflict 1978-1991 Ang Cheng Guan, 2013-09-10 This important study of the shifting diplomatic efforts around the response to and resolution of the Vietnamese invasion of Cambodia is based on the records of the Ministry of Foreign Affairs of Singapore, a key player in the complex diplomacy in the region at the end of the Cold War. The study provides a detailed account of the policies and decision-making of Singapore, as well as the diplomatic maneuverings of the other major parties and powers involved in the Cambodia conflict. It details one member country's input into the process of defining and developing a collective ASEAN position, a process which was formative for future diplomatic efforts by the regional grouping. Ang makes use of a variety of sources contemporary to the period under study, as well as records which have become available post-1991. The use of detailed records from one of the Southeast Asian players is a first for the study of the region's diplomacy. The book describes Singapore's role and illustrate how Singapore's management of the Cambodian issue was shaped by the fundamentals of Singapore's foreign policy. The account also reveals the dynamics of intra-ASEAN relations, as well as ASEAN's foreign relations in the context of the Cambodia problem.

Guinea International Monetary Fund, 2012-03-26 This paper presents Guinea’s 2011 Article IV Consultation and requests for a three-year arrangement under the Extended Credit Facility. The macroeconomic improvement in 2011 has been mainly owed to sharp fiscal adjustment. The deficit on the budget’s basic balance has been reduced from 13 percent of GDP in 2010 to an estimated 2.5 percent of GDP, while monetary financing of the budget has been avoided in an effort to reduce excess liquidity stemming from large central bank advances in 2009–10. Key medium-

term challenges are to reduce inflation while preparing the economy for an expected substantial increase in mining activity.
