Case Studies in Disaster Response and Emergency Management Nicolas A. Valcik, Paul E. Tracy, 2017-04-28 Designed to enable practitioners and students to evaluate a variety of real-life emergencies from every angle, this new edition of Case Studies in Disaster Response and Emergency Management provides clear, thorough, step-by-step descriptions of more than 50 major disasters or emergencies. Arranged chronologically, the case studies involve incidents from around the globe, with topics including natural disasters, industrial accidents, epidemics, and terrorist attacks. A series of questions throughout each case study encourages the reader to think critically about the problem at hand, to select a course of action, and to then see the results of the decisions that were made. This hands-on approach invites practitioners and students to apply learned theoretical emergency management techniques in a safe test environment. Case Studies in Disaster Response and Emergency Management, 2e provides readers with the most modern and current case studies in disaster response and emergency management and can be used in group project settings, as individual homework assignments in training courses for first responders, law enforcement, and government employees, or to complement existing emergency management textbooks in Public Administration, Public Management, and Public Affairs programs.

**The World Community and the "other" Terrorism** Bertil Dunér, 2007 Many states suffer from internal violence and terrorism that is national rather than international, and cannot benefit from the solidarity inherent in the campaign against international terrorism. The present study sets out to develop a paradigm for the systematic assessment of international responses to situations of internal violence-cum-terrorism and demonstrate its relevance in actual conflict situations.

Asylum - A Right Denied Helen O'Nions, 2016-04-15 In recent decades, asylum has emerged as a highly politicized European issue. The term 'asylum seeker' has suffered a negative perception and has been associated with notions of illegality and criminality in mainstream media. These misconceptions have been supported by politicians as a distraction from economic and political uncertainties with the result that asylum seekers have been deprived of significant rights. This book examines the effect of recent attempts of harmonization on the identification and protection of refugees. It considers the extent of obligations on the state to admit and protect refugees and examines the 1951 Refugee Convention. The motivations of European legislators and legislation concerning asylum procedures and reception conditions are also analysed. Proposals and initiatives for refugee movements and determinations are examined and assessed. The author makes suggestions for better protection of refugees while responding to the security concerns of States, and questions whether European law and policy is doing enough to uphold the fundamental right to seek and enjoy asylum as set out in the Universal Declaration of Human Rights. This book takes a bold look at a controversial issue and generates discussion for those involved in the fields of human rights, migrational and transnational studies, law and society and international law.

*Chinese Politics in the Xi Jinping Era* Cheng Li, 2016-10-18 Chinese politics are at a crossroads as President Xi Jinping amasses personal power and tests the

constraints of collective leadership. In the years since he became general secretary of the Chinese Communist Party in 2012, Xi Jinping has surprised many people in China and around the world with his bold anti-corruption campaign and his aggressive consolidation of power. Given these new developments, we must rethink how we analyze Chinese politics—an urgent task as China now has more influence on the global economy and regional security than at any other time in modern history. *Chinese Politics in the Xi Jinping Era* examines how the structure and dynamics of party leadership have evolved since the late 1990s and argues that inner-party democracy—the concept of collective leadership that emphasizes deal making based on accepted rules and norms—may pave the way for greater transformation within China's political system. Xi's legacy will largely depend on whether he encourages or obstructs this trend of political institutionalization in the governance of the world's most populous and increasingly pluralistic country. Cheng Li also addresses the recruitment and composition of the political elite, a central concern in Chinese politics. China analysts will benefit from the meticulously detailed biographical information of the 376 members of the 18th Central Committee, including tables and charts detailing their family background, education, occupation, career patterns, and mentor-patron ties.

Family, Law, and Inheritance in America Yvonne Pitts, 2013-05-20 Yvonne Pitts explores inheritance practices by focusing on nineteenth-century testamentary capacity trials in Kentucky in which disinherited family members challenged relatives' wills. These disappointed heirs claimed that their departed relative lacked the capacity required to write a valid will. These inheritance disputes criss-crossed a variety of legal and cultural terrains, including ordinary people's understandings of what constituted insanity and justice, medical experts' attempts to infuse law with science, and the independence claims of women. Pitts uncovers the contradictions in the body of law that explicitly protected free will while simultaneously reinforcing the primacy of blood in mediating claims to inherited property. By anchoring the study in local communities and the texts of elite jurists, Pitts demonstrates that 'capacity' was a term laden with legal meaning and competing communal values about family, race relations and rationality. These concepts evolved as Kentucky transitioned from a conflicted border state with slaves to a developing free-labor, industrializing economy.

*Creative Industry Districts* Jinliao He, 2013-11-19 Since the late 1990s, there have been broad discussions concerning the rapid rise of the creative economy. Creative or cultural industry is seen as the new engine of the regional growth for both developed economies and emerging nations. At the point of transition in economy and society, China is recently striving to transform its economy from “made in China” towards “created in China”. This book provides an insight into creative industries and spaces in Shanghai, which is the fastest growing megacity in China and the center of modern economic development on a global scale. Underpinned by new approaches from economic geography and urban studies, it deals with the new relations between the creative economy and urban environment in Shanghai. Over the last decade, creative clusters have been rapidly emerging in particular locations in the central city of Shanghai. This spatial phenomenon is explained in the book through an analysis of dynamics, networks and implications.

The New Latino Studies Reader Ramon A. Gutierrez,Tomas Almaguer,2016-08-23 The New Latino Studies Reader is designed as a contemporary, updated, multifaceted collection of writings that bring to force the exciting, necessary scholarship of the last decades. Its aim is to introduce a new generation of students to a wide-ranging set of essays that helps them gain a truer understanding of what it’s like to be a Latino in the United States. With the reader, students explore the sociohistorical formation of Latinos as a distinct panethnic group in the United States, delving into issues of class formation; social stratification; racial, gender, and sexual identities; and politics and cultural production. And while other readers now in print may discuss Mexican Americans, Puerto Ricans, Cubans and Central Americans as distinct groups with unique experiences, this text explores both the commonalities and the differences that structure the experiences of Latino Americans. Timely, thorough, and thought-provoking, The New Latino Studies Reader provides a genuine view of the Latino experience as a whole.
