**Baron de Vastey and the Origins of Black Atlantic Humanism** Marlene L. Daut, 2017-10-31 Focusing on the influential life and works of the Haitian political writer and statesman, Baron de Vastey (1781-1820), in this book Marlene L. Daut examines the legacy of Vastey's extensive writings as a form of what she calls black Atlantic humanism, a discourse devoted to attacking the enlightenment foundations of colonialism. Daut argues that Vastey, the most important secretary of Haiti's King Henry Christophe, was a pioneer in a tradition of deconstructing colonial racism and colonial slavery that is much more closely associated with twentieth-century writers like W.E.B. Du Bois, Frantz Fanon, and Aimé Césaire. By expertly forging exciting new historical and theoretical connections among Vastey and these later twentieth-century writers, as well as eighteenth- and nineteenth-century black Atlantic authors, such as Phillis Wheatley, Olaudah Equiano, William Wells Brown, and Harriet Jacobs, Daut proves that any understanding of the genesis of Afro-diasporic thought must include Haiti's Baron de Vastey.

A Companion to Mill Christopher Macleod, Dale E. Miller, 2018-04-12 This Companion offers a state-of-the-art survey of the work of John Stuart Mill — one which covers the historical influences on Mill, his theoretical, moral and social philosophy, as well as his relation to contemporary movements. Its contributors include both senior scholars with established expertise in Mill's thought and new emerging interpreters. Each essay acts as a go-to resource for those seeking to understand an aspect of Mill's thought or to familiarise themselves with the contours of a debate within the scholarship. The Companion is a key reference on Mill's theory of liberty and utilitarianism, but also provides a valuable resource on lesser-known aspects of his work, including his epistemology, metaphysics, and philosophy of language. The volume is divided into six sections. Part I covers Mill's life, his immediate posthumous reputation, and his own telling of his life-

story. Part II brings together an accessible and comprehensive summary of the various influences on Mill's thought. Part III offers an account of the foundations of Mill's philosophy and his thought on key philosophic topics. Parts IV and V tackle issues from Mill's moral and social philosophy. Part VI concludes with a treatment of the broader aspects of Mill's thought, tracing his relation to major movements in philosophy.

### **Economic Migration, Social Cohesion and Development**

Patrick A. Taran, European Committee on Migration, 2009-01-01 In the final declaration of their 8th conference, the European ministers responsible for migration affairs committed to promoting and protecting the human rights of migrants, with special attention to gender equality and the rights of women; to strengthening dialogue and co-operation between receiving, transit and origin countries, particularly within Europe; and to promoting coherence at all levels (international, national, regional and local) between migration, development and integration policies. The ministers also agreed to manage economic migration with a view to promoting economic and social progress in receiving, transit and origin countries; to enhance social cohesion by improving the integration of migrants and persons of immigrant background and the re-integration of migrants who return to their countries of origin; and to strengthen the contribution of migrants and persons of immigrant background to development in receiving and origin countries and their involvement in co-development programmes. This report was prepared to support the ministerial debate during the conference. It presents the main aspects and characteristics of migration in the member states of the Council of Europe, analyses policy challenges raised by contemporary migration and identifies an integrated policy agenda.

### **The War of 1812, Conflict and Deception** Ronald J.

Drez, 2014-11-12 Perhaps no conflict in American history is more important yet more overlooked and misunderstood than the War

of 1812. Begun by President James Madison after decades of humiliating British trade interference and impressment of American sailors, the war in many ways was the second battle for United States independence. At the climax of the war -- inspired by the defeat of Napoleon in early 1814 and the perceived illegality of the Louisiana Purchase -- the British devised a plan to launch a three-pronged attack against the northern, eastern, and southern U.S. borders. Concealing preparations for this strike by engaging in negotiations in Ghent, Britain meanwhile secretly issued orders to seize New Orleans and wrest control of the Mississippi and the lands west of the river. They further instructed British commander General Edward Pakenham not to cease his attack if he heard rumors of a peace treaty. Great Britain even covertly installed government officials within military units with the intention of immediately taking over administrative control once the territory was conquered. According to author Ronald J. Drez, the British strategy and the successful defense of New Orleans through the leadership of General Andrew Jackson affirm the serious implications of this climactic battle. Far from being simply an unnecessary epilogue to the War of 1812, the Battle of New Orleans firmly secured for the United States the territory acquired through the Louisiana Purchase. Through the use of primary sources, Drez provides a deeper understanding of Britain's objectives, and *The War of 1812, Conflict and Deception* offers a compelling account of this pivotal moment in American history.

*Saving Souls* Hilary Beckles, Verene Shepherd, 2007 The process of terminating the European Transatlantic Trade in Africans (TTA) was long and drawn-out. Although Africans, including the enslaved had long resisted its operation, abolition has traditionally been presented as a benevolent act by the British state acting under pressure from the intellectual classes

and humanitarian activists. But the campaign to end the TTA cannot be separated from the resistance struggle of the Africans themselves. In *Saving Souls: The Struggle to end the Transatlantic Trade in Africans*, the companion volume to *Trading Souls*, noted Caribbean historians Hilary Beckles and Verene Shepherd trace the African experience from capture, the horrors of the Middle Passage to liberation. Their story emphasises the contributions of the victims of the enslaved even while acknowledging the critical role of the British abolitionists. Readers will learn about: The structure and conduct of the trade in African people Details of the resistance of Africans to capture, sale and transportation The abolition movement - involving black and white, enslaved and free, male and female, Christian and non-Christian activists Legacies of the 1807 Act The final Abolition Acts, namely the 1805-1806 Order-in-Council and the 1807 Act are included as appendices for easy reference.

**Awakening the Ashes** Marlene L. Daut, 2023-10-17 The Haitian Revolution was a powerful blow against colonialism and slavery, and as its thinkers and fighters blazed the path to universal freedom, they forced anticolonial, antislavery, and antiracist ideals into modern political grammar. The first state in the Americas to permanently abolish slavery, outlaw color prejudice, and forbid colonialism, Haitians established their nation in a hostile Atlantic World. Slavery was ubiquitous throughout the rest of the Americas and foreign nations and empires repeatedly attacked Haitian sovereignty. Yet Haitian writers and politicians successfully defended their independence while planting the ideological roots of egalitarian statehood. In *Awakening the Ashes*, Marlene L. Daut situates famous and lesser-known eighteenth- and nineteenth-century Haitian revolutionaries, pamphleteers, and political thinkers within the global history of ideas, showing how their systems of knowledge and interpretation took center stage in the Age of Revolutions. While modern understandings of freedom and equality are often

linked to the French Declaration of the Rights of Man or the US Declaration of Independence, Daut argues that the more immediate reference should be to what she calls the 1804 Principle that no human being should ever again be colonized or enslaved, an idea promulgated by the Haitians who, against all odds, upended French empire.

*The First Great Charity of This Town* Olwen

Purdue, 2022-08-24 Belfast Charitable Society was established in 1752 with the purpose of raising funds to build a poorhouse and hospital for the poor of Belfast; twenty years later, the foundation stone of the Poorhouse was laid. From here the Society would go on to assume increasing responsibility for a range of matters relating to health, welfare and public order, and its members would play a key part in the civic life of Belfast. It continues to provide vital social services to this day and its Poorhouse, now Clifton House, is still one of the finest buildings in the city. During the century following the establishment of the Society, Belfast was transformed from a relatively small mercantile town into a major industrial city, a transformation that was accompanied by political upheaval and the major societal challenges associated with rapid industrialisation and urban growth. Taking as its focus the work of the Society, the global connections that influenced its thinking and the societal issues it sought to address, this fascinating volume provides valuable insights into the wider social, economic and political life of the nineteenth-century Irish town of which the Society became such an iconic part.

*Oxford Textbook of Palliative Social Work* Terry Altiglio, Shirley Otis-Green, 2011-03-28 This text is the definitive resource for practicing palliative social work clinicians. It is designed to meet the needs of professionals who seek to provide culturally sensitive biopsychosocial-spiritual care for patients and families living with life-threatening illness.

**Rodenbach to Rodenbough** Charles D.

Rodenbough, 2014-12-03 In 1891, retired Union General

Theophilus Francis Rodenbough published a genealogy about his extended family which he called Autumn Leaves From Family Trees. About six generations have passed and the access to broader ranges of research, particularly using the computer, have made possible this update of the General's work. For the author it has been the accumulated work of about 60 years. He has expanded the sources and has investigated families who, particularly at the time of emigration, were associated with the Rodenbach/Rodenbough family. This expands the story to a study of a particular category of German immigration to America and its roots in Europe. The Rodenbach/Rodenbough family is covered in 4 generations in Germany and 10 in America. Eleven allied families including: Rockefeller, Hockenberry, Brown, Shatwell, Teel, Letsch, Cline, Silverthorne, Major, Okeson, and Albertson are covered in multiple generations and there are 20 Genealogical charts, mostly German in origin and over 55 illustrations.

*Orthodox Identities in Western Europe* Maria Hämmerli, Jean-François Mayer, 2016-05-23 The Orthodox migration in the West matters, despite its unobtrusive presence. And it matters in a way that has not yet been explored in social and religious studies: in terms of size, geographical scope, theological input and social impact. This book explores the adjustment of Orthodox migrants and their churches to Western social and religious contexts in different scenarios. This variety is consistent with Orthodox internal diversity regarding ethnicity, migration circumstances, Church-State relations and in line with the specificities of the receiving country in terms of religious landscape, degree of secularisation, legal treatment of immigrant religious institutions or socio-economic configurations. Exploring how Orthodox identities develop when displaced from traditional ground where they are socially and culturally embedded, this book offers fresh insights into Orthodox identities in secular, religiously pluralistic social contexts.

Does Economic Governance Matter? Mehmet Ugur, David Sunderland, 2011-08-31 This book is a welcome addition to the lively field of economic governance. The editors give a thoughtful review of ideas and landmarks in the literature and an organizing framework; the other chapters are a good mixture of theoretical, empirical, and case studies. The whole will significantly advance our understanding of institutions and economic performance. Avinash Dixit, Princeton University, US Economic governance institutions (rules, norms and enforcement practices) define the cost and incentive structures that influence the decisions of economic actors. They therefore have a significant impact on micro and macro economic performance across countries and time. This book contributes to the growing governance literature in three ways. First, it extends the analysis to new areas such as power asymmetry, regulation, transnational company strategies, and law enforcement. Secondly, it examines the role of formal institutions that shape and enforce the rules/norms codified in law; but also private-ordering institutions that function under the umbrella of the State; and private institutions (such as market rules/norms) that provide reputational and other information that foster compliance. Finally, the book extends and enriches the governance debate, addressing issues such as the determinants of institutional quality and efficiency, and the interaction between actor networks and institutional norms. Does Economic Governance Matter? brings together state-of-the-art research and analysis that will appeal to academics and undergraduate and postgraduate students of economics, public policy, network analysis, corporate governance and business law. The book will also appeal to a wide range of practitioners and policymakers in areas such as regulation, competition, international development, corporate law and macroeconomic policy design.

**A Possible World** Heikki Patomäki, Teivo Teivainen, 2004-10  
Publisher Description

*Voices of Identities* Daniel Ender, 2019-01-15 European

history has rarely met changes as rapid, dense and radical as those that have taken place in the regions of the former Austro-Hungarian Empire over the past hundred years. This cultural area has experienced political conflicts, the setting and dissolution of borders, and the construction of similarities, differences, and ever-new identities. Being tied to text, vocal music genres reflect such changes especially strongly. Operas and operettas, oratorios and cantatas, choir music, folksongs, and pop and rock hits have all helped to establish identities in many ways, connecting people on national, ethnical, local or social levels. The contributions to this volume represent the proceedings of the Annual Congress of the Austrian Society for Musicology (Österreichische Gesellschaft für Musikwissenschaft – ÖGMw) in 2014. They open multiple perspectives on the identity-relevant implications of every kind of vocal music from the last days of the Habsburg Empire to the present day. As such, the book places the extensively discussed concept of Nationalism in music in the wider context of identity building.

**Fuel Cells** Noriko Hikosaka Behling, 2012-12-31 *Fuel Cells: Current Technology Challenges and Future Research Needs* is a one-of-a-kind, definitive reference source for technical students, researchers, government policymakers, and business leaders. Here in a single volume is a thorough review of government, corporate, and research institutions' policies and programs related to fuel cell development, and the effects of those programs on the success or failure of fuel cell initiatives. The book describes specific, internal corporate and academic R&D activities, levels of investment, strategies for technology acquisition, and reasons for success and failure. This volume provides an overview of past and present initiatives to improve and commercialize fuel cell technologies, as well as context and analysis to help potential investors assess current fuel cell commercialization activities and future prospects. Crucially, it also gives top executive policymakers and company presidents

detailed policy recommendations on what should be done to successfully commercialize fuel cell technologies. Provides a clear and unbiased picture of current fuel cell research programs  
Outlines future research needs Offers concrete policy recommendations

**The Sibbys of London** Susan Sommers, 2018-04-25 Ebenezer Sibby was a quack doctor, plagiarist, and masonic ritualist in late eighteenth-century London; his brother Manoah was a respectable accountant and a pastor who ministered to his congregation without pay for fifty years. The inventor of Dr. Sibby's Reanimating Solar Tincture, which claimed to restore the newly dead to life, Ebenezer himself died before he turned fifty and stayed that way despite being surrounded by bottles of the stuff. Asked to execute his will, which urged the continued manufacture of Solar Tincture, and left legacies for multiple and concurrent wives as well as an illegitimate son whose name the deceased could not recall, Manoah found his brother's record of financial and moral indiscretions so upsetting that he immediately resigned his executorship. Ebenezer's death brought a premature conclusion to a colorfully chaotic life, lived on the fringes of various interwoven esoteric subcultures. Drawing on such sources as ratebooks and pollbooks, personal letters and published sermons, burial registers and horoscopes, Susan Mitchell Sommers has woven together an engaging microhistory that offers useful revisions to scholarly accounts of Ebenezer and Manoah, while placing the entire Sibby family firmly in the esoteric byways of the eighteenth and early nineteenth centuries.

The Siblys of London provides fascinating insight into the lives of a family who lived just outside our usual historical range of vision.
