Adolph Sutro William R. Huber,2020-03-30 Adolph Sutro was forever seeking challenges. Emigrating from Prussia to the U.S. at age 20, the California gold rush lured him west. At the Comstock Lode in Nevada, he conceived an idea for a tunnel to drain the hot water that made the mines perilous and inefficient. But he would have to overcome both physical obstacles and powerful opposition by the Bank of California to realize his vision. Back in San Francisco, Sutro bought one twelfth of the city, including the famous Cliff House perched over the Pacific Ocean. When it burned to cinders on Christmas Day, 1894, he built a massive, eight-story Victorian replacement. He used his expertise in tunneling and water solutions to create the world's largest enclosed swimming structure, the Sutro Baths--six glass-covered heated saltwater pools with capacity of 1,000 swimmers. Other challenges followed but Sutro was not invincible. After a two-year term as mayor of San Francisco, he succumbed to debilitating strokes which left him senile. His death in 1898 started disputes among his heirs--six children by his wife and two by his mistress--that lasted more than a decade.

United States Presidential Elections ,

Emma Darwin James D. Loy,Kent M. Loy,2010-09-19 In 1808, Josiah Wedgwood II, owner and general manager of the famous pottery and china manufactory that bore his name, welcomed an eighth child into his large, vibrant family. This daughter, Emma, had a relatively happy childhood and grew up intelligent, educated, and religious. A talented sportswoman and an accomplished pianist, she married her cousin Charles Darwin at the age of thirty, bore ten children in their forty-three years together, and patiently nursed her famous husband through mysterious and chronic illnesses. Informed by her strong Christian faith as well as her quick, inquiring mind, Emma learned to coexist with her husband's radical scientific theories, though she worried about the fate of Charles's soul. Although the high spirits of her youth were somewhat dampened by the cares of life, she managed family and household affairs--including the difficult circumstances surrounding the death of three children--with courage, gravity, and a sense of humor. In this charming volume, the wife, companion, and confidante of the father of evolution comes into full focus. Drawing upon Emma's personal correspondence as well as the abundant literature about her husband, authors James Loy and Kent Loy reveal the fascinating story of an exceptional woman who remained true to herself despite hardship and who, in the process, humanized her work-obsessed husband and held her family together.

The Prison of Democracy Sara M. Benson,2019-04-16 At publication date, a free ebook version of this title will be available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. Built in the 1890s at the center of the nation, Leavenworth Federal Penitentiary was designed specifically to be a replica of the US Capitol Building. But why? The Prison of Democracy explains the political significance of a prison built to mimic one of America's monuments to democracy. Locating Leavenworth in memory, history, and law, the prison geographically sits at the borders of Indian Territory (1825–1854) and Bleeding Kansas (1854–1864), both sites of contestation over slavery and freedom. Author Sara M.

Benson argues that Leavenworth reshaped the design of punishment in America by gradually normalizing state-inflicted violence against citizens. Leavenworth's peculiar architecture illustrates the real roots of mass incarceration—as an explicitly race- and nation-building system that has been ingrained in the very fabric of US history rather than as part of a recent post-war racial history. The book sheds light on the truth of the painful relationship between the carceral state and democracy in the US—a relationship that thrives to this day.

Contemporary Western White John White, 2019-05-03 The September 11th attacks in 2001 and the subsequent 'War on Terror' have had a profound effect on American cinema, and the contemporary Western is no exception. In this book, John White explores how films such as *Open Range*, *True Grit* and *Jane Got a Gun* reinforce a conservative myth of America exceptionalism; endorsing the use of extreme force in dealing with enemies and highlighting the importance of defending the homeland. Placing their characters within a dark world of confusion and horror, these films reflect the United States' post-9/11 uncertainties, and the conflict between civilised values and the brutality employed to defend them.

Frontiers of WWW Research and Development -- APWeb 2006 Xiaofang Zhou, Jianzhong Li, Heng Tao Shen, Masaru Kitsuregawa, Yanchun Zhang, 2006-01-09 This book constitutes the refereed proceedings of the 8th Asia-Pacific Web Conference, APWeb 2006. More than 100 papers cover all current issues on WWW-related technologies and new advanced applications for researchers and practitioners from both academic and industry.

The Coen Brothers' America M. Keith Booker, 2019-05-24 From *Blood Simple* and *Raising Arizona* to *Inside Llewyn Davis* and *Hail, Caesar!*, the films of Joel and Ethan Coen represent a sort of alternate reality of America. The author explores how the settings—geographical, cultural, and historical—of their films provide viewers with slightly skewed, though no less true, perspectives of life American life.

Telecommunications Law and Regulation Ian Walden, 2012-09-13 Since the last edition of the book was published, there have been a number of important developments in the telecommunications industry. *Telecommunications Law and Regulation* takes these changes into account, including an examination of the EU New Regulatory Framework, as well as the establishment of the Body of European Regulators for Electronic Communications (BEREC). There are also new chapters on spectrum management (radio frequencies), and consumer protection rules. The access and interconnection chapter addresses the issues surrounding the high capacity broadband widely provided by Next Generation Networks. The chapter on licensing and authorisation has been refocused to reflect the increasing regulatory focus on the mobile sector. The chapter on regulating content has also been significantly restructured and revised to reflect the changes in how we consume content. Written by leading experts, it is essential reading for legal practitioners and academics involved in the telecommunications industry.

Terrorist Rehabilitation Ami Angell, Rohan Gunaratna, 2011-07-12 Because terrorists are made, not born, it is critically important to world peace that detainees and inmates influenced by violent ideology are deradicalized and rehabilitated back into society. Exploring the challenges in this formidable endeavor, *Terrorist Rehabilitation: The U.S. Experience in Iraq* demonstrates through the actual experiences of m

Governance and Policy in Sport Organizations Mary A. Hums,Joanne C. MacLean,2017-05-11 The third edition of *Governance and Policy in Sport Organizations* introduces readers to the power and politics of sport organizations. It explores the managerial activities essential to governance and policy development, and it looks at the structure and function of organizations like those with which readers will interact in the workplace. It also demonstrates where the power lies in an organization or industry segment and how individual sport organizations fit in to the greater industry. Current policy issues and the ethical questions they raise are also addressed. Real-world case studies demonstrate the types of dilemmas that sport managers face every day. In addition, professional administrators from a wide variety of sport organizations contribute their perspectives, giving readers a glimpse into the real concerns of sport professionals and the impact of governance and policy on their jobs. The book's practical foundations, readability, and logical organization all help readers to understand the big picture of the sport industry and their place in it as future sport managers. New to the third edition is a chapter on individual professional sport, which explores how this industry segment differs from professional sport leagues. In addition, contributions from Thierry Zintz, from the Universite catholique de Louvain, offer insights

into European sport organizations.

The Class Action in Common Law Legal Systems Rachael Mulheron, 2004-11-15 Multi-party litigation is a world-wide legal process, and the class action device is one of its best-known manifestations. As a means of providing access to justice and achieving judicial economies, the class action is gaining increasing endorsement - particularly given the prevalence of mass consumerism of goods and services, and the extent to which the activities and decisions of corporations and government bodies can affect large numbers of people. The primary purpose of this book is to compare and contrast the class action models that apply under the federal regimes of Australia and the United States and the provincial regimes of Ontario and British Columbia in Canada. While the United States model is the most longstanding, there have now been sufficient judicial determinations under each of the studied jurisdictions to provide a constructive basis for comparison. In the context of the drafting and application of a workable class action framework, it is apparent that similar problems have been confronted across these jurisdictions, which in turn promotes a search for assistance in the experience and legal analysis of others. The book is presented in three Parts. The first Part deals with the class action concept and its alternatives, and also discusses and critiques the stance of England where the introduction of the opt-out class action model has been opposed. The second Part focuses upon the various criteria and factors governing commencement of a class action (encompassing matters such as commonality, superiority, suitability, and the class representative). Part 3 examines matters pertaining to conduct of the action itself (such as becoming a class member, notice requirements, settlement, judgments, and costs and fees). The book is written to have practical utility for a wide range of legal practitioners and professionals, such as: academics and students of comparative civil procedure and multi-party litigation; litigation lawyers who may use the reference materials cited to the benefit of their own class action clients; and those charged with law reform who look to adopt the most workable (and avoid the unworkable) features in class action models elsewhere.

Colonizing Russia's Promised Land Aileen E. Friesen, 2020 Colonizing Russia's Promised Land: Orthodoxy and Community on the Siberian Steppe, examines how Russian Orthodoxy acted as a basic building block for constructing Russian settler communities in current-day southern Siberia and northern Kazakhstan.

Tracing Your Potteries Ancestors Michael Sharpe, 2019-03-30 An easy-to-use reference for those looking to trace English ancestry connected to the North Staffordshire pottery industry. Tracing Your Potteries Ancestors introduces readers to the wealth of information available to those wishing to trace their North Staffordshire roots. Michael Sharpe gives a fascinating insight into the history of this part of the Midlands, which was for so long dominated by the pottery industry. The six pottery towns—Tunstall, Burslem, Hanley, Stoke, Fenton, and Longton—are at the heart of the story. His handbook is an essential guide for anyone researching the life of an individual or family connected with the area, bringing together all the relevant local and national archives for the first time. In a series of short, information-packed chapters, it describes the lives and experiences of ordinary people in this most extraordinary of landscapes. It charts the transition of the Six Towns from scattered

farming communities to a thriving industrial conurbation. The living conditions of the urban poor, health and welfare, the influence of religion and migration, education, leisure pursuits, and the traumatic experience of war are all explored, and the many different archives and sources that are open to family history researchers are explained. "Impressively researched, expertly written, deftly organized and presented, *Tracing Your Potteries Ancestors: A Guide for Family & Local Historians* is an extraordinarily informative and thoroughly reader-friendly resource." –Midwest Book Review

Africa United Nations Environment Programme, 2008 This stunning 400-page Atlas is a unique and powerful publication which brings to light stories of environmental change at more than 100 locations spread across every country in Africa. There are more than 300 satellite images, 300 ground photographs and 150 maps, along with informative graphs and charts that give a vivid visual portrayal of Africa and its changing environment that provide scientific evidence of the impact that natural and human activities have had on the continent's environment over the past several decades. The observations and measurements of environmental change help gauge the extent of progress made by African countries towards reaching the United Nation's Millennium Development Goals. More importantly, this book contributes to the knowledge and understanding that are essential for adaptation and remediation, and should be of immense value to all those who want to know more about Africa and who care about the future of this continent.

William McKinley versus William Jennings Bryan John M. Pafford, 2020-08-19 The clashes between William McKinley and William Jennings Bryan during the 1896 and 1900 presidential elections changed the course of American politics. Prior to Bryan's candidacy, the Democratic Party was slightly more conservative than the Republican Party. At the 1896 Democratic National Convention, Bryan's dramatic Cross of Gold speech stampeded the delegates left-of-center--a position the party has traditionally held since. Most Americans, though, rejected this new wave, remained conservative and twice elected McKinley. These were dramatic years for the country as it continued its rise to become a major world economic and military power. Significantly, freedom increased for those now within the American orbit.

Colorado and the Silver Crash: The Panic of 1893 John F. Steinle, 2021 A catastrophic depression engulfed Colorado in 1893. The government's decision to adopt the gold standard and stop buying silver hit the mining industry like a cave-in. Unemployment reached 90 percent in Leadville, a city built on silver. Strikes by union miners in Cripple Creek and Leadville led to destruction and death. Political parties split along battle lines of gold versus silver. By 1898, the country had begun to recover, but silver mining was never the same. Using firsthand commentary and more than one hundred historic photographs, John Steinle skillfully commemorates the story of Coloradans trapped in the unprecedented social, economic and political conflict of America's first great depression.

web a groundbreaking work of history
that explicates thomas jefferson s
vision of himself the american
revolution christianity slavery and
race thomas jefferson is often
portrayed as a hopelessly enigmatic
figure a riddle a man so riven with
contradictions that he is almost
impossible to know lauded as the
most articulate voice of american
freedom
