Excessive Maritime Claims J. Ashley Roach, Robert W. Smith, 2012-06-22 This title is designed for law of the sea and maritime law specialists. The coverage includes current affairs in maritime law such as submarine cables, polar areas, environmental protection, sovereign immunity and sunken ships, and maritime law enforcement.

The Bulldozer and the Big Tent Todd Gitlin, 2007-09-10 This book, by one of America's most intelligent and decent political writers, tells liberals how the conservative movement rose and fell, and how they could emulate its successes while avoiding its failures. --George Packer, author of *Blood of the Liberals* and *The Assassins' Gate* No one is better than Todd Gitlin at describing the crucial dynamic through which movements gain or lose political power. Justly celebrated for his seminal work on such dynamics during the 1960s, Gitlin now explains everything that's happened since, with passion and wisdom--and happily, because of Bushism's collapse, legitimate optimism about the future. --Michael Tomasky, Editor, *Guardian America* An impassioned yet realistic plea for Democrats and liberals to become more serious about politics. They would do well to follow his advice. --Alan Wolfe, Director, Boisi Center for Religion and American Public Life, Boston College A brilliant and indispensable book. Gitlin convincingly urges liberals to take seriously the greater difficulty the Democrats have forging cohesion among identity-based groups over the Republicans persuading the less diverse Republican base to bury disagreements in the drive for victory. Gitlin argues that Democrats will have to bite the bullet and unite under a big tent. It's a hard lesson for ardent newcomers to the movement to swallow. Gitlin is dead right. --Thomas B. Edsall, Special Correspondent, *The New Republic* This is an indispensable book by one of our most gifted public intellectuals. Todd Gitlin explains--with splendid scholarship, reporting, and wit--how the Bush machine debased our political life and how progressives, in all their variety, are struggling to build a new majority. It is the best guide we have to America's recent past and its possible future. --Michael Kazin, author of *A Godly Hero: The Life of William Jennings Bryan* and Professor of History, Georgetown University

Market Friendly or Family Friendly? Madonna Harrington Meyer, Pamela Herd, 2007-08-16 Poverty among the elderly is sharply gendered—women over sixty-five are twice as likely as men to live below the poverty line. Older women receive smaller Social Security payments and are less likely to have private pensions. They are twice as likely as men to need a caregiver and twice as likely as men to be a caregiver. Recent efforts of some in Washington to reduce and privatize social welfare programs threaten to exacerbate existing gender disparities among older Americans. They also threaten to exacerbate inequality among women by race, class, and marital status. Madonna Harrington Meyer and Pamela Herd explain these disparities and assess how proposed policy reforms would affect inequality among the aged. *Market Friendly or Family Friendly?* documents the cumulative disadvantages that make it so difficult for women to achieve economic and health security when they retire. Wage discrimination and occupational segregation reduce women's lifetime earnings, depressing their savings and Social Security benefits. While more women are employed today than a generation ago, they continue to shoulder a greater share of the care burden for children, the disabled, and the elderly. Moreover, as marriage rates have declined, more working mothers are raising children single-handedly. Women face higher rates of health problems due to their lower earnings and the high demands associated with unpaid care work. There are also financial consequences to these family and work patterns. Harrington Meyer and Herd contrast the impact of market friendly programs that maximize individual choice, risk, and responsibility with family friendly programs aimed at redistributing risks and resources. They evaluate popular policies on the current agenda, considering the implications for inequality. But they also evaluate less discussed policy proposals. In particular, minimum benefits for Social Security, as well as credits for raising children, would improve economic security for all, regardless of marital status. National health insurance would also reduce inequality, as would reforms to Medicare, particularly increased coverage of long term care. Just as important are policies such as universal preschool and paid family leave aimed at reducing the disadvantages women face during their working years. The

gender gaps that women experience during their work and family lives culminate in income and health disparities between men and women during retirement, but the problem has received scant attention. *Market Friendly or Family Friendly?* is a comprehensive introduction to this issue, and a significant contribution to the debate over the future of America's entitlement programs. A Volume in the American Sociological Association's Rose Series in Sociology

Haunted historiographies Matthew Schultz, 2016-05-16 The spectres of history haunt Irish fiction. In this compelling study, Matthew Schultz maps these rhetorical hauntings across a wide range of postcolonial Irish novels, and defines the spectre as a non-present presence that simultaneously symbolises and analyses an overlapping of Irish myth and Irish history. By exploring this exchange between literary discourse and historical events, *Haunted historiographies* provides literary historians and cultural critics with a theory of the spectre that exposes the various complex ways in which novelists remember, represent and reinvent historical narrative. It juxtaposes canonical and non-canonical novels that complicate long-held assumptions about four definitive events in modern Irish history – the Great Famine, the Irish Revolution, the Second World War and the Northern Irish Troubles – to demonstrate how historiographical Irish fiction from James Joyce and Samuel Beckett to Roddy Doyle and Sebastian Barry is both a product of Ireland's colonial history and also the rhetorical means by which a post-colonial culture has emerged.

Suiting Themselves Sharon Beder, 2012 In this brilliantly researched exposé, 'communications Rottweiler' Sharon Beder blasts open the backrooms and boardrooms to reveal how the international corporate elite dictate global politics for their own benefit. Beder shows how they created business associations and think tanks in the 1970s to drive public policy, forced the worldwide privatization and deregulation of public services in the 1980s and 1990s (enabling a massive transfer of ownership and control over essential services) and, still not satisfied, have worked relentlessly since the late 1990s to rewrite the very rules of the global economy to funnel wealth and power into their pockets. Want a globalized and homogenized world of conflict, poverty and massive environmental degradation run by a corporate oligarchy that wipes its feet on democracy? Or a democratic world, where poverty is history, companies work for people and clean water is a right, not a privilege you pay for? Beder's message is clear – it's your world, and it's time to fight for it.

Rights-based Approaches to Development Samuel Hickey, Diana Mitlin, 2009 * Comprehensive summary and case studies of major rights-based approach to development * Arranged in point/counterpoint format The associations between human rights and the work of development activists didn't receive widespread attention from international development agencies until the mid to late 1990s. The most visible sign that attitudes were changing occurred when the UN held its World Summit for Social Development in Copenhagen in 1995. From that point on, rights became a stated objective of most agencies, regardless of the level of effort they actually spent in incorporating these ideas into their activities. Now, over a decade after that crucial turning point, *Rights-Based Approaches to Development* reflects on the effect of the development community's major shift in focus from market-based frameworks to a rights-based one. Contributors, both academics and practitioners, reflect on their experience with rights-based development activities. They draw out the current debates, theoretical and practical concerns and achievements, and larger implications about poverty and the relationship between citizens and the state. With powerful insights into where the development community has been and where it needs to go, *Rights-Based Approaches to Development* is critical to understanding the role of social justice in the context of development.

Art beyond Borders Jérôme Bazin, Pascal Dubourg Glatigny, Piotr Piotrowski, 2016-01-01 This book presents and analyzes artistic interactions both within the Soviet bloc and with the West between 1945 and 1989. During the Cold War the exchange of artistic ideas and products united Europe's avant-garde in a most remarkable way. Despite the Iron Curtain and national and political borders there existed a constant flow of artists, artworks, artistic ideas and practices. The geographic borders of these exchanges have yet to be clearly defined. How were networks, centers, peripheries (local, national and international), scales, and distances constructed? How did

(neo)avant-garde tendencies relate with officially sanctioned socialist realism? The literature on the art of Eastern Europe provides a great deal of factual knowledge about a vast cultural space, but mostly through the prism of stereotypes and national preoccupations. By discussing artworks, studying the writings on art, observing artistic evolution and artists' strategies, as well as the influence of political authorities, art dealers and art critics, the essays in *Art beyond Borders* compose a transnational history of arts in the Soviet satellite countries in the post war period.

Reading Communities from Salons to Cyberspace DeNel Rehberg Sedo, 2011-08-25 Reading is both a social process and a social formation, as this book illustrates across centuries and cultural contexts. Highlighting links evident in reading communities from literary salons to online environments, each essay reflects the rich repertoire of research methods available to reading scholars.

The R Book Michael J. Crawley, 2007-06-13 The high-level language of R is recognized as one of the most powerful and flexible statistical software environments, and is rapidly becoming the standard setting for quantitative analysis, statistics and graphics. R provides free access to unrivalled coverage and cutting-edge applications, enabling the user to apply numerous statistical methods ranging from simple regression to time series or multivariate analysis. Building on the success of the author's bestselling *Statistics: An Introduction using R*, *The R Book* is packed with worked examples, providing an all inclusive guide to R, ideal for novice and more accomplished users alike. The book assumes no background in statistics or computing and introduces the advantages of the R environment, detailing its applications in a wide range of disciplines. Provides the first comprehensive reference manual for the R language, including practical guidance and full coverage of the graphics facilities. Introduces all the statistical models covered by R, beginning with simple classical tests such as chi-square and t-test. Proceeds to examine more advanced methods, from regression and analysis of variance, through to generalized linear models, generalized mixed models, time series, spatial statistics, multivariate statistics and much more. *The R Book* is aimed at undergraduates, postgraduates and professionals in science, engineering and medicine. It is also ideal for students and professionals in statistics, economics, geography and the social sciences.

Occupational Stress, Job Satisfaction, Mental Health, Adolescents, Depression and the Professionalisation of Social Work Francis Borboh Dumbuya, 2020-02-07 Chapter 1 of this book aims to highlight themes covering occupational stress, job satisfaction, and the impact of these on the mental health of social workers who work in community mental health teams and those who work in children and family settings. The second chapter is a look at how poor self-esteem increases the risk for depression in adolescent girls and the practical steps that can be taken by social workers to enhance self-esteem in young people. The third chapter of the book poses the questions 'In what ways can social work be regarded as a profession, and does social work require a professional status?'. The fourth chapter is about social work process and skills that registered social workers are expected to possess to enable them to practise effectively. The final chapter has reviews of journals—mainly British journals—of social work. This book is meant mainly for social workers.

Creation's Tiny Mystery Robert V. Gentry, 2003-10 Documents scientific evidence for instantaneous creation of Earth and recounts opposition of scientific community to this discovery.

Friendship in Doubt Richard Kaczynski, 2024-02-27 Infidel. Atheist. Rationalist. Agnostic. Occultist Aleister Crowley, soldier J. F. C. Fuller, and poet Victor Neuburg embraced these labels as active contributors and participants in the British secularist movement at the dawn of the twentieth century. Rebelling against Victorian religious and social strictures, they dreamed of a world guided by scientific evidence instead of superstition. *Friendship in Doubt* examines how the Agnostic movement—from Saladin's *Agnostic Journal* and G. W. Foote's *Freethinker*, to the Rationalist Press Association and its *Literary Guide*—inspired and introduced Crowley, Fuller, and Neuburg to each other as foundational figures in the new religious movement of Thelema. Agnosticism would inform not only Thelema, but also Crowley's publishing company S.P.R.T.; Aâ, Aâ, , a successor to the fragmented Hermetic Order of the Golden Dawn; the *Equinox* journal; and the concept of magick as Scientific Illuminism. This volume also collects for the first time the contributions of all three to the Agnostic literature. This scarce and largely unknown material provides insight into the thinking of Crowley, Fuller and Neuburg at the start of their careers, and an understanding of their subsequent trajectories after they parted ways. As such, it provides unique insights into the role of Agnosticism in the formative years of an emerging occult movement which would go on to exert an immense influence on Western esotericism in the twentieth and twenty-first centuries.

Public Secrets Ken Knabb, 1997 The greatest hits, and a fine read for anyone interested in situationist ideas, anarchism, the 60s counterculture and beyond. Includes both two substantial new texts - 'The Joy Of Revolution' and 'Autobiography,' and reprints of all his old pamphlets, co-authored work, and translations of various situationist texts. A veritable treasure trove of pamphlets, texts, posters, comics, articles, leaflets and essays. Over 400 pages, and every one is a winner!

Encyclopedia of Library and Information Sciences John D. McDonald, Michael Levine-Clark, 2017-03-15 The *Encyclopedia of Library and Information Sciences*, comprising of seven volumes, now in its fourth edition, compiles the contributions of major researchers and practitioners and explores the cultural institutions of more than 30 countries. This major reference presents over 550 entries extensively reviewed for accuracy in seven print volumes or online. The new fourth edition, which includes 55 new entries and 60 revised entries, continues to reflect the growing convergence among the disciplines that influence information and the cultural record, with coverage of the latest topics as well as classic articles of historical and theoretical importance.

Community Planning Eric D. Kelly, 2010 This best-selling course book introduces community planning as practiced in the United States, focusing on the comprehensive plan. Revised and updated, the new edition addresses such important issues as sustainability, walkable communities, the role of urban design in public safety, housing for a changing population, and multi-modal transportation planning.--Publisher.

Reading Writing Interfaces Lori Emerson, 2014-06-01 Lori Emerson examines how interfaces—from today's multitouch devices to yesterday's desktops, from typewriters to Emily Dickinson's self-bound fascicle volumes—mediate between writer and text as well as between writer and reader. Following the threads of experimental writing from the present into the past, she shows how writers have long tested and transgressed technological boundaries. Reading the means of production as well as the creative works they produce, Emerson demonstrates that technologies are more than mere tools and that the interface is not a neutral border between writer and machine but is in fact a collaborative creative space. *Reading Writing Interfaces* begins with digital literature's defiance of the alleged invisibility of ubiquitous computing and multitouch in the early twenty-first century and then looks back at the ideology of the user-friendly graphical user interface that emerged along with the Apple Macintosh computer of the 1980s. She considers poetic experiments

with and against the strictures of the typewriter in the 1960s and 1970s and takes a fresh look at Emily Dickinson's self-printing projects as a challenge to the coherence of the book. Through archival research, Emerson offers examples of how literary engagements with screen-based and print-based technologies have transformed reading and writing. She reveals the ways in which writers—from Emily Dickinson to Jason Nelson and Judd Morrissey—work with and against media interfaces to undermine the assumed transparency of conventional literary practice.

Religious Change and Indigenous Peoples Helena Onnudottir, Adam Possamai, 2016-04-08 Exploring religious and spiritual changes which have been taking place among Indigenous populations in Australia and New Zealand, this book focuses on important changes in religious affiliation in census data over the last 15 years. Drawing on both local social and political debates, while contextualising the discussion in wider global debates about changing religious identities, especially the growth of Islam, the authors present a critical analysis of the persistent images and discourses on Aboriginal religions and spirituality. This book takes a comparative approach to other Indigenous and minority groups to explore contemporary changes in religious affiliation which have raised questions about resistance to modernity, challenges to the nation state and/or rejection of Christianity or Islam. Helena Onnudottir, Adam Possamai and Bryan Turner offer a critical analysis to on-going public, political and sociological debates about religious conversion (especially to Islam) and changing religious affiliations (including an increase in the number of people who claim 'no religion') among Indigenous populations. This book also offers a major contribution to the growing debate about conversion to Islam among Australian Aborigines, Maoris and Pacific peoples.
