Tessa Afshar

The Way Home Tessa Afshar, 2020-06-02 Winner of the 2021 Christian Book Award® (Bible Study Category) Enter the Story of Ruth Like Never Before through This 6-Week Bible Study Ruth was a vulnerable, widowed woman starting over in a foreign land. While Naomi was returning to community, Ruth was setting herself up to be the odd one out her whole life. What gave her the strength to do it? Could it be that she sensed all along that her journey away from Moab was a journey toward home? The story of Ruth is a remarkable tale of bravery, calling, and God's provision, and it will come to life in new ways as you dig deep in this 6-week Bible study. Tessa Afshar, author of award-winning biblical and historical fiction, teaches you how to study the text, discern meaning, pray through it, and live it out. She'll show you how to draw on the same strength and courage that Ruth did and accept God's invitation to new beginnings in your own life. This Bible study also includes optional teaching videos that can be purchased separately to enrich your study.

Transformed Lives Cynthia S. W. Crysdale, 2016-06-01 · For people whose eyes glaze over when questions of salvation/redemption/atonement come up · Written by a theologian, but with a lay audience in mind Even theologians have had different ideas about the theology of atonement; how are the rest of supposed to understand it? This book is a good place to start. Crysdale, whose background in both psychology and theology gives her a unique perspective,

presents an overview of the history of the theology of atonement, addressing clearly the difficulties around this concept, and bringing us with her to a contemporary understanding. "Please join me in welcoming an informative, thoughtful, creative, and persuasive book on the atonement. St. Paul and even Anselm's contributions to this multi-faceted doctrine are rendered accessible here. I only wish Crysdale's volume had been available during my fifty years of teaching Anglican theology. Please don't miss reading her contemporary, scholarly perspectives. She has much to teach us."—Fredrica Harris Thompsett, author of *We Are Theologians* "No 'doctrine' has more distorted the living of lives called Christian than substitutionary satisfaction theories of the atonement. So thank God we now have Crysdale's constructive account of the atonement that helps us see that we do not need a theory of the atonement because what God has done in the crucifixion is not a violent exchange but rather God's way of befriending his people. I hope that this well researched book will be widely read."—Stanley Hauerwas, author of *Without Apology*

Liberty & Learning Robert C. Enlow, Lenore T. Ealy, 2009-09-25 Fifty years ago, Milton Friedman had the ground-breaking idea to improve public education with school vouchers. By separating government financing of education from government administration of schools, Friedman argued, "parents at all income levels would have the freedom to choose the schools their children attend." *Liberty & Learning* is a collection of essays from the nation's top education experts evaluating the progress of Friedman's innovative idea and reflecting

on its merits in the 21st century. The book also contains a special prologue and epilogue by Milton Friedman himself. The contributors to this volume take a variety of approaches to Friedman's voucher idea. All of them assess the merit of Friedman's plan through an energetic, contemporary perspective, though some authors take a theoretical position, while others employ a very pragmatic approach.

Reclaiming Our Children, Reclaiming Our Schools Eric Shyman, 2016-12-16
Reclaiming Our Children, Reclaiming our Schools offers both a comprehensive censure of the current corporate interest in privatizing public schooling as well as a framework for attaining meaningful education reform based in democracy and the combined will of the public. Using current research and sound philosophical and ethical arguments, Shyman argues for more attention to be paid to teacher expertise, participatory democratic practices, genuine valuation of ethnic and cultural diversity, attention to global citizenship and cooperation, and the prevention of private profit-based interests in public schooling policy and practice.

Urban Overheating: Heat Mitigation and the Impact on Health Nasrin Aghamohammadi, Mat Santamouris, 2022-10-05
The book reviews and reports the recent progress and knowledge on the specific impact of current and projected urban overheating as well as of the urban mitigation technologies on mortality and morbidity and urban vulnerability. It presents recent data and developments on the topic reported by some of the more distinguished

researchers in this area. In parallel, it discusses new findings related to the characteristics and the magnitude of urban overheating and reports and analyzes the recent knowledge on the synergies between urban heat island and heatwaves. This book helps to advance our understanding on the interaction between Urban Heat Island (UHI) and overheating as well as their impact on energy demand and public health globally. Exploring the interaction between UHI and energy consumption requires the understanding on the dynamics of UHI intensity and air pollution index in different land use and how such interactions may vary in different cities in the world. Moreover, this book focuses on different cities in Australia, Austria, Belgium, Brazil, Canada, Cyprus, Greece, Hong Kong, India, Asia, Spain, UK, and USA.

Preserving Democracy Elgin L. Hushbeck, Jr., 2009 Hushbeck defends American constitutional government by focusing on specific ideas rather than personalities, being ideologically sharp, yet nonpartisan in tone, and by using clear and simple arguments.

Creative Ways to Teach the Mysteries of History Ronald Hans Pahl, 2005-10-01 This volume makes teaching and learning history a powerful and enjoyable experience for students in the classroom through the study of historical mysteries, a wide variety of active ideas, and how-to-do-it brainstorming.

Winning Small Battles, Losing the War Marieke Denissen, 2008-10 Since the mid-1990s more and more Argentines have been taking to the streets to express their dissatisfaction with the growing levels of poverty, social exclusion

and violence. As part of this growing trend, the Movimiento del Dolor (a social movement consisting of the family members of victims of police violence) emerged as a protest against unaccountable law enforcement practices. As a result, police violence and impunity gained a place on the societal and political agenda, and several police reforms have been enacted. This book will offer a critical discussion of the interplay among the phenomena police violence, democracy and social movements. The present volume contains an in-depth analysis of the aims and impact of the Movimiento del Dolor. This study aims to contribute to a better understanding of the ways that social movements use citizenship as frame in order to address the fault lines of their democracies. As such, the book will show the dynamics inherent in a democratizing society that is characterized, on the one hand, by an active and mobilized civil society, generally fair elections and reduced military power and, on the other hand, the continuation of police violence, impunity, lack of political legitimacy and accountability, and the co-opting of social movements.

Conversations of Democracy Stephen E. Frantzich, 2015-12-03 Democratic politics involves a series of multi-directional conversations. Effective conversations have the potential to engage, educate, and animate both citizens and governmental officials. On the individual level, discovering successful conversational strategies benefits both political and social interaction. This book offers guidelines for conducting effective

conversations personally, politically, and beyond such that readers of this book are unlikely to ever again look at conversation in the same way. New technologies and social trends both challenge and potentially enhance traditional face-to-face and media dominated conversations. Understanding the state, quality and potential of political conversations provides a unique perspective for evaluating and potentially improving government by the people.

Medieval Europe Stewart Ross, 2010-01-01 Presents an introduction to the study of Medieval civilization, discussing how to research basic facts, find a topic, evaluate sources, use tangible evidence, and write a presentation.

Battles of the Ugandan Resistance Muhoozi Kainerugaba, 2010 Battles of the Ugandan Resistance: A Tradition of Maneuver offers an African viewpoint on an important epoch in the military history of Uganda. The book investigates the technical aspects of a number of key battles of the Ugandan resistance war, but also presents a brief but penetrating examination of the history of warfare on the African continent. By means of detailed analysis of key battles of the resistance war the author develops a powerful case for the adoption of a 'maneuverist' approach to military operations. The book examines the four phases of the Ugandan resistance war. These are: the clandestine phase; guerrilla warfare phase; mobile warfare phase and conventional warfare phase. It focuses on a number of key battles within each of these phases and analyses them. The book ends with a lofty examination of

the strategy of the resistance war and with recommendations of a doctrinal nature.

Ukrainian Migration and the European Union Bastian Vollmer, 2016-02-03 To migrate or not to migrate: that is the question. This book discusses migration in the highly topical context of Ukraine, and explores the imaginations, life-stories, aspirations and life-projects of people in Ukraine through a consideration of Ukrainian migration to the European Union (EU) from the perspective of the sending-country. Building on the existing literature and drawing on a rich variety of empirical data and field research, this text addresses migration by Ukrainian nationals into the EU, and how and why people leave or stay in Ukraine. The book also considers questions of subjectivity, the self and the construction of narratives, and contributes more widely to the significant academic and policy debates surrounding Ukrainian migration in the EU.

Democracy Rising Bill Freeman, 2017-03-25 The Hill Times: Best Books of 2017 What are the limits of Canadian democracy and how are they being expanded by a revolution in participatory democracy? The Brexit vote in Britain and the election of Donald Trump as president of the United States illustrate that our system of representative democracy is in deep trouble. There are signs of political alienation everywhere. Most believe that government is run by a few big interests. Wealthy corporations receive grants and beneficial regulations. The incomes of middle and lower earners have remained stagnant

or decreased. The way to change this imbalance is by strengthening our democracy and encouraging participation in the political process. A powerful grassroots movement of participatory democracy is emerging. Freeman's message is that democracy is rising in this country, but we must organize to redress the dominance of business interests, and finally fulfil the promise of government by the people.

Integrating Prosocial Learning with Education Standards Kristie Fink, Jonathan Cohen, Sean Slade, 2016-08-25 Integrating Prosocial Learning with Education Standards demonstrates how to meet educational standards that privilege cognitive aspects of learning while also advancing prosocial or Whole Child efforts (e.g., social emotional learning, character education, and mental health promotion). The book utilizes a growing body of research to

reveal effective ways to implement a curriculum that integrates social, emotional, ethical, and civic aspects of learning with required state standards, and a wide range of real world examples describe how any school, anywhere, can lay a foundation for all young people to succeed.

Conflicted John Stamper, 2023-02-22 At what point can a Christian teacher no longer be part of a public education system that requires them to participate in teaching destructive ideologies and advancing immoral agendas on young children? John Stamper reached that tipping point as a teacher in the Chicago Public School System and made the decision to quit his job and pull back the curtain on what's happening in public schools today. You've seen the stories on the news – our national education system has an agenda, being implemented under the guise of fairness, equality, and racial justice to children. However, this book will open your eyes to: The indoctrination process through mandatory teacher training that implements these radical ideologies in schools without parental knowledge The danger and division created by critical race theory and gender theory being promoted in public schools How Marxist, socialist, and communist ideologies are dominating public schools, and how you move forward with homeschooling your children For generations, teachers have been excellent role models, investing their time and energy

into fundamental lessons. However, today a growing number think they, the school board, and their school system know more than parents about what should be taught to students. You need to know what is going on in your child's school and be prepared for the conflict of values that you may have to face. You have options.

Human Rights after Corporate Personhood Jody Greene, Sharif Youssef, 2020-11-03 *Human Rights after Corporate Personhood* offers a rich overview of current debates, and seeks to transcend the outrage response often found in public discourse and corporate legal theory. Through original and innovative analyses, the volume offers an alternative account of corporate juridical personality and its relation to the human, one that departs from accounts offered by public law. In addition, it explores opportunities for the application of legal personality to assist progressive projects, including, but not limited to, environmental justice, animal rights, and Indigenous land claims. Presented accessibly for the benefit of non-specialist readers, the volume offers original arguments and draws on eclectic sources, from law and poetry to fiction and film. At the same time, it is firmly grounded in legal scholarship and, thus, serves as an essential reference for scholars, students, lawmakers, and anyone seeking a better understanding of the interface between corporations and the law in the twenty-first century.

God, Schools, and Government Funding Laurence H. Winer, Nina J.

Crimm,2016-04-15 In recent years, a conservative majority of the U.S. Supreme Court, over vigorous dissents, has developed circumventions to the Establishment Clause of the First Amendment that allow state legislatures unabashedly to use public tax dollars increasingly to aid private elementary and secondary education. This expansive and innovative legislation provides considerable governmental funds to support parochial schools and other religiously-affiliated education providers. That political response to the perceived declining quality of traditional public schools and the vigorous school choice movement for alternative educational opportunities provokes passionate constitutional controversy. Yet, the Court's recent decision in Arizona Christian School Tuition Organization v. Winn inappropriately denies taxpayers recourse to challenge these proliferating tax funding schemes in federal courts. Professors Winer and Crimm clearly elucidate the complex and controversial policy, legal, and constitutional issues involved in using tax expenditures - mechanisms such as exclusions, deductions, and credits that economically function as government subsidies - to finance private, religious schooling. The authors argue that legislatures must take great care in structuring such programs and set forth various proposals to ameliorate the highly troubling dissention and divisiveness generated by state aid for religious education.

Brutes Or Angels James T. Bradley,2013-04-02 With stem cell research, Dolly the cloned sheep, in vitro fertilization, age retardation, and pharmaceutical

mind enhancement, humankind is now faced with decisions that it has never before had to consider. The thoughtfulness, or lack of it, that we bring to those decisions will largely determine the future character of the living world. Brutes or Angels will facilitate informed choice making about the personal use of biotechnologies and the formulation of public policies governing their development and use. Ten biotechnologies that impact humans are considered: stem cell research, embryo selection, human genomics, gene therapies, human reproductive cloning, age retardation, cognition enhancement, the engineering of nonhuman organisms, nanobiology, and synthetic biology. With deft and assured use of metaphors, analogies, diagrams, and photographs, James T. Bradley introduces important biological principles and the basic procedures used in biotechnology. Various ethical issues--personhood, personal identity, privacy, ethnic discrimination, distributive justice, authenticity and human nature, and the significance of mortality in the human life cycle--are presented in a clear and unbiased manner. Personal reflection and group dialogue are encouraged by questions at the end of each chapter, making this book not only a general guide to better informed and nuanced thinking on these complex and challenging topics but also an appropriate text for bioethics courses in university science departments and for adult education classes. -- Publisher's description.
