The Pension Challenge Olivia S. Mitchell, Kent Smetters, 2003-11-13 This book, the first in a new series produced by the Pension Research Council of the Wharton School in collaboration with Oxford University Press, explores ways to enhance retirement security in a volatile financial environment. Mitchell and Smetters begin by assessing the myriad retirement risks confronting employees, retirees, employers, and governments, and it shows how stakeholders can work to reinvent pensions that perform well in a competitive global setting. Contributors then indicate how pension systems can be better designed to help protect against these risks. Of special interest is a discussion of new financial products and structures to meet and manage challenges to old-age security. Examples considered include pension investment guarantees and hedges, adapting catastrophe bonds to the pension context, and key regulatory structures and portfolio requirements designed to protect unwary or unwitting pension participants. The contributors draw important lessons for a wide range of countries, drawing from both developed and developing market experiences. Contributors include world-famous finance experts and risk management faculty, development economists, pension regulators, and pension consultants.

The Encyclopedia of the Sri Lankan Diaspora Peter Reeves, 2013 Well over a million people of Sri Lankan origin live outside South Asia. The Encyclopedia of the Sri Lanka Diaspora is the first comprehensive study of the lives, culture, beliefs and attitudes of immigrants and refugees from this island. The volume is a joint publication between the Institute of South Asian Studies, NUS, and Editions Didier Millet. It focuses on the relationship between culture and economy in the Sri Lanka diaspora in the context of globalisation, increased transnational culture flows and new communication technologies. In addition to the geographic mapping of the Sri Lanka diaspora in the various continents, thematic chapters include topics on "long distance nationalism", citizenship, Sinhala, Tamil and Burgher diaspora identities, religion and the spread of Buddhism, as well as the Sri Lankan cultural impact on other nations.

The Geographies of Air Transport Andrew R. Goetz, Lucy Budd, 2016-03-09 Making a detailed contribution to geographies of air transport and aeromobility, this book examines the practices and processes that produce particular patterns of air transport provision both regionally and globally. In so doing, it updates the seminal contributions of Eva Taylor (1945), Kenneth Sealy (1957), Brian Graham (1995) and others to the study of air transport geography. Leading scholars in the field offer a unique insight into the key developments that have occurred in the field and the implications that these developments have had for geography, geographers, and global patterns of past, present and future air transport. Although globalization and liberalization processes have greatly expanded the demand for air transport over the last two decades, the industry has experienced several major setbacks due to economic, security, and environmental concerns. Many of these impacts have been much more pronounced in some regions, such as North America and Europe while others, such as Asia-Pacific have not been as adversely affected. Accordingly, there is a clear need to examine these recent economic and geopolitical changes from a geographical perspective given the differentiated pattern of effects from global processes. Addressing this need, this volume opens with thematic chapters covering key topics such as the historical geographies, socio-cultural mobilities, environmental externalities, urban geographies, and sustainability of the global air transport industry, followed by regional analysis of the industry in Asia-Pacific, Latin America, Greater Middle East and Africa as well as North America and Europe.

The Hemshin Hovann Simonian, 2007-01-24 The Hemshin are without doubt one of the most enigmatic peoples of Turkey and the Caucasus. As former Christians who converted to Islam centuries ago yet did not assimilate into the culture

of the surrounding Muslim populations, as Turks who speak Armenian yet are often not aware of it, as Muslims who continue to celebrate feasts that are part of the calendar of the Armenian Church, and as descendants of Armenians who, for the most part, have chosen to deny their Armenian origins in favour of recently invented myths of Turkic ancestry, the Hemshin and the seemingly irreconcilable differences within their group identity have generated curiosity and often controversy. The Hemshin is the first scholarly work to provide an in-depth study of these people living in the eastern Black Sea region of Turkey. This groundbreaking volume brings together chapters written by an international group of scholars that cover the history, language, economy, culture and identity of the Hemshin. It is further enriched with an unprecedented collection of maps, pictures and appendices of up-to-date statistics. The Hemshin forms part of the Peoples of the Caucasus series, an indispensable and yet accessible resource for all those with an interest in the Caucasus.

Biology Education and Research in a Changing Planet Esther Gnanamalar Sarojini Daniel, 2015-08-17 This book presents selected conference proceedings from the 25th Biennial Asian Association for Biology Education Conference. It clarifies the differences between the structure of biology education for educators and researchers. It solves open problems by creating a bridge between biological research and its application in education and the sustainable development of communities. The book's first topic is Biology Education in an X, Y, Z World, which provides ideas for how biology can be taught in innovative ways. The second topic, The Endangered Planet - How can Biology Education Help? discusses how humans depend on other species for survival and how they have the power to cause or to prevent extinctions. The third and final topic, Research in Biology, encompasses the growing wealth of biological information resulting from scientific research, especially in universities. Educators can use these findings to enhance their teaching.

Torture and the Ticking Bomb Bob Brecher, 2017-04-24 This timely and passionate book is the first to address itself to Harvard Law Professor Alan Dershowitz's controversial arguments for the limited use of interrogational torture and its legalisation. Argues that the respectability Dershowitz's arguments confer on the view that torture is a legitimate weapon in the war on terror needs urgently to be countered Takes on the advocates of torture on their own utilitarian grounds Timely and passionately written, in an accessible, jargon-free style Forms part of the provocative and timely Blackwell Public Philosophy series

Coming Up Short Alicia Haydock Munnell, Annika Sunden, 2005-01-27 In this book, two experts on retirement policy analyze 401(k) plans, the fastest-growing type of employer-sponsored pensions and a vital source of retirement income for the American middle class.

Methods and Strategies of Process Research Cecilia Alvstad, Adelina Hild, Elisabet Tiseli, 2011-07-20 The volume includes contributions on the cognitive processes underlying translation and interpreting, which represent innovative research with a methodological and empirical orientation. The methodological section offers an assessment/validation of different time lag measures; discusses the challenges of interpreting keystroke and eye-tracking data in translation, and triangulating disfluency analysis and eye-tracking data in sight translation research. The remainder of the volume features empirical studies on such topics as: metaphor comprehension; audience perception in subtitling research; translation and meta-linguistic awareness; effect of language-pair specific factors on interpreting quality. A special section is dedicated to expertise studies which look at the link between problem analysis and meta-knowledge in experienced translators; the effects of linguistic complexity on expert interpreting; strategic processing and tacit knowledge in professional interpreting. The volume celebrates the work of Birgitta Englund Dimitrova and her contribution to the development of process-oriented research.

Macao and U.S.-China Relations Yufan Hao, Jianwei Wang, 2010-12-22 Macau and U.S.-China Relations explores the economic and political growth of Macau during the 20th century in which it evolved from a minor colonial power to an important global player, especially in regards to Sino-American relations and Chinese foreign policy. The essays focus on Macau's enhanced international profile is a result of rapid economic development, the unique 'one country, two system' administration in place, and the complicated relationship that Macau maintains between China and the United States.

Urology & Nephrology Bernard L Schwartz, 2002-05 PDR eMedguides are clear and concise internet navigational directories designed to lead physicians directly to websites that have been reviewed by peer leaders and professionals in various medical specialties. Each guide focuses on a single specialty and reviews over 1600 related websites. Unlike search engines, eMedguides list only authoritative sites that offer useful professional content. eMedguides reviews are posted and continuously updated at www.emedguides.com, where you can easily click directly to any website reviewed.

Harry Truman's Excellent Adventure Matthew Algeo, 2011 From Missouri to New York and back again, this work chronicles the amazing road trip of a former president and his wife and their amusing, failed attempts to keep a low profile.
