*Beyond Eureka!* Marylène Delbourg-Delphis,2024 This tour-de-force of the history of the implementation of innovation seeks to address one of the biggest problems faced by entrepreneurs and corporate executives alike: the conflation of entrepreneurship with innovation. They are not the same, and they each come with their own challenges and opportunities. Starting a business is not the same as innovating a new product or service. Many books explain how to pitch, start and scale a company, as well as how to structure engineering, product, sales, marketing, and financial departments. It's implied that the company has a product or a service that has enough differentiators for the organization to succeed in the marketplace and that its founders and teams will thereby automatically be perceived as innovators. People get their understanding of what innovating means from various informal and formal sources, but it's when they get into creating something novel, whether a new product, conceptual breakthrough or business model, that they truly begin to reflect on what they thought they knew. It is then that they often become confused by the conventional wisdom. Silicon Valley pioneer and serial entrepreneur Marylene Delbourg-Delphis answers the most important questions about innovation that she has been asked by other founders and CEOs over the years. Packed with the benefits of hands-on experience, historical knowledge, and conceptual analysis, this book is a critical foundation for innovators, whether entrepreneurs or the strategic leadership teams of established companies, including heads of sales, marketing, operations, and product development--

**Immigration Detention in the European Union** Izabella Majcher,Michael Flynn,Mariette Grange,2020-03-04 This book offers a unique comparative assessment of the evolution of immigration detention systems in European Union member states since the onset of the “refugee crisis.” By applying an analytical framework premised on international human rights law in assessing domestic detention regimes, the book reveals the extent to which EU legislation has led to the adoption of laws and practices that may disregard fundamental rights and standards. While emphasizing policies and laws adopted in response to the “refugee crisis,” the volume also shows how these policies have evolved—and in many cases grown more restrictive—even as the “crisis” has begun to recede from the borders of many European countries. To sharpen awareness of contrasting developments across the region, the book’s country chapters are organised into geographic sections that reveal how variations in migration pressures have in some cases resulted in contrasting detention practices even as the EU directives have sought to harmonise immigration laws. A critical focus of the book are the evolving domestic norms related to grounds for detention, length of detention, non-custodial alternatives to detention, the treatment of children, and conditions of detention. With its systematic and comparative assessment of immigration detention regimes across the EU, the book will be helpful for both academics and practitioners who seek a comprehensive guide to the evolution of one of today’s more important human rights dilemmas—states’ efforts to control global migration.

*Novas Fronteiras Do Sistema Financeiro Nacional V. 1*, Com recorte em torno de atividades econômicas reguladas pelo Banco Central do Brasil (BCB) ou pela Comissão de Valores Mobiliários (CVM), no livro *Novas Fronteiras do Sistema Financeiro Nacional – v. 1*, apresenta-se conhecimento organizado a respeito da influência que o uso intensivo de meios eletrônicos, mecanismos digitais e da internet vem promovendo no Sistema Financeiro Nacional. Na primeira parte da obra, há um estudo sobre a fundamentação da regulação do Sistema Financeiro Nacional e outro acerca da possibilidade de incremento da proteção de dados pessoais no Brasil em decorrência do funcionamento do Open Finance. Seis capítulos são dedicados ao mercado de pagamentos brasileiro, com apresentação de detalhado histórico de sua digitalização, de explicações para o sucesso do Pix, de reflexões sobre a necessidade de promoção de convergência entre esse meio de pagamento e a moeda, o Real Digital e os criptoativos. Nesse trecho, são feitas, também, análises comparativas das instituições de pagamento em relação às instituições financeiras, com ênfase no banco comercial em contraposição ao exame dos “bancos digitais” e “neobancos”, alegoricamente denominados por agentes de mercado. Adiante, debate-se a respeito da possibilidade de, de forma similar, utilizar-se do aparato tecnológico que vem sendo aplicado na atuação dos correspondentes bancários, para conectá-los aos agentes de crédito com o propósito de ampliar no Brasil a oferta de microcrédito para empreendedores. Quanto ao mercado de valores mobiliários, o enfoque é na atuação dos fundos de investimentos em direitos creditórios (FIDCs), dos educadores financeiros e dos influencers digitais. Em relação aos FIDCs, reflete-se sobre a não obrigatoriedade de ele exigir de seus clientes a emissão escritural de duplicatas. No que se refere ao ensino voltado à realização de investimentos em valores mobiliários, ofertado por meio de plataformas digitais e sem a prévia autorização da CVM, analisa-se a possibilidade de se considerar regular o seu exercício, se não houver influência sobre a decisão do investidor em celebrar negócios envolvendo os referidos objetos. Na parte final, discute-se sobre a possibilidade de adoção da teoria da regulação responsiva para combater a prática do delito de lavagem de capitais com uso do Bitcoin. Assim, a leitura deste livro permitirá que se tenha uma visão ampla e aprofundada sobre como a elevada utilização de infraestruturas informatizadas tem influenciado a regulação estatal brasileira e como seus contornos têm fomentado no Brasil a constante criação de inovações tecnológicas aplicadas aos mercados financeiro e de pagamentos.

*The European Union and Sustainable Development* Alessandra Mignolli, 2018-11-15 The European Union has the ambition to be one of the largest markets and one of the most influential trade actors in the globalized economy, but also the mission to spread the values and principles at the foundations of the European integration process: democracy, the rule of law, respect and protection of human rights and fundamental freedoms, environmental protection and sustainable development. This twofold mission is at the origin of the measures which are the object of this book. The focus of the research is the role of the Union in pursuing sustainable development and human rights in third countries through unilateral trade instruments and applying different methods of regulation. The study is conducted against the background of international law and of the WTO rules on multilateral trade. It addresses the tension between unilateralism and multilateralism in EU policies for sustainable development, with a focus on the problematic issue of the extraterritorial reach of EU measures.

*Everyday Law for Individuals with Disabilities* Ruth Colker, Adam A. Milani, 2015-11-17 If you are an individual with a disability and believe you have been discriminated against, it is often hard to find a lawyer to help remedy your situation. Accordingly, 'self-help' may often be your most, or your only, viable strategy. But how to proceed? This book serves as a badly needed practical guide to disability discrimination law. Covering a wide range of issues faced by individuals with different kinds of disabilities, it not only describes those individuals' legal rights but also suggests solutions to disability discrimination issues that are more practical and less expensive than filing a lawsuit. Written by two disability law experts, Ruth Colker, whose son is developmentally disabled, and Adam Milani, who is paralyzed from the chest down, this book is informed by their scholarly expertise but is also based on their collective practical experience from years of navigating issues of disability discrimination. *Everyday Law for Individuals with Disabilities* is the first in a series of practical guides to the law, organized by series editors Richard Delgado and Jean Stephancic, packed with useful overviews and advice for the people who need it most and can least afford it.
