Joseph Brown and His Civil War Ironclads Myron J. Smith, Jr.,2017-05-02 A Scottish immigrant to Illinois, Joseph Brown made his pre-Civil War fortune as a miller and steamboat captain who dabbled in riverboat design and the politics of small towns. When war erupted, he used his connections (including a friendship with Abraham Lincoln) to obtain contracts to build three ironclad gunboats for the U.S. War Department--the Chillicothe, Indianola and Tuscumbia. Often described as failures, these vessels were active in some of the most ferocious river fighting of the 1863 Vicksburg campaign. After the war, Captain Joe became a railroad executive and was elected mayor of St. Louis. This book covers his life and career, as well as the construction and operational histories of his controversial trio of warships.

Process Mapping and Management Sue Conger,2011-06-13 This book provides a blueprint of how to develop a discipline for process management that applies to any type of orientation. As the economy moves toward a services orientation, companies are struggling with how to improve their offerings. Process management is a key component of the services that companies provide, and author Sue Conger has written a helpful tool to learn more of this key component now helping companies around the world. This book has three main parts: mapping, improvement, and error-proofing and metrics. In the first part--mapping--the reader will learn how to map a process so that the map is immediately understandable for identifying the roles, work steps, and automation support used in process delivery. The second part improvement--provides a series of techniques for defining, prioritizing, and analyzing problems from several perspectives. The first perspective is called "leaning," and its purpose is to remove waste from an existing process. The second perspective is "cleaning," during which the remaining steps following leaning are analyzed for possible improvement. The third perspective is "greening," which explores opportunities and trade-offs for outsourcing, coproduction, and environmental improvements related to the process. The final part of the book--error-proofing and metrics--presents several techniques for ensuring risk mitigation for the new process and for measuring changes that define their impacts and discusses a method for proposing changes to executives in a "case for change." And throughout this book, Conger provides a blueprint of how to develop a discipline for process management that applies to any type of orientation.

Still Shining Diane Rademacher,2003 A description of lost building from the 1904 World's Fair. The bulk of the book is descriptions and pictures.

Right Radicalism in Party and Political Systems in Present-day European States Natalia Eremina,Sergei Seredenko,2015-06-18 This book explores a broad range of concepts of, and approaches to, far-right parties and ultranationalist ideology, and studies the legal and political discourses within which they are often embedded. Offering detailed insights into the nature of the far-right and its viewpoints, the book provides a multidimensional study of the evolution of the far-right and its impact on the contemporary European political and party system, society and state. In addition, a clear definition of the substantial amount of criminal far-right parties in the Annex of the book dispels the illusion that far-right ultranationalist groups do not represent a danger for both society and state. This book has several unique aspects, particularly its use of catalogues that allow for the researching of far-right parties and ideology according to concrete definitions.

The Economics of Medicaid Jason J. Fichtner,2014-03-24 Medicaid, originally considered an afterthought to Medicare, is today the largest health insurance provider in the United States. Under the Affordable Care Act, the Congressional Budget Office projects Medicaid enrollment to increase nearly 30 percent by 2024 and federal spending on the program to double over the next decade. For the states, Medicaid is already the largest single budget item, and its rapid growth threatens to further crowd out other spending priorities. In this collection of essays published by the Mercatus Center at George Mason University, nine experts discuss the escalating costs and consequences of a program that provides second-class health care at first-class costs. The authors begin with an explanation of Medicaid's complex state-federal funding structure. Next, they examine how the system's conflicting incentives discourage both cost savings and efficient care. The final chapters address the pros and cons of the most mainstream Medicaid reform proposals and offer alternative solutions. This book offers a timely assessment of how Medicaid works, its most problematic components, and how--or if--its current structure can be adequately reformed to provide quality care for those in need at sustainable costs. Contributors include: Joseph Antos, American Enterprise Institute Charles Blahous, Mercatus Center at George Mason University Darcy Nikol Bryan, MD, practicing physician James C. Capretta, Ethics and Public Policy Center Robert F. Graboyes, Mercatus Center at George Mason University June O'Neill, Baruch College, CUNY Nina Owcharenko, Heritage Foundation Thomas Miller, American Enterprise Institute

Daisaku Ikeda's Philosophy of Peace Olivier Urbain,2010-03-30 Who is Daisaku Ikeda? At one level, he is the leader of a religious movement - Soka Gakkai - which began in Japan, where it still has its headquarters, but which now claims 12 million adherents around the world. At another level, he is a globetrotting figure whose formal conversations with diverse writers, thinkers and diplomats - including Arnold Toynbee, Joseph Rotblat and Mikhail Gorbachev - have garnered him an international profile, as well as academic recognition. Perhaps above all else, Daisaku Ikeda is viewed as a campaigner for peace. And it is Ikeda's specific contribution to peacebuilding, notably through the central emphasis he has placed on the significance of dialogue, that this book explores: the first to do so in a concerted way. Olivier Urbain shows that while Soka Gakkai (the 'value society') may stem from the medieval principles of Nichiren Buddhism, under Ikeda's leadership it has taken these classic wisdoms and transformed them. Now essentially classless and secularised, as well as adaptable and sensitive to modern challenges like resource shortages and climate change, this - argues the author - is a pragmatic approach to peace which has proved both popular and eminently transportable.

Philosophy on the Border Robin May Schott,Kirsten Klercke,2007 This anthology is inspired by the conviction that the big questions of human existence, including matters of love and hate, responsibility and war, matter to us both as individuals and as citizens of a global order. Hence, these questions ought to matter to

philosophers as well. In exploring these questions, the authors follow the ethical turn in philosophy, which transgresses the boundaries between philosophical thought and empirical existence, as well as between philosophy and other disciplines. The central themes of the anthology focus on the relation between self and other, between ambiguity and ambivalence, and between the problem of evil and responses to it. The authors discuss these themes in relation to concrete issues in the present, including colonialism, immigration and national policies towards refugees, the Palestinian-Israeli conflict, genocide, and mass rape. The contributors to this anthology, who come from a variety of national backgrounds, work in the fields of philosophy, psychology, and Holocaust studies.

Apartheid in Palestine Ghada Ageel, 2016-02-12 "Of all the crimes to which Palestinians have been subjected through a century of bitter tragedy, perhaps none are more cruel than the silencing of their voices. The suffering has been most extreme, criminal, and grotesque in Gaza, where Ghada Ageel was one of the victims from childhood. This collection of essays is a poignant cry for justice, far too long delayed." –Noam Chomsky There are more than two sides to the conflict between Palestine and Israel. There are millions. Millions of lives, voices, and stories behind the enduring struggle in Israel and Palestine. Yet, the easy binary of Palestine vs. Israel on which the media so often relies for context effectively silences the lived experiences of people affected by the strife. Ghada Ageel sought leading experts—Palestinian and Israeli, academic and activist—to gather stories that humanize the historic processes of occupation, displacement, colonization, and, most controversially, apartheid. Historians, scholars and students of colonialism and Israel-Palestine studies, and anyone interested in more nuanced debate, will want to read this book. Contributors: Yasmeen Abu-Laban, Ghada Ageel, Huwaida Arraf, Abigail B. Bakan, Ramzy Baroud, Samar El-Bekai, James Cairns, Edward C. Corrigan, Susan Ferguson, Keith Hammond, Rela Mazali, Sherene Razack, Tali Shapiro, Reem Skeik, Rafeef Ziadah.

Israel, Palestine and the Politics of Race Yasmeen Abu-Laban, Abigail B. Bakan, 2019-10-31 As the situation in Israel/Palestine seems to become ever more intractable and protracted, the need for new ways of looking at recent developments and their historical roots is more pressing than ever. Bearing this in mind, Yasmeen Abu-Laban and Abigail B. Bakan discuss the historic and contemporary dynamics in Israel/Palestine, and their international reverberations, from the unique vantage point of 'race', racialization, racism and anti-racism. They therefore offer close analysis of the 'idea' of Israel and the 'absence' of Palestine by examining the concepts of race and identity in the region. With fresh coverage of themes relating to gender, Idigeneity, the environment, surveillance and the war on terror, Israel, Palestine and the Politics of Race will appeal to scholars in political science, sociology and Middle East studies.

Pain and Purpose in the Pacific Richard Carl Bright, 2014-01-24 What follows here, just a brief insight into Pain and Purpose in the Pacific. This book did not begin with the idea of a chronology of the battles of the Pacific War, although an overview is included. But instead it was intended to be a brief account of the battles on Saipan, Tinian, and Okinawa as I retrace the travels of one Marine from the farmland of Minnesota to Japan and back. Carl J. Johnson spent 30 months in the Pacific. Four of those months were in bitter combat on the islands of Saipan, Tinian, and Okinawa. He is my uncle. I have been blessed to travel, & to spend time at many of the places he traveled during World War II. My travels didn't stop there. As a Continental Airlines pilot based in Guam, now retired and having lived on Saipan, I have had the opportunity over a seven year period to visit other islands that were the scene of horrific battles of World War II. In addition to Saipan, Tinian, and Okinawa, I will mention a few of them. Included are Guam where I was based during the closing years of my airline career; also Belau, which is Palau, and includes Peleliu. Included too in this book are Iwo Jima, Corregidor and the Philippines. In my travels beyond Hawaii and Pearl Harbor, which was my introduction into the Pacific, were Yap, and Truk, which is Chuuk, and Pohnpei in the Carolines. And I've spent time in Japan. During my time in the Pacific, I have been presented with the opportunity to speak with several of the veterans of the Pacific War. Doing so has in some cases allowed me in some small way to understand a sense of the hell they had to suffer through. Included in this report are a few of their stories, as well as stories from some of the people of the islands who in one way or another were involved in the conflict. It is with a depth of gratitude that I acknowledge the Military Historical Tours of Alexandria, Virginia for allowing me to be a part of their tours to the islands of Iwo Jima, and Okinawa, as well as Guam, Tinian and Saipan. I appreciate this organization, dedicated to preserving the memories of the war, and to the honoring of the military personnel who were there at the time. While living on either Guam or Saipan I also was able to visit on my own most of the islands mentioned on this page. But it was the Military Historical Tours, and its President USMC Colonel Warren Wiedhahn (mht@miltours.com) that made it possible for me to visit Iwo Jima. They allowed me to join them once a year for 4 consecutive years. I have since returned a 5th time in March of 2010. It was through this great organization that over a 7 year period (while living on both Guam and Saipan in the Marianas Islands), I was able to meet most of the WWII veterans mentioned here; and these aging veterans of the War in the Pacific whom I have met, have touched my heart. In addition to my uncle, this book is for them too.

American Indian Business Deanna M. Kennedy, Charles F. Harrington, Amy Klemm Verbos, Daniel Stewart, Joseph Scott Gladstone, Gavin Clarkson, 2017-09-26 American Indian business is booming. The number of American Indian- and Alaska Native-owned businesses increased by 15.3 percent from 2007 to 2012—a time when the total number of US businesses increased by just 2 percent—and receipts grew from \$34.4 million in 2002 to \$8.8 billion in 2012. Despite this impressive growth, there is an absence of small businesses on reservations, and Native Americans own private businesses at the lowest rate per capita for any ethnic or racial group in the United States. Many Indigenous entrepreneurs face unique cultural and practical challenges in starting, locating, and operating a business, from a perceived lack of a culture of entrepreneurship and a suspicion of capitalism to the difficulty of borrowing start-up funds when real estate is held in trust and cannot be used as collateral. This book provides an accessible introduction to American Indian businesses, business practices, and business education. Its chapters cover the history of American Indian business from early trading posts to today's casino boom; economic sustainability, self-determination, and sovereignty; organization and management; marketing; leadership; human resource management; tribal finance; business strategy and positioning; American Indian business law; tribal gaming operations; the importance of economic development and the challenges of economic leakage; entrepreneurship; technology and data management; business ethics; service management; taxation; accounting; and health-care management. American Indian Business also furthers the inclusion of Indigenous perspectives in the study of American business practices in general and demonstrates the significant impact that American Indians have had on business, as well as their cultural contributions to management, leadership, marketing, economic development, and entrepreneurship.

How to Find Out About Literature G. Chandler, 2014-05-09 How to Find Out About Literature aims to provide a general survey of literatures and a general indication of the dates of these literatures. The book first elaborates on how to study and appreciate literature and how to trace literary works, including exercises and universal and national bibliographies. The text then examines how to trace poetry, drama, novels, and prose, foreign and subject bibliographies, library and sale catalogues, and guides to libraries, and literary information on general reference books and encyclopedias. The manuscript discusses how to trace literary information in handbooks and concordances to poetry and drama, handbooks and reference books on novelists and prose writers, dictionaries and guides to the English language and specialized subjects, essays, theses, and periodical articles. The text ponders on how to trace periodical articles and literary abstracts. The book is a valuable reference for students and researchers in their studies.

Women's Journey to Empowerment in the 21st Century Kristen Zaleski, Annalisa Enrile, Eugenia L. Weiss, Xiyang Wang, 2019-10-03 Women's Journey to Empowerment in the 21st Century offers a global view into the patriarchal attitudes that shape cultural practices that oppress women and continue to take form in the modern era. In closely examining a range of issues--from the college campus rape epidemic in the United States to the climate change effects in Ghana--this book compels readers to utilize a contextual framework in order to take a closer look into contemporary violence and oppression against women in our world. Written through the lens of transnational feminism, it examines the intersections of nationhood, race, gender, sexuality, and economics within the context of a world shaped by globalization and colonialism, causing the redefinition of borders and the realignment of migration patterns. A transnational feminist perspective also supports a definition of global sisterhood based on equity, understanding, and mutual experiences. Students focusing on social justice, social work, women's studies, feminist theory, and/or violence against women will find the book to be an invaluable resource.
