The 1966 Green Bay Packers George Bozeka, 2016-06-21 The 1966 Green Bay Packers were one of the greatest teams in professional football history. Led by legendary head coach Vince Lombardi and 10 future Hall of Famers--including Bart Starr, Jim Taylor, Forrest Gregg, Willie Davis and Ray Nitschke--they were the decisive winners of Super Bowl I, defeating the Kansas City Chiefs and upholding the superiority of the National Football League over the upstart American Football League. This book tells the story of the hard-working '66 Packers on the gridiron and their legacy in Tittletown, USA.

Between Republic and Market Sarah Waters, 2012-07-12 The rise of neo-liberal globalisation has posed major challenges for all European countries, identifying itself as the key political tension of the coming era. Yet, it is in France that globalisation has produced the deepest tensions, and it is here that it has generated its greatest political resistance. The author pursues two separate lines of enquiry. First, she considers the influence of French political tradition and an enduring legacy of republicanism in shaping contemporary opposition. If globalisation poses a greater ideological threat in France than elsewhere, this is because it comes into conflict with the foundational values and symbols of the French Republic. Secondly, she examines contemporary French opposition as a site for political and ideological renewal. Many critics now agree that it is within this emergent movement, rather than within traditional parties, that new forms of political practice and ideology are being invented.

The 1951 Los Angeles Rams George Bozeka, 2022-04-25 The 1951 Los Angeles Rams were one of the greatest teams in professional football history. Led by pioneer owner Daniel Reeves, head coach Joe Stydahar, and future Hall of Famers Bob Waterfield, Norm Van Brocklin, Elroy Hirsch, Tom Fears, and Andy Robustelli, the team won the NFL championship of that season. The Armchair Diplomat on Europe Melissa Rossi, 2005-08-04 It happens all the time: you're watching the Champion's League, pondering Robert Kilroy Silk's unnatural glow, reading the latest newspaper debate about EU bendy banana laws, and thinking: what's really going on in Europe? Does anyone actually know what they're talking about? And where are Riga and Vilnius anyway? You needn't worry any more. With this armchair guide you'll discover the strange and fascinating world that calls itself Europe - without ever having to leave your own home. There are insights into culture (how to join the Finns beating themselves with birch twigs in the sauna); the lowdown on the people that matter (porn stars turned politicians in Italy); fascinating facts and explanations of historical rifts (and you thought the relationship between Britain and France was bad). You'll find out how to talk like Berlusconi, unravel the workings of the EU and guide yourself from the Baltics to Belgium, Portugal to Poland. *The Armchair Diplomat: Europe* offers the basics of euro-education for very little pain. Perfect for slackers with a passion for travel.

China and Africa in Global Context LI Anshan, 2022-02-24 This title studies the relationship between China and Africa by reviewing this history and current state of interactions, offering a valuable addition to the often heated and contentious debate surrounding China's engagement in Africa from a Chinese angle. Comprised of four parts, the book covers a kaleidoscopic range of topics on Sino-Africa relations based on materials from different languages. The first part looks into early historical contact between China and Africa and historiography of African Studies in China in recent decades. Part Two contains a broad probe into the origin, dynamics, challenges and cultural heritage of China's policies towards Africa. The third part explores the issue of development cooperation from both the theoretical and practical point of view, with a focus on the case of Chinese medical teams in Africa and China's technology transfer to the continent. The final part illustrates bilateral migration, discussing the history and life of Chinese immigrants in Africa and the African diaspora in China. The insights in this book as well as real life case studies will make this work an indispensable reference for academics, students, policy makers and general readers who are interested in international issues and area studies, especially China-Africa relations,

China's rise and African development.

Making a Difference Peter Hernon, Nancy Rossiter, 2006-12-30 Leadership is separate from, but integral to, management; and library directors today and for the foreseeable future can be expected to play an institutional role as they lead the library to contribute towards the mission of their college and university. Similarly, new courses in library leadership now accompany more traditional ones on managing organizations and information resources. However, much of the literature on LIS leadership represents a distilled application of principles and practices borrowed from other disciplines, with few reports of research from the library field. Conceived as a companion to *The Next Library Leadership* (Libraries Unlimited, 2003), *Making a Difference* includes not only a discussion of effective attributes, but of issues central to the development of leadership qualities, strategies, and dispositions. Essential reading for anyone interested in advancing the quality of leadership within LIS, particularly academic librarians in or aspiring to positions of managerial leadership.

The Underwater Eye Margaret Cohen, 2022-04-12 In *The Underwater Eye*, Margaret Cohen tells the fascinating story of how the development of modern diving equipment and movie camera technology has allowed documentary and narrative filmmakers to take human vision into the depths, creating new imagery of the seas and the underwater realm, and expanding the scope of popular imagination. Innovating on the most challenging film set on earth, filmmakers have tapped the emotional power of the underwater environment to forge new visions of horror, tragedy, adventure, beauty, and surrealism, entertaining the public and shaping its perception of ocean reality. Examining works by filmmakers ranging from J. E. Williamson, inventor of the first undersea film technology in 1914, to Wes Anderson, who filmed the underwater scenes of his 2004 *The Life Aquatic with Steve Zissou* entirely in a pool, *The Underwater Eye* traces how the radically alien qualities of underwater optics have shaped liquid fantasies for more than a century. Richly illustrated, the book explores documentaries by Jacques Cousteau, Louis Malle, and Hans Hass, art films by Man Ray and Jean Vigo, and popular movies and television shows such as *20,000 Leagues Under the Sea*, *Creature from the Black Lagoon*, *Sea Hunt*, the Bond films, *Jaws*, *The Abyss*, and *Titanic*. In exploring the cultural impact of underwater filmmaking, the book also asks compelling questions about the role film plays in engaging the public with the remote ocean, a frontline of climate change.

Copyright Law and Translation Chamila S. Talagala, 2021-05-05 Arguing that the translation of scientific and technical learning materials, and the publication of these translations in a timely and affordable manner, is crucially important in promoting access to scientific and technical knowledge in the developing world, this book examines the relationship between copyright law, translation and access to knowledge. Taking Sri Lanka as a

case study in comparison with India and Bangladesh, it identifies factors that have contributed to the unfavourable relationship between copyright law and the timely and affordable translation of scientific and technical learning materials, such as colonisation, international copyright law, the trade interests of the developing economies and a lack of expertise and general lack of awareness surrounding copyright law in the developing world. Highlighting the need to reform international copyright law to promote the needs and interests of developing countries such as Sri Lanka, the book points to a possible way forward for developing countries to achieve this and to address the problem of striking a proper and delicate balance in their copyright laws between the protection of translation rights and the ability of people to access translations of copyright protected scientific and technical learning materials.

Nabokov in America Robert Roper, 2016-12-13 Born to an eminent Russian family, Vladimir Nabokov came to America fleeing the Nazis and remembered his time here as the richest of his life. Indeed, his best work flowed from his response to this storied land. With charm and insight, Robert Roper fills out this period in the writer's life: his friendship with Edmund Wilson, his time at Cornell, his role at Harvard's Museum of Comparative Zoology. But Nabokov in America finds its narrative heart in his and his family's serial sojourns into the West. Roper has mined fresh sources to bring detail to these journeys, and traces their significant influence in Nabokov's work: on two-lane highways and in late-'40s motels and cafés, we feel *Lolita* draw near, and understand Nabokov's seductive familiarity with the American mundane. *Nabokov in America* is also a love letter to U.S. literature, in Nabokov's broad embrace of it from Melville to the Beats. Reading Roper, we feel anew the rich learning and the Romantic mind behind some of Nabokov's most beloved books.

Sovereign Evolution Ezra Aharone, 2008-12-31 Rated 24th Best Black Book of 2009 Inside Black Hollywood Magazine From emancipation to segregation to integration, African Americans exist today by virtue of a continuum of political evolutions, each of which is built upon prior legacies and achievements. In advancing our political progression, *Sovereign Evolution* re-declares freedom and equality in 21st-century terms, using sovereign principles and standards. Whether the issue concerns Katrina and Jena, or being underrepresented in Congress and overrepresented in penitentiaries, the common thread as Ezra Aharone demonstrates, is that African Americans are an Un-Sovereign People, who pay varying degrees of Un-Sovereign Consequences. Thus, in a very methodical manner, he circumscribes sovereignty in a universal and historical context that confers African Americans with just as much integrity and authority as any other people to espouse and employ sovereign aspirations. The ideological framework herein self-applies and legitimizes the concept of sovereignty in ways that no other work has succinctly captured in politically-relatable terms, specific for African Americans. Realizing that not all African Americans will embrace sovereign values, Aharone uniquely specifies how a *Sovereign Evolution* can mutually advance the best interests of us all, without conflict or compromise to core beliefs of anyone. Accordingly, the book sets a platform to infuse sovereign discourse into mainstream domains that reach from street corners of the hoods, to Black universities, to church congregations, to the halls of Congress. The advent of President Barack Obama indicates a necessary and long-awaited political shift in time and history, which also conveys veiled implications of our sovereign potentials as a people. What once seemed politically improbable has proven to be politically achievable. Our only political limitations exist within the limits of our vision and courage. To this end, Ezra Aharone factually sculpts the sociopolitical substance of our historical experience into a sovereign consciousness and political language to initiate a Manifest Destiny from Civil Rights to Sovereign Rights.

Encountering Buddhism and Islam in Premodern Central and South Asia Blain

Auer, Ingo Strauch, 2019-08-19 This volume brings together a variety of historians, epigraphists, philologists, art historians and archaeologists to address the understanding of the encounter between Buddhist and Muslim communities in South and Central Asia during the medieval period. The articles collected here provoke a fresh look at the relevant sources. The main areas touched by this new research can be divided into five broad categories: deconstructing scholarship on Buddhist/Muslim interactions, cultural and religious exchanges, perceptions of the other, transmission of knowledge, and trade and economics. The subjects covered are wide ranging and demonstrate the vast challenges involved in dealing with historical, social, cultural and economic frameworks that span Central and South Asia of the premodern world. We hope that the results show promise for future research produced on Buddhist and Muslim encounters. The intended audience is specialists in Asian Studies, Buddhist Studies and Islamic Studies.

Social Media for Project Management Johan Ninan, 2022-11-17 The number of projects is increasing worldwide as traditional and repetitive tasks are carried out through automation. Projects being temporary and unique while being adopted globally across sectors presents a challenge for the effective management of environmental, economic, and social parameters. Projects are people centric and require the effective management of internal and external stakeholders. In the modern age, social media is seen as a tool that connects people across the world having significant implications on everyone's daily life. Social media is used for different purposes and encompasses multiple affordances as these are often free and also bring together people from different walks of life who tend to use them differently. However, the role of social media in managing projects is still under explored. In this edited book, multiple authors working on the application of social media in projects come together to craft an agenda for the future. First, the use of social media for internal stakeholders, such as managers and engineers, are discussed. Following this, the use of social media for external stakeholders, such as communities and project affected persons are discussed. Finally, the guidelines for education using social media and research using social media is discussed. Thus, the book brings together multiple authors to discuss how social media can be used in project settings to facilitate interactions and strategic conversations across hierarchical levels and geographic boundaries for diverse goals. The book is a valuable resource for all project management academics, researchers and practitioners who are interested in learning about the application of social media in project settings.
