The Sensuous Cinema of Wong Kar-wai Gary Bettinson, 2014-11-01 The widely acclaimed films of Wong Kar-wai are characterized by their sumptuous yet complex visual and sonic style. This study of Wong's filmmaking techniques uses a poetics approach to examine how form, music, narration, characterization, genre, and other artistic elements work together to produce certain effects on audiences. Bettinson argues that Wong's films are permeated by an aesthetic of sensuousness and "disturbance" achieved through techniques such as narrative interruptions, facial masking, opaque cuts, and other complex strategies. The effect is to jolt the viewer out of complete aesthetic absorption. Each of the chapters focuses on a single aspect of Wong's filmmaking. The book also discusses Wong's influence on other filmmakers in Hong Kong and around the world. The Sensuous Cinema of Wong Kar-wai will appeal to all who are interested in authorship and aesthetics in film studies, to scholars in Asian studies, media and cultural studies, and to anyone with an interest in Hong Kong cinema in general, and Wong's films in particular. "In this carefully written study, Gary Bettinson offers a critical assessment not only of the stylistic features of Wong Kar-wai's films but also of the scholarship that has developed around them. Arguing against the facile culturalism that tends to dominate such scholarship, this book does full justice to Wong's cinematic methods in a series of impressively well-informed and informative readings." —Rey Chow, Duke University

Anger Barbara H. Rosenwein, 2020-07-01 Tracing the story of anger from the Buddha to Twitter, Rosenwein provides a much-needed account of our changing and contradictory understandings of this emotion. All of us think we know when we are angry, and we are sure we can recognize anger in others as well. But this is only superficially true. We see anger through lenses colored by what we know, experience, and learn. Barbara H. Rosenwein traces our many conflicting ideas about and expressions of anger, taking the story from the Buddha to our own time, from anger's complete rejection to its warm reception. Rosenwein explores how anger has been characterized by gender and race, why it has been tied to violence and how that is often a false connection, how it has figured among the seven deadly sins and yet is considered a virtue, and how its interpretation, once largely the preserve of philosophers and theologians, has been gradually handed over to scientists—with very mixed results. Rosenwein shows that the history of anger can help us grapple with it today.

Democracy, States, and the Struggle for Social Justice Heather D. Gautney, Neil Smith, Omar Dahbour, Ashley Dawson, 2009-04-24 Democracy, States, and the Struggle for Social Justice draws on the fields of geography, political theory, and cultural studies to analyze experiments with novel forms of democracy, highlighting the critical issue of the changing nature of the state and citizenship in the contemporary political landscape as they are buffeted by countervailing forces of corporate globalization and participatory politics. Using interesting case studies, the book explores these 3 main themes: the meaning of radical democracy in light of recent developments in democratic theory; new spatial arrangements or scales of democracy – from local to global, from streets protests to the development of transnational networks; the character and role of states in the development of new forms of democracy. The book asks and answers: are participatory models of democracy viable alternatives in their own right or are they best understood as supplemental to traditional representative democracy? What are the conditions that give rise to the development of such models and are they equally effective at every scale; i.e., do they only realize their radical potential in particular, local places? A useful text in a broad range of advanced undergraduate courses including social movements, political sociology or geography, political philosophy.

Blackening Europe Heike Raphael-Hernandez, 2012-11-12 Traditional scholars have often looked at African American studies through the lens of European theories, resulting in the secondarization of the African American presence in Europe and its contributions to European culture. Blackening Europe reverses this pattern by using African American culture as the starting point for a discussion of its influences over traditional European structures. Evidence of Europe's blackening

abound, from French ministers of Hip-hop and British incarnations of Shaft to slavery memorial in the Netherlands and German youth sporting dreadlocks. Collecting essays by scholars from both sides of the Atlantic and fields as diverse as history, literature, politics, social studies, art, film and music, *Blackening Europe* explores the implications of these cultural hybrids and extends the growing dialogues about Europe's fascination with African America.

China's African Challenges Sarah Raine, 2013-10-18 China's relations with African nations have changed dramatically over the past decade. African oil now accounts for more than 30% of China's oil imports, and China is Africa's second-largest single-country trading partner, as well as a leading lender and infrastructure investor on the continent. Yet these developments are bringing challenges, not only for Africa and the West, but for China as well. This book examines these challenges, considering Africa as a testing ground, both for Chinese companies 'going global' and for a Chinese government that is increasingly having to deal with issues beyond its shores and immediate control. What does China need to do to protect and develop its African engagements, against a backdrop of mounting African expectations, concerns from Western actors in Africa, and the rival presence of other emerging actors? How sustainable is the momentum that China has established in its African ventures? China's adaptations to the challenges it is facing in Africa are examined and assessed, as are the implications of these changes for China, Africa and the West. China's African engagements are certainly changing Africa, but could they also be changing China?

Unveiling the Invisibility Cloak Sarah M. J. Muzart, 2012 Despite being an act that is widely practiced under the guise of a significant number of States, little is known about the intrinsic realities of enforced disappearances. General literature on the topic is lacking, and laws that address the problem are scarce. Enforced disappearances have only come to the attention of the international community fairly recently. At the dawn of this century, Thailand understandably remains one of the most active countries in the practice of enforcedly disappearing people as a means of removing them from the protection of the law because of no legally justifiable reason for arrest or detention - an ultimate breach of the Rule of Law. This book aims to attribute responsibility to the Kingdom of Thailand for failing to introduce legal mechanisms and safeguards to protect its citizens - in breach of its State duties - from enforced disappearances. In an attempt to remove pre-existing ambiguities on what basic human rights are being violated and by whom, the author comparatively analyses international human rights jurisprudence vis-a-vis certain Latin American and European countries. The jurisprudence reiterates that the human rights implications of enforced disappearances do not only depend on the State refraining from committing such acts directly, but also from its indirect acquiescence and tolerance of the act being committed by non-State agents. The repeated reports of enforced disappearances throughout its history make Thailand hypothetically accountable (since nothing can supersede State sovereignty). Still, the author hopes that this book will provide the guidance needed to help improve the human rights compliance in Thailand and, in due course, rid the country of this terrible practice. To this end, this book also contains first-hand contribution from experts and advocates to human rights in Thailand.

Information Economy Report 2010 United Nations Conference on Trade and Development (UNCTAD), 2010-11-02 The Information Economy Report 2010: ICT, Enterprises and Poverty Alleviation is the fifth in the flagship series published by the United Nations Conference on Trade and Development (UNCTAD). As one of few annual reports that monitor global trends related to information and communication technologies (ICTs) from a development perspective, the Report is a valuable reference source for policymakers in developing countries. In the 2010 edition, special attention is given to the potential impact of ICTs in enterprises for reducing poverty and improving livelihoods. The evidence presented in this Report suggests that more attention should be given by policymakers and other stakeholders to opportunities in this area.

Fighting Poverty Together A. Karnani, 2016-04-30 In this hard-hitting polemical Karnani demonstrates what is wrong with today's approaches to reducing poverty. He proposes an eclectic approach to poverty reduction that emphasizes the need for business, government and civil society to partner together to create employment opportunities for the poor.

John Forbes: Scotland, Flanders and the Seven Years' War, 1707-1759 John

Oliphant, 2015-06-18 In November 1758 Brigadier General John Forbes's army expelled the French army from Fort Duquesne at the forks of the Ohio River. Over seven months Forbes had co-ordinated three obstructive and competitive colonies, managed Indian diplomacy, and cut a road through over a hundred miles of mountain and forest. This is the first full biography of Forbes, which traces his rise from surgeon in the Scots Greys to distinguished service in War of the Austrian Succession before his 1757 posting to North America. John Oliphant puts Forbes' life and career in the wider context of the social and military world of the 18th century and offers important insights into the Seven Years' War in North America.

Cooperation Between Antitrust Agencies at the International Level Bruno Zanettin, 2002-10-22 The issue of international antitrust enforcement is high on the agenda for both developed and developing countries. Bilateral cooperation between antitrust agencies, in particular the European Commission and US agencies, is the focus of this new work. It first shows how bilateral cooperation was developed as a response to the limits of the unilateral and extraterritorial application of national competition laws, and how it has evolved from an instrument initially designed to avoid conflicts into a tool aimed at coordinating joint investigations of international competition cases. It then considers how bilateral cooperation could be used optimally, by analysing two forms of advanced cooperation: the exchange of confidential information, and positive comity, which is the only satisfactory answer competition law can provide to market access cases. It shows that the use of such instruments is limited by significant legal and political obstacles, even in the context of the exemplary EC US relationship. The book therefore argues that the efficient use of bilateral cooperation will be limited to a small number of well-established competition agencies. If international anticompetitive practices are to be efficiently addressed by an increasingly large and heterogeneous group of competition agencies, horizontal cooperation between antitrust agencies must be complemented by a multilateral and supranational solution going beyond proposals currently put forward. The book concludes that only the WTO and its dispute settlement system could provide the basis for such a system.

Lady Anne Halkett Suzanne Linda Trill, 2017-03-02 An in-depth examination of Lady Anne Halkett's writing is long overdue. Although Lady Anne Halkett is beginning to receive much warranted critical attention, to date scholars have concentrated almost exclusively on her autobiographical 'Memoirs'. Consequently, her extensive 'Select and Occasional Meditations,' have been neglected or marginalised. While these texts are devotional in nature, they also bear witness to Halkett's own sense of self and subjectivity. The structure of this edition provides the first opportunity for scholars to place Halkett's 'Memoirs' in its moment of production and in relation to Halkett's other writings. In so doing, we gain a unique insight into a particular early modern woman's devotional practice and her developing subjectivity. Suzanne Trill's original introduction discusses how this combination of texts requires scholars to revise their representations of Halkett and her writing. Trill argues for a more detailed interrogation of Halkett's national and religious affiliations; to this end, she offers an analysis of the religious conflicts between Scotland and England, 1660-1700, with particular reference to

Halkett's representation of her ministers' experiences within this conflict. Halkett's intense engagement with contemporary social, political and religious changes makes her writing more than simply the record of an individual woman's life. This edition of selections of her writings offers a new angle on Halkett's life and writing that will be of interest to literary scholars, historians, linguists, and to those interested in women's studies in general.

Organizational Ethnography Sierk Ybema, Dvora Yanow, Harry Wels, Frans H Kamsteeg, 2009-08-20 Electronic Inspection Copy available for instructors here Just as newspapers do not, typically, engage with the ordinary experiences of people's daily lives, so organizational studies has also tended largely to ignore the humdrum, everyday experiences of people working in organizations. However, ethnographic approaches provide in-depth and up-close understandings of how the 'everyday-ness' of work is organized and how, in turn, work itself organizes people and the societies they inhabit. Organizational Ethnography brings contributions from leading scholars in organizational studies that serve to unpack an ethnographic perspective on organizations and organizational research. The authors explore the particular problems faced by organizational ethnographers, including: - questions of gaining access to research sites within organizations; - the many styles of writing organizational ethnography; - the role of friendship relations in the field; - problems of distance and closeness; - the doing of at-home ethnography; - ethical issues; - standards for evaluating ethnographic work. This book is a vital resource for organizational scholars and students doing or writing ethnography in the fields of business and management, public administration, education, health care, social work, or any related field in which organizations play a role.

Poéticas por venir, políticas del duelo Ana Fernández Caparrós, Natalie Gómez Handford y Stella Ramos, 2014-01-01 La tensión entre el pasado y el futuro y la integración del olvido y el recuerdo constituyen las coordenadas fundamentales en las que se desarrolla el trabajo del duelo. En efecto, la pérdida, la muerte y el trauma son poderosos acontecimientos que nos obligan a replantear el relatos que nos define y proyectan la sombra de la incertidumbre en nuestro porvenir. También revelan, no obstante, un estrecho vínculo entre acción política y praxis estética que a menudo suele pasar inadvertido: el empeño que ambas comparten por hacer irrumpir en el espacio público lo incontado, lo ido y lo ausente, con la urgencia de lo que no puede ser ignorado. El duelo es, por ello, inseparable de una poética dle porvenir, entendida como una actividad orientada a crear sentido allí donde la quiebra de la historia, lineal y coherente, impedía toda proyección hacia el futuro. El propósito que ha guiado a Ana Fernández Caparrós, Natalie Gómez Handford y Stella Ramos, editoras, ha sido el de abrir un espacio de reflexión sobre estas cuestiones adoptando un enfoque multidisciplinar y transversal. Autores como Terry Eagleton, José Luis Pardo o Fernando Rampérez, entre otros, analizan el modo en que, desde el arte, la filosofía, la literatura, el cine y la fotografía se han abordado las relaciones entre duelo, porvenir, política y estética., planteando preguntas y abriendo interrogantes de especial relevancia en el contexto del pensamientos actual.
