Hoosier Philanthropy Gregory R. Witkowski,2022-11-01 The first in-depth history of philanthropy in Indiana. Philanthropy has been central to the development of public life in Indiana over the past two centuries. Hoosier Philanthropy explores the role of philanthropy in the Hoosier state, showing how voluntary action within Indiana has created and supported multiple visions of societal good. Featuring 15 articles, Hoosier Philanthropy charts the influence of different types of nonprofit Hoosier organizations and people, including foundations, service providers, volunteers, and individual donors.

The Palgrave Handbook of Olympic Studies H. Lenskyj,S. Wagg,2012-04-11 A comprehensive, state-of-the-art reference collection, bringing together an authoritative and international line-up of scholars to examine key social and political issues related to the Olympics. An essential, 'one-stop' volume for a wide range of academics, students and researchers.

Animal Spaces, Beastly Places Chris Philo,Chris Wilbert,2004-08-02 Animal Spaces, Beastly Places examines how animals interact and relate with people in different ways. Using a comprehensive range of examples, which include feral cats and wild wolves, to domestic animals and intensively farmed cattle, the contributors explore the complex relations in which humans and non-human animals

are mixed together. Our emotions involving animals range from those of love and compassion to untold cruelty, force, violence and power. As humans we have placed different animals into different categories, according to some notion of species, usefulness, domesticity or wildness. As a result of these varying and often contested orderings, animals are assigned to particular places and spaces. *Animal Spaces, Beastly Places* shows us that there are many exceptions and variations on the spatiality of human-animal spatial orderings, within and across cultures, and over time. It develops new ways of thinking about human animal interactions and encourages us to find better ways for humans and animals to live together.

Building Technology Transfer within Research Universities Thomas J. Allen, Rory P.

O'Shea, 2014-09-18 For the past number of years, academic entrepreneurship has become one of the most widely studied topics in the entrepreneurship literature. Yet, despite all the research that has been conducted to date, there has not been a systematic attempt to analyze critically the factors which lie behind successful business spin-offs from university research. In this book, a group of academic thought-leaders in the field of technology transfer examine a number of areas critical to the promotion of start-ups on campus. Through a series of case studies, they examine current policies, structures, program initiatives and practices of fourteen international universities to develop a theory of successful academic entrepreneurship, with the aim of helping other universities to enhance the quality of their university transfer programs. This book is a valuable resource for university research administrators, technology transfer office professionals, academic entrepreneurs, incubator management officials, R&D managers, venture capitalists, researchers, policymakers, and others involved in the commercialization of intellectual property.

Competition Policy and the Economic Approach Josef Drexler, Wolfgang Kerber, Rupprecht

Podszun, 2011-01-01 This outstanding collection of original essays brings together some of the leading experts in competition economics, policy and law. They examine what lies at the core of the 'economic approach to competition law' and deal with its normative and institutional limitations. In recent years the more 'economic approach' has led to a modernisation of competition law throughout the world. This book comprehensively examines for the first time, the foundations and limitations of the approach and will be of great interest to scholars of competition policy no matter what discipline. *Competition Policy and the Economic Approach* will appeal to academics in competition economics and law, policy-makers and practitioners in the field of antitrust/competition law as well as postgraduate students in competition law and economics. Those interested in the interplay of law and economics in the field of

competition will also find this book invaluable.

An Oral History of the Palestinian Nakba Doctor Nahla Abdo, Nur Masalha, 2018-05-15 In 2018, Palestinians mark the 70th anniversary of the Nakba, when over 750,000 people were uprooted and forced to flee their homes in the early days of the Israeli-Palestinian conflict. Even today, the bitterness and trauma of the Nakba remains raw, and it has become the pivotal event both in the shaping of Palestinian identity and in galvanising the resistance to occupation. Unearthing an unparalleled body of rich oral testimony, *An Oral History of the Palestinian Nakba* tells the story of this epochal event through the voices of the Palestinians who lived it, uncovering remarkable new insights both into Palestinian experiences of the Nakba and into the wider dynamics of the ongoing conflict. Drawing together Palestinian accounts from 1948 with those of the present day, the book confronts the idea of the Nakba as an event consigned to the past, instead revealing it to be an ongoing process aimed at the erasure of Palestinian memory and history. In the process, each unique and wide-ranging contribution leads the way for new directions in Palestinian scholarship.

American Men and Women in Medicine, Applied Sciences and Engineering with Roots in Czechoslovakia Miloslav Rechcigl Jr., 2021-02-17 No comprehensive study has been undertaken about the American learned men and women with Czechoslovak roots. The aim of this work is to correct this glaring deficiency, with the focus on men and women in medicine, applied sciences and engineering. It covers immigration from the period of mass migration and beyond, irrespective whether they were born in their European ancestral homes or whether they have descended from them. This compendium clearly demonstrates the Czech and Slovak immigrants, including Bohemian Jews, have brought to the New World, in these areas, their talents, their ingenuity, the technical skills, their scientific knowhow, as well as their humanistic and spiritual upbringing, reflecting upon the richness of their culture and traditions, developed throughout centuries in their ancestral home. This accounts for their remarkable success and achievements of these settlers in the New World, transcending through their descendants, as this publication demonstrates. The monograph has been organized into sections by subject areas, i.e., Medicine, Allied Health Sciences and Social Services, Agricultural and Food Science, Earth and Environmental Sciences and Engineering. Each individual entry is usually accompanied with literature, and additional biographical sources for readers who wish to pursue a deeper study. The selection of individuals has been strictly based on geographical vantage, without regards to their native language or ethnical background. Some of the entries may surprise you, because their Czech or Slovak ancestry has not been generally known. What is conspicuous is a large

percentage of listed individuals being Jewish, which is a reflection of high-level of education and intellect of Bohemian Jews. A prodigious number of accomplished women in this study is also astounding, considering that, in the 19th century, they rarely had careers and most professions refused entry to them.

The Olympic Games and the Environment J. Karamichas,2013-01-11 This book examines the environmental credentials of Olympic Host cities and the opportunities afforded by hosting the Games towards the ecological modernization of the host nation by using perspectives offered by environmental sociology. It also sets out projections for the environmental legacy of London 2012.

Making Minorities History Matthew Frank,2017-03-09 Making Minorities History examines the various attempts made by European states over the course of the first half of the twentieth century, under the umbrella of international law and in the name of international peace and reconciliation, to rid the Continent of its ethnographic misfits and problem populations. It is principally a study of the concept of 'population transfer' - the idea that, in order to construct stable and homogeneous nation-states and a peaceful international order out of them, national minorities could be relocated en masse in an orderly way with minimal economic and political disruption as long as there was sufficient planning, bureaucratic oversight, and international support in place. Tracing the rise and fall of the concept from its emergence in the late 1890s through its 1940s zenith, and its geopolitical and historiographical afterlife during the Cold War, Making Minorities History explores the historical context and intellectual milieu in which population transfer developed from being initially regarded as a marginal idea propagated by a handful of political fantasists and extreme nationalists into an acceptable and a 'progressive' instrument of state policy, as amenable to bourgeois democracies and Nobel Peace Prize winners as it was to authoritarian regimes and fascist dictators. In addition to examining the planning and implementation of population transfers, and in particular the diplomatic negotiations surrounding them, Making Minorities History looks at a selection of different proposals for the resettlement of minorities that came from individuals, organizations, and states during this era of population transfer.

The Olympic Legacy Alan Tomlinson,2017-10-02 This comprehensive collection provides an

overview of social scientific perspectives on Olympic legacy, using specialist analyses and selected cases to illuminate the recurring anthropological, political, and sociological dimensions of the legacy debate. Drawing upon research conducted on the Beijing, Vancouver, Athens, London and Rio de Janeiro Olympic Games, it identifies the recurrent rhetoric that has characterised the legacy debate, alongside the harsh realities that contradict many legacies and aspirations. Fifteen researchers from six countries contribute a range of critical analytical studies which explore macro-perspectives on the shifting political economy symbolized at Beijing or in an over-reaching Greece, the soft power benefits perceived by the Rio 2016 organizers, the anthropological study of neighbourhood spaces threatened by corporate branding, and the apparatus of surveillance surrounding an Olympic Games. The symbolic importance of the Games is also captured in studies of volunteer motivations, labour and work initiatives, and the introduction of women's boxing at London 2012. In a comprehensive overview, Alan Tomlinson illuminates the rhetoric of successive Olympic cycles and the rise to prominence of the legacy question in that debate. This book was originally published as a special issue of Contemporary Social Science.

Privacy Enhancing Technologies Roger Dingledine,Paul Syverson,2003-08-02 This book constitutes the thoroughly refereed post-proceedings of the Second International Workshop on Privacy Enhancing Technologies, PET 2002, held in San Francisco, CA, USA, in April 2002. The 17 revised full papers presented were carefully selected during two rounds of reviewing and improvement. Among the topics addressed are Internet security, private authentication, information theoretic anonymity, anonymity measuring, enterprise privacy practices, service architectures for privacy, intersection attacks, online trust negotiation, random data perturbation, Website fingerprinting, Web user privacy, TCP timestamps, private information retrieval, and unobservable Web surfing.

Commentary on Metaphysics: Books 7-12 Saint Thomas (Aquinas),John Patrick Rowan,2019 Foundational in its consideration of being and the transcendentals, the Metaphysics of Aristotle is a dense and difficult work on its own. This volume contains the first half of St. Thomas's commentary on the Metaphysics, beginning with discussing the views of Aristotle's predecessors and moving towards a discussion of being--
