Your Future Self Will Thank You Drew Dyck,2019-01-01 Why can't I control my anger? Or stop overeating? Or wasting time online? Why can't I seem to finish my projects? Or make progress in my spiritual life? Why do I fall for the same stupid temptations over and over again? When we fail, it's easy to make excuses or blame our circumstances. But let's face it: the biggest enemy is usually the one staring back at us from the mirror every morning. We lack self-control. Self-control isn't very popular these days. We tend to think of it as boring, confining, the cop that shows up and shuts down the party. But the truth is that people who cultivate this vital virtue lead freer, happier, and more meaningful lives. After all, our bad habits—from the slight to the serious—bring a host of painful consequences. Ultimately, they keep us from becoming the people God created us to be. Your Future Self Will Thank You is a compassionate and humorous guide to breaking bad habits and growing your willpower. It explores Scripture's teachings on how to live a disciplined life while offering practical strategies for growth based on the science of self-control. Whether you want to deepen your spiritual life, conquer an addiction, or kick your nail-biting habit, this book will help you get motivated, stay on track, and achieve your goals. Sure, self-control is hard, but it doesn't have to be that hard. Get the help you need to be freer, happier, and more productive. Your future self will thank you!

Herbal Voices Ethan B Russo,Anne Dougherty,2013-10-11 Learn how traditional herbal practitioners are responding to the sudden, massive popularity of herbal medicine! Herbal Voices: American Herbalism Through the Words of American Herbalists examines how herbal practitioners who started in the 1960s and 1970s are reacting to the mainstream popularity of herbal medicine today. This unique book features interviews with 20 of America's most prominent herbalists—focusing on their careers, their beliefs, and their perspectives on the contemporary herbal product boom in recent years. Also included is important information on herbal organizations, publications, schools, and companies where seeds and rootstock of endangered medicinal plants can be obtained, as well as a list of the United Plant Savers' "At Risk" and "To Watch" medicinal plants. Herbal Voices synthesizes the words of a representative group of herbalists into a compelling picture of modern American herbalism as they offer their opinions on the roles of science, folklore, and spirituality in herbal medicine. This timely resource addresses controversial issues that arise within the herbal community, such as the endangered plant crisis, professionalism and licensure, and shifting the American consciousness toward a more Earth-centered way of life and health. In Herbal Voices, you'll hear from many well-known herbal practitioners, including: Rosemary Gladstar—founder of The California School of Herbal Studies and United Plant Savers, co-founder of Sage Mountain Herbs, and author of Herbal Healing for Women and of the Sage Healing Way series James Green—former Director of The California School of Herbal Studies, a member of the advisory committee for United Plant Savers, and author of both The Herbal Medicine-Makers Handbook and The Male Herbal David Hoffmann—Fellow of Britain's National Institute of Medical Herbalists, former President of the American Herbalists Guild, and author of The New Holistic Herbal, An Elder's Herbal, and Therapeutic Herbalism Richo Cech—herbalist, owner of Horizon Herbs, executive board member of United Plant Savers, and author of Growing Your Garden Pharmacy Sharol Tilgner—licensed naturopathic physician, founder and current President of Wise Woman Herbals, Inc., editor of Herbal Transitions, associate editor of Medical Herbalism, and author of Herbal Medicines From the Heart of the Earth For the first time, these leading educators, clinicians, and business owners share the joys and pitfalls of practicing an age-old healing tradition in modern America. This rich resource of reflections fills a gap in the existing literature that will be useful for herbalists, herbal enthusiasts, historians, anthropologists, popular culturists, and holistic/alternative medical practitioners.

Language and Identity in the Balkans Robert D. Greenberg,2004-03-25 Language rifts in the Balkans are endemic and have long been both a symptom of ethnic animosity and a cause for inflaming it. But the break-up of the Serbo-Croatian language into four languages on the path towards mutual unintelligibility within a decade is, by any previous standard of linguistic behaviour, extraordinary. Robert Greenberg describes how it happened. Basing his account on first-hand observations in the region before and since the communist demise, he evokes the drama and emotional discord as different factions sought to exploit, prevent, exacerbate, accelerate or just make sense of the chaotic and unpredictable language situation. His fascinating account offers insights into the nature of language change and the relation between language and identity. It also provides a uniquely vivid perspective on nationalism and identity politics in the former Yugoslavia.

Lights! Camera! Action and the Brain Maher Bahloul,Carolyn Graham,2012-01-17 Lights! Camera! Action and the brain: The Use of Film in Education is about an innovative pedagogy whereby performing arts and digital production play a key role in teaching and learning. The book combines theory and practice; as such, it lays solid neurological foundations for film and media literacy, and provides several relevant practical applications from worldwide scholars. The book contains thirteen chapters three of which address a number of theoretical issues related to the camera and the brain while the remaining ten are practical illustrations of the extent to which film and video are used as pedagogical tools. In the book preface, Nikos Theodosakis, author of 'The Director in the Classroom', writes that the book contributors 'have built a wonderful bridge for us to travel over'. In fact, the book chapters transcend age restrictions to include diverse age groups, children and young adults. The topics range from learning language and philosophy to learning about one's self, one's environment, and one's cultural identity. Much more importantly, the book addresses the needs of regular and special needs learners. Arts in general, and films in particular, are shown to display salient and dynamic roles in appealing to a wide variety of regular and special needs learners. In short, the book is highly beneficial to educators and to education managers; it 'will have the power to change teaching and the way the curriculum is perceived' for several generations to come.

Waste: Uncovering the Global Food Scandal Tristram Stuart,2009-10-26 The true cost of what the global food industry throws away. With

shortages, volatile prices and nearly one billion people hungry, the world has a food problem—or thinks it does. Farmers, manufacturers, supermarkets and consumers in North America and Europe discard up to half of their food—enough to feed all the world's hungry at least three times over. Forests are destroyed and nearly one tenth of the West's greenhouse gas emissions are released growing food that will never be eaten. While affluent nations throw away food through neglect, in the developing world crops rot because farmers lack the means to process, store and transport them to market. But there could be surprisingly painless remedies for what has become one of the world's most pressing environmental and social problems. Waste traces the problem around the globe from the top to the bottom of the food production chain. Stuart's journey takes him from the streets of New York to China, Pakistan and Japan and back to his home in England. Introducing us to foraging pigs, potato farmers and food industry CEOs, Stuart encounters grotesque examples of profligacy, but also inspiring innovations and ways of making the most of what we have. The journey is a personal one, as Stuart is a dedicated freegan, who has chosen to live off of discarded or self-produced food in order to highlight the global food waste scandal. Combining front-line investigation with startling new data, Waste shows how the way we live now has created a global food crisis—and what we can do to fix it.

Merger Control in the EU and Turkey Fevzi Toksoy, Bahadır Balki, Hanna Stakheyeva, 2022-05-11 As a country on the way to integration with the European Union (EU), Turkey has been following EU principles in establishing and improving its merger control regime, as well as overall competition law, keeping pace with changes in relevant EU legislation and case law. This book presents, for the first time, a description and analysis of the relationship between the EU and Turkish merger control law and practice. The second edition of the book considers the legislative changes that occurred in 2020-2021, including the reform of the Turkish Competition Law which introduced the significant impediment to effective competition (SIEC) test into the Turkish concentration control. The authors—all three, both practicing lawyers and academicians in Turkey—focus on comparing substantive, procedural and jurisdictional issues and draw parallels on their regulation in the two jurisdictions. These matters include the following: determining whether a transaction shall be regarded as a notifiable merger, hence be subject to control; financial thresholds used for allocating jurisdictions; extraterritoriality of merger control; relationship between the SIEC test and the dominance test; determination of the relevant market; techniques used for assessment of horizontal and non-horizontal mergers; notification requirements; procedural duties of competition authorities in relation to remedies; third-party rights; gun-jumping fines and other sanctions for failure to comply with merger control requirements; and peculiarities of assessment of mergers in the Big Data world. Each chapter provides an overview of the respective issues in the EU and Turkey, projecting a clear understanding of the main similarities and differences in the two regimes. A notable feature is an in-depth analysis of applicable case law concerning each issue, with most of the Turkish decisions available in English for the first time. The book's comparative approach will prove to be of great value. With its clear answers to questions about what transactions are subject to merger control, what criteria are used in assessing those transactions, and the main issues that a foreign company should be aware of while merging with another foreign company with effect in Turkey and/or EU, the book will be of immeasurable value for lawyers and their business clients dealing with multijurisdictional merger cases. Interested academics and policymakers will also find much here to attract their attention.

Politik und Religion in der Europäischen Union Hartmut Behr, Mathias Hildebrandt, 2007-10-29 Wie christlich ist Europa? Wie religiös sind europäische Gesellschaften? Oder gibt es bereits eine europäische Gesellschaft? Und wenn ja, worauf baut sie auf? Glauben wir dem in die Krise geratenen europäischen Verfassungsentwurf, so ist die Europäische Union eine religiös neutrale, wirtschaftliche und politische Gemeinschaft. Verfolgen wir hingegen Europadiskurse in europäischen Gesellschaften von Seiten führender EU-Politiker wie auch von Seiten wissenschaftlicher Diskutanten, so finden wir allorts Debatten um die, oder eine europäische Werteidentität und ihre religiöse Basis. All das ist genug Stoff, systematisch nach dem Verhältnis von Politik und Religion im europäischen Kontext zu fragen. Da das ordnungspolitisch-institutionelle wie geistige Verhältnis von Politik und Religion in europäischen Staaten, wie andere Politikfelder auch, von Europäisierungsprozessen betroffen sind, stehen ihre Ausgestaltungen in dem Zwiespalt zwischen nationalen Traditionen und religiöser Vielfalt. Unter diesem Topos suchen die Autoren dieses Bandes aus unterschiedlichen empirischen und theoretischen Perspektiven nach Antworten.

O poder da amizade John M. Perkins, Karen Waddles, 2022-02-14 Você acreditaria que a amizade é a chave para mudar o mundo? Quando perguntam ao dr. John Perkins, uma das vozes cristãs mais eloquentes da sociedade norte-americana, como fazer a diferença no mundo, ele habitualmente responde: Sejam amigos. Primeiramente de Deus, depois dos outros — todo tipo de 'outros' que você possa imaginar. Porque a verdade mais simples, poderosa, estonteante e explosiva é: O mundo é transformado uma amizade por vez. Ao conhecer a trajetória de vida do dr. Perkins, suas afirmações sobre o poder da amizade adquirem importância não apenas maior como também surpreendente: pobreza, racismo, perdas e toda a sorte de infelicidades não tiveram o poder de mascarar a verdade essencial de que Deus nos ama, está próximo e conectado conosco. Ele é um amigo especial que nos ensina a fazer outros amigos. Em *O poder da amizade*, o autor compartilha suas experiências de vida, explora histórias bíblicas e apresenta perfis de várias de suas próprias amizades pessoais, inspirando leitores e leitoras a imaginarem a possibilidade de uma realidade diferente da atual, cuja fragmentação, isolamento e desconfiança mútua nos afastam de Deus e do próximo. Quero falar sobre amizade no nível da alma. Acho que esse é o tipo de amizade que Deus planejou que tivéssemos, com ele e uns com os outros. É o único tipo de amizade que curará as feridas da alma.
