A Rhetoric of Remnants Zosha Stuckey, 2014-10-08 Examines the rhetoric in and around the New York State Asylum for Idiots in Syracuse from 1854 to 1884. In the nineteenth century, language, rather than biology, created what we think of as disability. Much of the rhetorical nature of "idiocy," and even intelligence itself, can be traced to the period when the New York State Asylum for Idiots in Syracuse first opened in 1854—memorialized today as the first public school for people considered "feeble-minded" or "idiotic." The asylum-school pupil is a monumental example of how education attempts to mold and rehabilitate one's being. Zosha Stuckey demonstrates how all education is in some way complicit in the urge to normalize. The broad, unstable, and cross-cultural category of "people with disabilities" endures an interesting relationship with rhetoric, education, speaking, and writing. Stuckey demystifies some of that relationship which requires new modes of inquiry and new ways of thinking, and she calls into question many of the assumptions about embodied differences as they relate to pedagogy, history, and public participation. "There is no other single work quite like this one. Stuckey makes an original contribution to rhetorical studies, to disability history, and to a history of special education." — Cynthia Lewiecki-Wilson, coeditor of *Disability and Mothering: Liminal Spaces of Embodied Knowledge*

Japanese Phoenix: The Long Road to Economic Revival Richard Katz, 2020-07-24 Japan will recover and its economic achievements will once again earn the

world's admiration, with sustained annual growth of three percent, perhaps more, well within reach. This is the confident forecast that begins Japanese Phoenix: The Long Road to Economic Revival by the author of Japan: The System That Soured, which several years ago accurately predicted Japan's current travails at a time when others were prematurely pronouncing full recovery. Katz warns however that there is bad news to go with the good. So deep-seated are Japan's dysfunctions that, even if it did everything right today, it would take at least five years for truly vibrant growth to take hold. But Japan will not do everything right. Opposition to reform is deep-seated and a myriad of vested interests and millions of jobs are at stake. Still he notes, there is little doubt that reform will succeed. Japanese Phoenix tells the story of the struggle between the forces of reform and the forces of resistance. It dissects Prime Minister Koizumi's role in the process, and explains why Japan is in so much trouble and what needs to be done. It explore the debates among economists and gives a careful progress report on all the moves made so far in the name of reform - from greater direct foreign investment, to the financial Big Bang, to ending one-party rule by the Liberal Democratic Party. Katz concludes that this is just the second round of a 15-round fight. Japan is a great nation currently trapped in obsolete institutions. As it has before, Japan will find a way to surmount its problems and regain its forward progress.

Globalization and International Organizations Edward Kwakwa, 2017-05-15 The

last few years have witnessed several significant developments in respect of international organizations, most of which are best encapsulated in the word change. In particular, international organizations have moved from their traditional role of facilitator of the activities of their members, to that of director of their own activities. As a result, there is increased scrutiny over issues relating to the governance, control, accountability and the privileges and immunities of international organizations. These subjects are all the focus of this book. Edward Kwakwa has collected together the best published work by leading authorities in the field on subjects of crucial importance and relevance to international organizations, particularly in the context of today's ever-increasing globalization. This book is of interest to scholars and students of law, as well as government and non-government practitioners and international civil servants.

Global Citizenship for Adult Education Petra A. Robinson, Kamala V. Williams, Maja Stojanović, 2021-07-19 This book promotes the development of nontraditional literacies in adult education, especially as these critical literacies relate to global citizenship, equity, and social justice. As this edited collection argues, a rapidly changing global environment and proliferation of new media technologies have greatly expanded the kinds of literacies that one requires in order to be an engaged global citizen. It is imperative for adult educators and learners to understand systems, organizations, and relationships that influence our lives as citizens of the world. By compiling a comprehensive list of foundational, sociocultural, technological and informational, psychosocial and environmental, and social justice literacies, this volume offers readers theoretical foundations, practical strategies, and additional resources.

The Bark Canoes and Skin Boats of Northern Eurasia Harri Luukkanen, William W. Fitzhugh, 2020-09-15 The Bark Canoes and Skin Boats of Northern Eurasia is a history and description of bark and skin boat traditions of the native peoples of Scandinavia and northern Russia. The history of northern peoples and cultures is inextricably linked to the technology of water transport. This is particularly true in northern Eurasia, where lakes and rivers can connect when overland summer travel is restricted by thick forests or bogs.

For thousands of years, native peoples used a variety of bark and skin boats for fishing, hunting, trading, making war, and migrating. The Eurasian peoples, responding to their geography, climate, and environment, learned to construct--and perfect--small watercraft made from dug-out logs or the bark of birch, aspen, larch, and other trees, each variety crafted for its special use and environment. The text describes the design, construction, and uses of skin and bark boats for thirty-five traditional cultures ranging from northern Scandinavia to the Russian Far East, from the Bering Strait to northern China, and from South Siberia to the Arctic Ocean. Regional chapters use evidence from archaeology, historical illustrations and maps, and extensive documentation from ethnography and historical literature to reveal how differences in cultural traditions, historical relationships, climate, and geography have influenced the development and spread of watercraft before the introduction of modern planked boats. This definitive volume is richly illustrated with historical photographs and drawings, first-person explorer accounts from the 16th-19th centuries, and information on traditional bark and skin preparation, wood-bending, and other construction techniques. The Bark Canoes and Skin Boats of Northern Eurasia presents a first-ever overview of northern Eurasian boating traditions and serves as the companion to Charles Adney's and Howard Chapelle's classic, *The Bark Canoes and Skin Boats of North America* (1964).

Terror and Consent Philip Bobbitt,2009-05-05 Philip Bobbitt follows his magisterial Shield of Achilles with an equally provocative analysis of the West's struggle against terror. Boldly stating that the primary driver of terrorism is not Islam but the emergence of market states (like the U.S. and the E.U.), Bobbitt warns of an era where weapons of mass destruction will be commodified and the wealthiest societies even more vulnerable to

destabilizing, demoralizing terror. Unflinching in his analysis, Bobbitt addresses the deepest themes of history, law and strategy.

The Routledge Handbook of the Politics of Brexit Patrick Diamond, Peter Nedergaard, Ben Rosamond, 2018-05-08 The surprise decision expressed by the British people in the referendum held in June 2016 to leave the European Union was remarkable. It also presents a natural experiment where the exposure of a society to an extraordinary event allows scholars to observe, in real time in the real world, the interaction of variables. The Routledge Handbook of the Politics of Brexit takes stock of what we know in the social science community about the Brexit phenomenon so far and looks to make sense of this remarkable process as it unfolds. The book asks simple questions across a range of areas and topics so as to frame the debate into a number of navigable subdiscussions, providing structure and form to what is an evolving and potentially inchoate topic. As such, it provides a systematic account of the background for, the content of, and the possible implications of Brexit. The handbook therefore does not examine in detail the minutiae of Brexit as it unfolds on a day-to-day basis but raises its sights to consider both the broad contextual factors that shape and are shaped by Brexit and the deeper sources and implications of the British exit from the European Union. Importantly, as interest in Brexit reaches far beyond the shores of the United Kingdom, so an international team of contributors examines and reveals the global implications and the external face of Brexit. The Routledge Handbook of the Politics of Brexit will be essential reading and an

authoritative reference for scholars, students, researchers and practitioners involved in and actively concerned about research on Brexit, British politics, European Union politics, and comparative politics and international relations.
