Mediterranean Israeli Music and the Politics of the Aesthetic Amy Horowitz, 2010 The relocation of North African and Middle Eastern Jews to Israel in the 1950s and 1960s brought together communities from Egypt, Iraq, Kurdistan, Yemen, and many other Islamic countries, as well as their unique music styles. In the unstable, improvisatory spaces of transit camps, development towns, and poor neighborhoods, they created a new pan-ethnic Mizrahi identity and a homegrown hybrid music that inspired equal parts high-pitched enthusiasm and resistance along the fault lines of Israel's ethnic divide. In *Mediterranean Israeli Music and the Politics of the Aesthetic*, author Amy Horowitz investigates the emergence of a new pan-ethnic Mizrahi style of music between the 1970s and 1990s, as the community struggled to gain recognition on the overlapping stages of politics and music. This volume is both an ethnographic study based on Horowitz's immersion in the Mizrahi community and a multi-voiced account of community members, who describe their music and musicians who play it. Horowitz focuses primarily on the work of three artists—Avihu Medina, Zohar Argov, and Zehava Ben—who pioneered a recognizable Mizrahi style and moved this new musical formation from the Mizrahi neighborhoods to the national arena. She also contextualizes the music within the history of the community by detailing the mass migration of North African and Middle Eastern Jews to Israel, the emergence of these immigrants as a pan-ethnic political coalition in the 1970s, and the opening up of markets for disenfranchised music makers as a result of new recording technologies, including the cassette recorder and four-way duplicating machine. *Mediterranean Israeli Music and the Politics of the Aesthetic* places folklore within the frameworks of nationalism, ethnicity, ethnomusicology, Jewish studies, Israel studies, Middle Eastern Studies, and politics. Anyone interested in these disciplines will appreciate this remarkable volume.

A Comparative Analysis of Policing Consumer Contracts in China and the EU Jiangqiu Ge, 2019-02-07 This book seeks to fill a gap in the existing literature by describing the formulation, interpretation and enforcement of the rules on consumer contracts in China and the EU, and by mapping key similarities and differences. The study addresses selected issues regarding consumer contracts: sources of law in the two jurisdictions are first discussed to set the scene. Afterwards, one preliminary issue – how to define the concept of a consumer contract – and two substantive topics – unfair terms and withdrawal rights – are dealt with. Apart from the descriptive

analysis, the book also provides possible explanations for these comparative findings, and argues that the differences in consumer contract rules can be primarily attributed to a disparity of markets. The book offers a valuable resource, particularly for researchers and practitioners in the fields of private law and comparative law.

Mathematical Works Printed in the Americas, 1554-1700 Bruce Stanley Burdick, 2009-01-22 Burdick's exhaustive research has unearthed numerous examples of books not previously cataloged as mathematical. While it was thought that no mathematical writings in English were printed in the Americas before 1703, Burdick gives scholars one of their first chances to discover Jacob Taylor's 1697 *Tenebrae*, a treatise on solving triangles and other figures using basic trigonometry. He also goes beyond the English language to discuss works in Spanish and Latin, such as Alonso de la Vera Cruz's 1554 logic text, the *Recognitio Summularum*; a book on astrology by Enrico Martinez; books on the nature of comets by Carlos de Sigüenza y Góngora and Eusebio Francisco Kino; and a 1676 almanac by Feliciano Ruiz, the first woman to produce a mathematical work in the Americas..

Tributação da energia no Brasil Edson Luciani de Oliveira, 2021-05-28 Hoje há pouca preocupação com a tributação da energia. O estudo do Direito Tributário Brasileiro volta-se basicamente para o Direito Fiscal, e o princípio da capacidade contributiva torna-se protagonista da doutrina em virtude da renda, patrimônio e consumo, a despeito do aspecto ambiental. Com a carência de vetores éticos normativos solidários, ao lado da visão doutrinária tradicional descritivista da norma, há um distanciamento dos princípios advindos de outras áreas jurídicas, como a ambiental, e dos direitos de segunda e terceira gerações. As doutrinas e experiências tributárias estrangeiras, porém, abrem maior espaço para outros temas como o da extrafiscalidade, cuja instrumentalidade pode ser importante para a inovação tecnológica, melhor distribuição da cobrança tributária, aliviando a área trabalhista e das sociedades na busca da neutralidade arrecadatória. Examina-se, então, como é e como poderia ser tratada a tributação constitucional da energia no Brasil para a proteção ambiental pela extrafiscalidade e pelo princípio da solidariedade, dadas, também, as experiências internacionais. As normas tributárias para as variadas fontes de geração da energia, como a hidrelétrica e o petróleo, devem observar as atividades econômicas e consequências ambientais e de arrecadação. Conclusão principal: é possível vislumbrar um novo quadro tributário brasileiro pela extrafiscalidade ambiental à luz do princípio da solidariedade e das experiências internacionais na seara da energia.

Anti-Nazi Modernism Mia Spiro, 2012-12-31 Mia Spiro's Anti-Nazi Modernism marks a major step forward in the critical debates over the relationship between modernist art and politics. Spiro analyzes the antifascist, and particularly anti-Nazi, narrative methods used by key British and American fiction writers in the 1930s. Focusing on works by Djuna Barnes, Christopher Isherwood, and Virginia Woolf, Spiro illustrates how these writers use an anti-Nazi aesthetic to target and expose Nazism's murderous discourse of exclusion. The three writers challenge the illusion of harmony and unity promoted by the Nazi spectacle in parades, film, rallies, and propaganda. Spiro illustrates how their writings, seldom read in this way, resonate with the psychological and social theories of the period and warn against Nazism's suppression of individuality. Her approach also demonstrates how historical and cultural contexts complicate the works, often reinforcing the oppressive discourses they aim to attack. This book explores the textual ambivalences toward the Others in society—most prominently the Modern Woman, the homosexual, and the Jew. By doing so, Spiro uncovers important clues to the sexual and racial politics that were widespread in Europe and the United States in the years leading up to World War II.
