*Print Culture and the Formation of the Anarchist Movement in Spain, 1890-1915* James Michael Yeoman, 2019-10-02 This book analyzes the formation of a mass anarchist movement in Spain over the turn of the twentieth century. In this period, the movement was transformed from a dislocated collection of groups and individuals into the largest organized body of anarchists in world history: the anarcho-syndicalist National Confederation of Labour (Confederación Nacional del Trabajo: CNT). At the same time, anarchist cultural practices became ingrained in localities across the whole of Spain, laying foundations which maintained the movement's popular support until the end of the Spanish Civil War in 1939. The book shows that grassroots print culture was central to these developments: driving the development of ideology and strategy – broadly defined as terrorism, education and workplace organization – and providing an informal structure to a movement which shunned recognized leadership and bureaucracy. This study offers a rich analysis of the cultural foundations of Spanish anarchism. This emphasis also challenges claims that the movement was exceptional or peculiar in its formation, by situating it alongside other decentralized, bottom-up mobilizations across historical and contemporary contexts, from the radical pamphleteering culture of the English Civil War to the use of social media in the Arab Spring.

**Haunted Massachusetts** Cheri Revai, Cheri Farnsworth, 2005 - More than 60 chilling stories - Covers all regions of the state A fun look at unexplained phenomena in Massachusetts, including the wandering spirit of lost child Lucy Keyes, the monkey-like Dover Demon, the ghost that leaves tips at Stone's Public Tavern, hauntings in Lizzie Borden's house, the Black Flash phantom in Provincetown, and many more.

*The War in Words* Kathryn Zabelle Derounian-Stodola, 2009-05-01 The War in Words is the first book to study the captivity and confinement narratives generated by a single

American war as it traces the development and variety of the captivity narrative genre. Kathryn Zabelle Derounian-Stodola examines the complex 1862 Dakota Conflict (also called the Dakota War) by focusing on twenty-four of the dozens of narratives that European Americans and Native Americans wrote about it. This six-week war was the deadliest confrontation between whites and Dakotas in Minnesota's history. Conducted at the same time as the Civil War, it is sometimes called Minnesota's Civil War because it was and continues to be so divisive. The Dakota Conflict aroused impassioned prose from participants and commentators as they disputed causes, events, identity, ethnicity, memory, and the all-important matter of the war's legacy. Though the study targets one region, its ramifications reach far beyond Minnesota in its attention to war and memory. An ethnography of representative Dakota Conflict narratives and an analysis of the war's historiography, *The War in Words* includes new archival information, historical data, and textual criticism.

*This Is Our Home* Whitney Nell Stewart, 2023-11-06 The cultural memory of plantations in the Old South has long been clouded by myth. A recent reckoning with the centrality of slavery to the US national story, however, has shifted the meaning of these sites. Plantations are no longer simply seen as places of beauty and grandiose hospitality; their reality as spaces of enslavement, exploitation, and violence is increasingly at the

forefront of our scholarly and public narratives. Yet even this reckoning obscures what these sites meant to so many forced to live and labor on them: plantations were Black homes as much as white. Insightfully reading the built environment of plantations, considering artifact fragments found in excavations of slave dwellings, and drawing on legal records and plantation owners' papers, Whitney Nell Stewart illuminates how enslaved people struggled to make home amid innumerable constraints and obstacles imposed by white southerners. By exploring the material remnants of the past, Stewart demonstrates how homemaking was a crucial part of the battle over slavery and freedom, a fight that continues today in consequential confrontations over who has the right to call this nation home.

**Envisioning Black Colleges** Marybeth Gasman, 2007-06-29  
The multifaceted story of the UNCF. Winner, Outstanding Publication Award, American Educational Research Association  
Etched into America's consciousness is the United Negro College Fund's phrase A mind is a terrible thing to waste. This book tells the story of the organization's efforts on behalf of black colleges against the backdrop of the cold war and the civil rights movement. Founded during the post-World War II period as a successor to white philanthropic efforts, the UNCF nevertheless retained vestiges of outside control. In its early years, the organization was restrained in its critique of segregation and reluctant to lodge a challenge against institutional and cultural racism. Through cogent analysis of written and oral histories, archival documents, and the group's outreach and advertising campaigns, historian Marybeth Gasman examines the UNCF's struggle to create an identity apart from white benefactors and to evolve into a vehicle for black empowerment. The first history of the UNCF, *Envisioning Black Colleges* draws attention to the significance of black colleges in higher education and the role they played in Americans' struggle for equality.

Eco-Urbanism and the South East Asian City Shireen Jahn Kassim, Noor Hanita Abdul Majid, Dzulkifli Abdul Razak, 2023-04-13 This book traces the history of urban design in tropical South East Asia with a view to offering solutions to contemporary architectural and urban problems. The book examines how pre-colonial forms and patterns from South East Asian traditional cities, overlaid by centuries of change, recall present notions of ecological and organic urbanism. These may look disorganised, yet they reflect and suggest certain common patterns that inform eco-urban design paradigms for the development of future cities. Taking a thematic approach, the book examines how such historical findings, debates and discussions can assist designers and policy makers to interpret and then instil identities in urban design across the Asian region. The book weaves a discourse across planning, urban design, architecture and ornamentation dimensions to reconstruct forgotten forms that align with the climate of place and resynchronise with the natural world, unearthing an ecologically benign urbanism that can inform the future. Written in an accessible style, this book will be an invaluable reference for researchers and students within the fields of cultural geography, urban studies and architecture.

Wrestling the Angel Terryl L. Givens, 2014-10-03 In this first volume of his magisterial study of the foundations of Mormon thought and practice, Terryl L. Givens offers a sweeping account of Mormon belief from its founding to the present day. Situating the relatively new movement in the context of the Christian tradition, he reveals that Mormonism continues to change and grow. Givens shows that despite Mormonism's origins in a biblical culture strongly influenced by nineteenth-century Restorationist thought, which advocated a return to the Christianity of the early Church, the new movement diverges radically from the Christianity of the

creeds. Mormonism proposes its own cosmology and metaphysics, in which human identity is rooted in a premortal world as eternal as God. Mormons view mortal life as an enlightening ascent rather than a catastrophic fall, and reject traditional Christian concepts of human depravity and destiny. Popular fascination with Mormonism's social innovations, such as polygamy and communalism, and its supernatural and esoteric elements-angels, gold plates, seer stones, a New World Garden of Eden, and sacred undergarments-have long overshadowed the fact that it is the most enduring and even thriving product of the nineteenth century's religious upheavals and innovations. *Wrestling the Angel* traces the essential contours of Mormon thought from the time of Joseph Smith and Brigham Young to the contemporary LDS church, illuminating both the seminal influence of the founding generation of Mormon thinkers and the significant developments in the church over almost 200 years. The most comprehensive account of the development of Mormon thought ever written, *Wrestling the Angel* will be essential reading for anyone seeking to understand the Mormon faith.

**Forbidden Fruit** Betty DeRamus, 2005-02

*Forbidden Fruit* is a collection of fascinating, largely untold stories of ordinary men and women who took extraordinary measures, risking life and limb to be together. It's the story of couples who faced mobs, bloodhounds, bounty hunters, and bullets to defy the system that allowed slave masters to breed and sell people like cattle. Some broke the taboo against interracial marriage, putting their lives in

the most severe peril. In one remarkable story, a Georgia couple who fled slavery wearing multiple disguises sailed for England with bounty hunters and federal troops on their trail. A fugitive slave from Virginia spent seventeen arduous years searching for his wife. A Missouri slave fell in love with his white Mormon neighbor and escaped to Canada to be with her, putting pepper in his shoes to throw dogs off the scent at night and hiding in trees by day. Betty DeRamus gleaned these amazing stories from descendants of runaway slave couples, unpublished memoirs, Civil War records, books, magazines, and dozens of previously untapped sources. Beautifully and compassionately written, this important book reveals a chapter of American history that is shameful but is about triumph as well as torture, achievement as well as degradation, and indomitable love as well as hate.

**Historical Dictionary of the Fashion Industry** Francesca Sterlacci, Joanne Arbuckle, 2007-11-19 The Historical Dictionary of the Fashion Industry examines the origins and history of this billion-dollar industry. This is done through a list of acronyms and abbreviations, a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced entries on designers, models, couture houses, significant articles of apparel and fabrics, trade unions, and the international trade organizations.

**Graphics of Large Datasets** Antony Unwin, Martin Theus, Heike Hofmann, 2007-06-12 This book shows how to look at ways of visualizing large datasets, whether large in numbers of cases, or large in numbers of variables, or large in both. All ideas are illustrated with displays from analyses of real datasets and the importance of interpreting displays effectively is emphasized. Graphics should be drawn to convey information and the book includes many insightful examples. New approaches to graphics are needed to visualize the information in large datasets and most of the innovations described in this book are developments of standard graphics. The book is accessible to readers with some experience of drawing statistical graphics.

**Making Modern Florida** Adkins, Mary E, 2016-07-12 Mid-twentieth-century Florida was a state in flux. Changes exemplified by rapidly burgeoning cities and suburbs, the growth of the Kennedy Space Center during the space race, and the impending construction of Walt Disney World overwhelmed the outdated 1885 constitution. A small group of rural legislators known as the Pork Chop Gang controlled the state and thwarted several attempts to modernize the constitution. Through court-imposed redistribution of legislators and the hard work of state leaders, however, the executive branch was reorganized and the constitution was modernized. In *Making Modern Florida*, Mary Adkins goes behind the scenes to examine the history and impact of the 1966-68 revision of the Florida state constitution. With storytelling flair, Adkins uses interviews and detailed analysis of speeches and transcripts to vividly capture the moves, gambits, and backroom moments necessary to create and introduce a new state constitution. This carefully researched account brings to light the constitutional debates and political processes in the growth to maturity of what is now the nation's third largest state.

**The Chinese Sisters of the Precious Blood and the Evolution of the Catholic Church** Cindy Yik-yi Chu, 2016-11-09 This book traces the origins of the Chinese Sisters of the Precious Blood in Hong Kong and their history up to the early 1970s, and contributes to the neglected area of Chinese Catholic women in the history of the Chinese Catholic Church. It studies the growth of an indigenous community of Chinese sisters, who acquired a formal status in the local and universal Catholic Church, and the challenge of identifying Chinese Catholic women in studies dealing with the Chinese Church in the first half of the twentieth century, as these women remained faceless and nameless in contrast to their Catholic male counterparts of the period. Emphasizing the

intertwining histories of the Hong Kong Church, the churches in China, and the Roman Catholic Church, it demonstrates how the history of the Precious Blood Congregation throws light on the formation and development of indigenous groups of sisters in contemporary China.
