Looking for Love in the Legal Discourse of Marriage Renata Grossi,2014-09-01 This book examines the (in)visibility of romantic love in the legal discourse surrounding modern Australian marriage. It looks at how romantic love has become a core part of modernity, and a dominant part of the Western marriage discourse, and considers how the ideologies of romantic love are (or are not) replicated in the legal meaning of marriage. This examination raises two key issues. If love has become central to people's understanding of marriage, then it is important for the legitimacy of law that love is reflected in both the content and application of the law. More fundamentally, it requires us to reconsider how we understand law, and to ask whether it is engaged with emotions, or separate from them. Along the way this book also considers the meaning of love itself in contemporary society, and asks whether love is a radical force capable of breaking down conservative meanings embedded in institutions like marriage, or whether it simply mirrors them. This book will be of interest to everyone working on love, marriage and sexuality in the disciplines of law, sociology and philosophy.

We Are One Ben Adam,2015-04-20 Global society is at a crossroads in determining how to deal with existential risks emanating from intercultural, socioeconomic, geopolitical, and environmental challenges. Social governance is central to how all these issues are addressed. At the same time, there is an increasing awareness of core spirituality that cuts across major faiths and ideologies. The author posits that there are a common set of values that are embedded in all major faiths and social governance systems. These faiths, systems, or traditions have independently arrived at these values with the maturation of human societies, across time and geography. As they have stood the test of time and varied cultural settings, they are more than likely to guide human society toward successfully addressing major global challenges. While quite a lot has been written about values that cuts across the Abrahamic religions, or even across all major Abrahamic and Vedic faiths, very little work appears to have been inspired by the values that cut across them and nontheistic governance systems. This short book posits a concise and intuitive common set of values crossing major faiths and nontheistic social governance systems, including liberal democracy and social democracy, as supported by excerpts of scripture or basic charters.

Energy and Non-Traditional Security (NTS) in Asia Mely Caballero-Anthony,Youngho Chang,Nur Azha Putra,2012-06-07 Traditional notions of security are premised on the primacy of state security. In relation to energy security, traditional policy thinking has focused on ensuring supply without much emphasis on socioeconomic and environmental impacts. Non-traditional security (NTS) scholars argue that threats to human security have become increasingly prominent since the end of the Cold War, and that it is thus critical to adopt a holistic and multidisciplinary approach in addressing rising energy needs. This volume represents the perspectives of scholars from across Asia, looking at diverse aspects of energy security through a non-traditional security lens. The issues covered include environmental and socioeconomic impacts, the role of the market, the role of civil society, energy sustainability and policy trends in the ASEAN region.

Sustainable Graphic Design Wendy Jedlicka,2010-05-28 The graphic artist's guide to sustainable design Graphic design is frequently thought of as a purely decorative effort. Yet these efforts can be responsible for shocking impacts on natural resources just to produce a barely-glanced-at catalog or mail piece. Sustainable Graphic Design: Tools, Systems, and Strategies for Innovative Print Design helps designers view graphic design as a holistic process. By exploring eco-conscious materials and production techniques, it shows designers how to create more effective and more sustainable designs. Sustainable Graphic Design opens your eyes to the bigger picture of design seen from the viewpoints of the audience, the creative vendor, their suppliers, and society as a whole. Chapters are written by a wide range of sustainable design pioneers and practitioners—including graphic designers, creative managers, marketing consultants, environmentalists, researchers, and psychologists—giving you critical information on materials and processes. Case studies illustrate and tie concepts together. Sustainability isn't a fad or a movement; it's a long-term paradigm shift. With this forward-looking toolkit, you'll be able to infuse your work with sustainability systems thinking, empowering you to play your role in achieving a future where design and sustainability are natural partners. Community Practice Skills Dorothy N. Gamble,Marie Weil,2010 Dorothy N. Gamble and Marie Weil differentiate among a range of intervention methods to provide a comprehensive and effective guide to working with communities. Presenting eight distinct models grounded in current practice and targeted toward specific goals, Gamble and Weil take an unusually inclusive step, combining their own extensive experience with numerous case and practice examples from talented practitioners in international and domestic settings. The authors open with a discussion of the theories for community work and the values of social justice and human rights, concerns that have guided the work of activists from Jane Addams and Martin Luther King Jr. to Cesar Chavez, Wangari Maathai, and Vandana Shiva. They survey the concepts, knowledge, and perspectives influencing community practice and evaluation strategies. Descriptions of eight practice models follow, incorporating real-life case examples from many parts of the world and demonstrating multiple applications for each model as well as the primary roles, competencies, and skills used by the practitioner. Complexities and variations encourage readers to determine, through comparative analysis, which model at which time best fits the goals of a community group or organization, given the context, culture, social, economic, and environmental issues and opportunities for change. An accompanying workbook stressing empowerment strategies and skills development is also available from Columbia University Press.

The New Post-Oil Arab Gulf Nabil Sultan,David Weir,Zeinab Karake-Shalhoub,2012-01-16 The sharp increase in oil revenues since 2002 has left the Arab Gulf States with billions of petro-dollars. But how will these countries fare in the post-oil era? The rulers of these states are taking serious measures to ensure the survival of their economies, and indeed their regimes, in a world with scarce mineral resources. This volume explores the extent to which these countries have been and will be able to prepare for the future by transforming themselves into serious international destinations for tourism, finance, healthcare and education. It also considers the implications of failure for the future survival of their regimes. This study will provide food for thought for academi, policy makers and general readers. 'An incisive enquiry into an exciting region, the authors leave no stones unturned. It is bold in its examination of both

the history and the crucial changes being wrought throughout the Gulf. The book, which has been fashioned with both detailed knowledge and academic rigour, will be of huge advantage to anyone seeking a practical chart to the region. The contributors have not been restrained in drawing examples of the Gulf States over-reaching themselves to danger points in the economic downturn. The severe lessons learned have been studiously researched. The fresh opportunities, political, economic, social and technological, are concisely considered. No matter where your interests lie, this is a solid foundation from which to build a 'Way Ahead' policy for the region.' -- Charles Wilson, Director of The Consultancy, an international human resources business with Gulf experience

Case Studies in Disaster Response and Emergency Management Nicolas A. Valcik, Paul E. Tracy, 2017-04-28 Designed to enable practitioners and students to evaluate a variety of real-life emergencies from every angle, this new edition of Case Studies in Disaster Response and Emergency Management provides clear, thorough, step-by-step descriptions of more than 50 major disasters or emergencies. Arranged chronologically, the case studies involve incidents from around the globe, with topics including natural disasters, industrial accidents, epidemics, and terrorist attacks. A series of questions throughout each case study encourages the reader to think critically about the problem at hand, to select a course of action, and to then see the results of the decisions that were made. This hands-on approach invites practitioners and students to apply learned theoretical emergency management techniques in a safe test environment. Case Studies in Disaster Response and Emergency Management, 2e provides readers with the most modern and current case studies in disaster response and emergency management and can be used in group project settings, as individual homework assignments in training courses for first responders, law enforcement, and government employees, or to complement existing emergency management textbooks in Public Administration, Public Management, and Public Affairs programs.

Rural Policing and Policing the Rural Rob I. Mawby, 2016-04-08 Policing reveals much about rural society. It refers to the way that the police, the public and other agencies regulate themselves and each other according to the dominant ideals of society. This can be formally, through the ever-growing spectrum of policing partnerships in neo-liberal countries, or informally, through the performance and enforcement of moral codes and values. This book draws on international inter-disciplinary perspectives to examine the range and consequences of policing across different rural localities. Rural Policing and Policing the Rural is organised into two sections: the first examines who is policing rural areas, while the second examines the nature of rural policing by considering, on the one hand, the policing of rural space and, on the other, how ideas of rurality are regulated. In doing so this book provides a survey of rural policing that will be valuable to academics, students, policy makers and those policing rural places.

Moscow and Havana 1917 to the Present Mervyn J. Bain, 2018-12-03 This book addresses Moscow-Havana relations from the Russian Revolution through the present. It concludes that a number of commonalities exist throughout, making the contemporary relationship important for both countries.

Unintended Consequences of Human Actions Elena Ermolaeva, Jessica Ross, 2012-07-10 Using a mixed-method approach, Unintended Consequences of Human Actions documents a wide range of unintended and unanticipated consequences of human actions. The major message is the urgent need to review a range of possible outcomes of human actions. During these fragile times 'looking down the road' has become imperative.

Community Planning Eric D. Kelly, 2010 This best-selling course book introduces community planning as practiced in the United States, focusing on the comprehensive plan. Handbook on Crime Fiona Brookman, Mike Maguire, Harriet Pierpoint, Trevor Bennett, 2010-02-01 The Handbook on Crime is a comprehensive edited volume that contains analysis and explanation of the nature, extent, patterns and causes of over 40 different forms of crime, in each case drawing attention to key contemporary debates and social and criminal justice responses to them. It also challenges many popular and official conceptions of crime. This book is one of the few criminological texts that takes as its starting point a range of specific types of criminal activity. It addresses not only 'conventional' offences such as shoplifting, burglary, robbery, and vehicle crime, but many other forms of criminal behaviour - often an amalgamation of different legal offences - which attract contemporary media, public and policy concern. These include crimes committed not only by individuals, but by organised criminal groups, corporations and governments. There are chapters on, for example, gang violence, hate crime, elder abuse, animal abuse, cyber crime, identity theft, money-laundering, eco crimes, drug trafficking, human trafficking, genocide, and global terrorism. Many of these topics receive surprisingly little attention in the criminological literature. The Handbook on Crime will be a unique text of lasting value to students, researchers, academics, practitioners, policy makers, journalists and all others involved in understanding and preventing criminal behaviour.

China's Governmentalities Elaine Jeffreys, 2009-09-10 Since the Chinese Communist Party (CCP) embarked on a programme of 'reform and openness' in the late 1970s, Chinese society has undergone a series of dramatic transformations in almost all realms of social, cultural, economic and political life and the People's Republic of China (PRC) has emerged as a global power. China's post-1978 transition from 'socialist plan' to 'market socialism' has also been accompanied by significant shifts in how the practice and objects of government are understood and acted upon. China's Governmentalities outlines the nature of these shifts, and contributes to emerging studies of governmentality in non-western and non-liberal settings, by showing how neoliberal discourses on governance, development, education, the environment, community, religion, and sexual health, have been raised in other contexts. In doing so, it opens discussions of governmentality to 'other worlds' and the global politics of the present. The book will appeal to scholars from a wide range of disciplines interested in the work of Michel Foucault, neo-liberal strategies of governance, and governmental rationalities in contemporary China.
