Apology and Reconciliation in International Relations Christopher Daase, Stefan Engert, Michel-André Horelt, Judith Renner, Renate Strassner, 2015-08-27 This book looks into the role and effects of public apologies in international relations. It focuses on two major questions - why and when do states issue apologies for historic crimes and how and under what conditions are these apologies successful in remedying conflictive relationships? In recent years, we have witnessed an unseen popularity of apologies, with numerous politicians, managers and clergymen being eager to apologise and atone for the wrong-doings of their countries or institutions. Public apologies, thus, are a new and highly interesting, while nevertheless still puzzling phenomenon, the precise role and meaning of which in international politics remains to be explored. This book sets out to do exactly this. Focusing in particular on state apologies, it assembles twelve detailed empirical case studies which deal with the two questions raised above. In the first part, the case studies reconstruct the processes in which state representatives react to calls for public atonement, and in the second part the case studies explore the reactions to the apology and evaluate signs for its success or failure. All case studies are based on a theoretical framework which is outlined in the introduction to the book and helps develop tentative assumptions about the emergence and the effects of state apologies, drawing on different strands of literature, such as political science, philosophy, sociology or psychology. This work will be of great interest to students and scholars of conflict reconciliation, international relations and transitional justice.

Berkshire Encyclopedia of Sustainability 2/10 Chris Laszlo, Karen Christensen, Daniel S. Fogel, Gernot Wagner, Peter J. Whitehouse, 2010-01-01 The Business of Sustainability is a core resource for policy makers, members of the development community, entrepreneurs, and corporate executives, as well as business and economics students and their professors. It contains rich analysis of how sustainability is being factored into industries across the globe, with enlightening case studies of businesses serving as agents of change. Contributing authors provide a groundbreaking body of research-based knowledge. They explain that the concept of sustainability is being re-framed to be positive about business instead of being tied to the old notion of a trade-off between business and society (that is, if business wins, society and the environment must lose), and they explore how economic development can contribute to building our common future.

Christmas in the Crosshairs Gerry Bowler, 2016-09-13 An Anglican priest hands out brass knuckles to his congregation, preparing to battle anti-Christmas fanatics. Fascists insist that the Winter Solstice is the real Christmas, while Communists stage atheist musicals outside of churches on Christmas Eve. Activists vandalize shops that start touting the holiday in October and anti-consumerists sing parody carols in shopping malls. Is there a war on Christmas? As Gerry Bowler demonstrates in Christmas in the Crosshairs, there is and always has been a war, or several wars, on Christmas. A cherished global phenomenon, Christmas is the biggest single event on the planet. For Christians it is the second-most sacred date on the calendar, but it also engages billions of people who are caught up in its commercialism, music, sentiment, travel, and frenetic busyness. Since its controversial invention in the Roman Empire, Christmas has struggled with paganism, popular culture, and fierce Christian opposition; faced abolition in Scotland and

New England; and braved neglect and near-death in the 1700s, only to be miraculously reinvented in the 1800s. The twentieth century saw it banned by Bolsheviks and twisted by Nazis. Since then, special interest groups of every stripe have used the holiday's massive popularity to draw attention to their causes. *Christmas in the Crosshairs* tells the story of the tug-of-war over Christmas, replete with cross-dressing priests, ranting Puritans, and atheist witches. In this eye-opening history of Christmas and its opponents from the beginning up to the present day, Bowler gives us a shocking, and richly entertaining, new look at the tradition we thought we knew so well.

Contemporary State Terrorism Richard Jackson, Eamon Murphy, Scott Poynting, 2009-09-10 This volume aims to 'bring the state back into terrorism studies' and fill the notable gap that currently exists in our understanding of the ways in which states employ terrorism as a political strategy of internal governance or foreign policy. Within this broader context, the volume has a number of specific aims. First, it aims to make the argument that state terrorism is a valid and analytically useful concept which can do much to illuminate our understanding of state repression and governance, and illustrate the varieties of actors, modalities, aims, forms, and outcomes of this form of contemporary political violence. Secondly, by discussing a rich and diverse set of empirical case studies of contemporary state terrorism this volume explores and tests theoretical notions, generates new questions and provides a resource for further research. Thirdly, it contributes to a critical-normative approach to the study of terrorism more broadly and challenges dominant approaches and perspectives which assume that states, particularly Western states, are primarily victims and not perpetrators of terrorism. Given the scarceness of current and past research on state terrorism, this volume will make a genuine contribution to the wider field, particularly in terms of ongoing efforts to generate more critical approaches to the study of political terrorism. This book will be of much interest to students of critical terrorism studies, critical security studies, terrorism and political violence and political theory in general. Richard Jackson is Reader in International Politics at the University of Wales, Aberystwyth. He is the founding editor of the Routledge journal, *Critical Studies on Terrorism* and the convenor of the BISA Critical Studies on Terrorism Working Group (CSTWG). Eamon Murphy is Professor of History and International Relations at Curtin University of Technology in Western Australia. Scott Poynting is Professor in Sociology at Manchester Metropolitan University.

Cultural Studies Lawrence Goodrich, Ruth Walker, 2012-02-10 *Cultural Studies: An Introduction to Global Awareness* is designed to introduce students to the study of world affairs, regional studies, and cultural awareness. It delves into history, geography, religions, languages, cultures, political systems, economics, social issues, environmental concerns, and human rights. It looks at major events and significant figures that have shaped each region. In this age when the Internet, trade, airplanes, satellites, and cell phones connect people everywhere, it's more important than ever to understand the world's cultures. Even if you never leave the United States, you may find yourself working with or managing people from different parts of the world. If you end up working overseas, you'll find that the more insight you have into other countries' history and customs, the more successfully you'll navigate your way around new and exciting lands. Features in this book include detailed topographical (mountains, rivers, etc.) and political maps. Colored boxes add brief additional information about related topics, while fastFacts offer extra tidbits of information. The photos provide glimpses of present-day life in these lands. Students will see how people dress and what their cities, cars, streets, buildings, and homes look like. While historical photos can be extremely interesting, this textbook supplies you with pictures of what these countries look like today. By the time students finish this course, they will have a greater understanding of the world around them. This knowledge will help them interpret trends and events abroad and will help in any future endeavors with other cultures.

Architecture for Astronauts Sandra Häuplik-Meusburger, 2011-10-18 Living and working in extra-terrestrial habitats means being potentially vulnerable to very harsh environmental, social, and psychological conditions. With the stringent technical specifications for launch vehicles and

transport into space, a very tight framework for the creation of habitable space is set. These constraints result in a very demanding “partnership” between the habitat and the inhabitant. This book is the result of researching the interface between people, space and objects in an extra-terrestrial environment. The evaluation of extra-terrestrial habitats in comparison to the user’s perspective leads to a new framework, comparing these buildings from the viewpoint of human activity. It can be used as reference or as conceptual framework for the purpose of evaluation. It also summarizes relevant human-related design directions. The work is addressed to architects and designers as well as engineers.

The Long Honduran Night Dana Frank, 2018-11-27 This powerful narrative recounts the tumultuous time in Honduras that witnessed then-President Manuel Zelaya deposed by a coup in June 2009, told through first-person experiences and layered with deeper political analysis. It weaves together two perspectives; first, the broad picture of Honduras since the coup, including the coup itself, its continuation in two repressive regimes, and secondly, the evolving Honduran resistance movement, and a new, broad solidarity movement in the United States. Although it is full of terrible things, this not a horror story: this narrative directly counters mainstream media coverage that portrays Honduras as a pit of unrelenting awfulness, in which powerless sobbing mothers cry over bodies in the morgue. Rather, it’s about sobering challenges and the inspiring collective strength with which people face them. Dana Frank is a professor of history at the University of California, Santa Cruz. She is the author of *Baneras: Women Transforming the Banana Unions of Latin America* from Haymarket Books. Since the 2009 military coup her articles about human rights and U.S. policy in Honduras have appeared in *The Nation*, *New York Times*, *Politico Magazine*, *Foreign Affairs.com*, *The Baffler*, *Los Angeles Times*, *Miami Herald*, and many other publications, and she has testified in both the US Congress and Canadian Parliament.

Looking for Love in the Legal Discourse of Marriage Renata Grossi, 2014-09-01 This book examines the (in)visibility of romantic love in the legal discourse surrounding modern Australian marriage. It looks at how romantic love has become a core part of modernity, and a dominant part of the Western marriage discourse, and considers how the ideologies of romantic love are (or are not) replicated in the legal meaning of marriage. This examination raises two key issues. If love has become central to people’s understanding of marriage, then it is important for the legitimacy of law that love is reflected in both the content and application of the law. More fundamentally, it requires us to reconsider how we understand law, and to ask whether it is engaged with emotions, or separate from them. Along the way this book also considers the meaning of love itself in contemporary society, and asks whether love is a radical force capable of breaking down conservative meanings embedded in institutions like marriage, or whether it simply mirrors them. This book will be of interest to everyone working on love, marriage and sexuality in the disciplines of law, sociology and philosophy.

Greater China in an Era of Globalization Sujian Guo, Baogang Guo, 2010 China's growth in the past few decades has been unprecedented, and continues to stay strong as it expands its influence around the globe. However, in many ways, the once insular China is still looking to find its footing as an international player in the globalization game. *Greater China in an Era of Globalization* looks at the success of China and its surrounding territories of Taiwan, Hong Kong, and Macau and asks the question What is Chinese globalization?. The contributors in this volume look to answer this question by examining China's role both in its immediate sphere of influence and in the greater world. In doing so, the contributors argue that its push to globalize has had as much effect on the country itself, both politically and culturally, as it has had on the world. The contributors further the argument by analyzing China's influence on the rising nations in Africa and Latin America, before ending the book with a comparative analysis between it and the historic rise and fall of influence of its European counterparts.

The Kurdish Spring David L. Phillips, 2017-07-05 Kurds are the largest stateless people in the world. An estimated thirty-two million Kurds live in

Kurdistan, which includes parts of Turkey, Iraq, Syria, and Iran today's hot spots in the Middle East. The Kurdish Spring explores the subjugation of Kurds by Arab, Ottoman, and Persian powers for almost a century, and explains why Kurds are now evolving from a victimized people to a coherent political community. David L. Phillips describes Kurdish rebellions and arbitrary divisions in the last century, chronicling the nadir of Kurdish experience in the 1980s. He discusses draconian measures implemented by Iraq, including use of chemical weapons, Turkey's restrictions on political and cultural rights, denial of citizenship and punishment for expressing Kurdish identity in Syria, and repressive rule in Iran. Phillips forecasts the collapse and fragmentation of Iraq. He argues that US strategic and security interests are advanced through cooperation with Kurds, as a bulwark against ISIS and Islamic extremism. This work will encourage the public to look critically at the post-colonial period, recognizing the injustice and impracticality of states that were created by Great Powers, and offering a new perspective on sovereignty and statehood.
