**Against Religion, Wars, and States** Andrew Fiala, 2013-08-15 Andrew Fiala's *Against Religion, Wars, and States: The Case For Enlightenment Atheism, Just War Pacifism, and Liberal-Democratic Anarchism* argues that we need to overcome the idea of the nation-state and look toward global justice, that we need to develop a more critical stance toward religion while embracing enlightened humanism and natural science, and that we need to look beyond violent solutions to social problems in order to build world peace.

**The EU-NATO Relationship** Martin Reichard, 2016-02-17 The EU-NATO relationship continues to develop at a time of significant change for both organizations. Post 9/11, NATO embarked on a fundamental transformation, recasting itself as an organization with global strategic reach and interest, focused less on Europe than ever before. At the same time, the EU is also becoming a more global political actor. Consequently, there is growing evidence that over time the EU will take the primary place in providing military security in Europe. This volume combines political and legal

methods to provide a comprehensive analysis of the current and likely future relationship between the EU and NATO. The work will be of interest to all those interested in the development of these two major organizations and international security more generally, whether from a political or legal perspective.

### **London's Women Artists, 1900-1914 Mengting**

Yu,2020-09-16 Drawing on untapped archives, as well as aggregating a wide range of existing published sources, this book recalibrates the understanding of women artists' roles, outputs and receptions in London during what was indubitably a vibrant and innovative period in the history of British art, and in which the work of their male contemporaries is so well understood. The book takes its starting point from Alicia Foster's article "Gwen John's Self-Portrait: Art, Identity and Women Students at the Slade School," published in 2000, where the expression "a talented and decorative group" was coined to describe common attitudes towards women artists in the late 19th and early 20th century London. This pejorative attribution strongly implied a status less significant to that of their male counterparts. The author challenges this statement's basic tenet by casting a wide net in examining women's art education from the Slade School of Fine Art, through

to the role of its graduates within a selection of London's exhibition groups, societies and publications. This book also reconstructs 'from scratch' the role of the Women's International Art Club (WIAC), hitherto entirely overlooked in art historical studies of the era. This book will be of interest to students and researchers in art and cultural history, gender studies, and in sociological studies of pre-War World War Britain.

**The Praeger Handbook of Education and Psychology** Raymond Horn, Joe Kincheloe, 2006-12-30 Cognition, mind, counseling psychology, lesson plans, learning styles, and Vygotsky are just a few of the many subjects discussed in this exciting work. Educators, students, counselors, parents, and others will find new understanding as they read and browse. How does the immigrant experience affect student outcomes? What are the effects of poverty on standardized testing? How can a teacher or parent develop study skills in the special needs learner? What is the effect of the school environment on students? What are the larger issues at work in educating students of diverse races, cultures, and classes. This work, a rethinking of school psychology, will be an essential resource for anyone who is interested in teaching and learning. It combines effective, traditional knowledge with

contemporary insights into the nature of today's schools and students.

India in a globalized world Sagarika Dutt,2013-07-19 This book looks at India in the context of a globalized world. It starts by looking at the history of Indian civilization, exploring the roots of

Indian identity and highlighting processes such as foreign invasions, foreign trade, cultural imperialism, colonial rule and the growth of Indian nationalism. The book examines the gradual democratization of Indian politics. Cultural and ethnic divisions in Indian society are examined in depth, as are the problems that have prevented economic development and stood in the way of economic liberalization. The history of India's integration into the global economy is considered, and the opportunities available to the country in the early years of the 21st century are detailed. The final chapters consider the Indian government's perception of the Indian diaspora, as well as the changing priorities reflected in India's foreign policy since 1947.

*Transparency and Proportionality in the Schengen Information System and Border Control Co-operation* Stephen

Karanja, 2008-10-29 This volume offers an evaluation of the Schengen Information System and border control co-operation from a transparency and proportionality perspective. It also incorporates a legal descriptive analysis of the co-operation in order to accommodate the changes and developments that occurred during the writing period. The transparency and proportionality perspectives are developed from human rights and data protection

criteria. Transparency is understood as knowledge and accessibility to legal information as well as openness and accountability. On the other hand, proportionality is a requirement for guidance, balance and justification as well as a need to avoid excessiveness and arbitrariness in border control work. The final findings reveal that the Schengen co-operation suffers from a deficiency of transparency and proportionality. Consequently, measures are proposed to augment the deficiency. Even as this study was reaching its conclusion, fundamental legislative changes, closely similar to some of the arguments and recommendations projected in this study, took place. The efficacy of these changes is yet to be discerned.

*Mirror of Morality* Julia K. Murray,2007-01-31 *Mirror of Morality* takes an interdisciplinary look at an important form of pictorial art

produced during two millennia of Chinese imperial rule. Ideas about individual morality and state ideology were based on the ancient teachings of Confucius with modifications by later interpreters and government institutions. Throughout the imperial period, members of the elite made, sponsored, and inscribed or used illustrations of themes taken from history, literature, and recent events to promote desired conduct among various social groups. This dimension of Chinese art history has never before been broadly covered or investigated in historical context. The first half of the study examines the nature of narrative illustration in China and traces the evolution of its functions, conventions, and rhetorical strategies from the second century BCE through the eleventh century. Under the stimulus of Buddhism, sophisticated techniques developed for representing stories in visual form. While tracing changes in the social functions and cultural positions of narrative illustration, the second half of the book argues that narrative illustration continued to play a vital role in elite visual culture.

The Culture of Knitting Joanne Turney, 2009-08-01 From booties and scarves to art and fashion, *The Culture of Knitting* addresses knitting as art, craft, design, fashion and performance, and as an aspect of the everyday. Drawing on a variety of sources, including interviews with knitters from different disciplines as well as amateurs, the text breaks down hierarchical boundaries and stereotypical assumptions that have previously negated the academic study of knitting. The book also highlights the diversity and complexity of knitting in all its guises. *The Culture of Knitting* investigates not merely why knitting is so popular now but also the reasons why knitting has such longevity. By assessing the literature of knitting, manuals, patterns, social and regional histories, alongside testimonial discussions with artists, designers, craftspeople and amateurs, the book offers new ways of seeing

and new methods of critiquing knitting - without the constraints of disciplinary boundaries - in the hope of creating an environment in which knitting can be valued, recognized and discussed.

**TheTimingOfGodsVisitation\_978-1-4866-2411-9\_EPUB** Cliff K.K. Lun;Ph.D.,2023-09-11 Was Jesus really born on December 25 or January 6? When was Jesus's true birthday? When did he come into the world as the Lamb of God during his first visitation? According to Luke, Jesus was born in 2 B.C. Was Luke wrong in saying that Quirinius took his first census that year? Did Luke actually mean to say that Quirinius took the census in 6 A.D., being the governor of Syria? What political role did the Romans play in Judea in the years prior to Jesus's birth? How did Herod, a non-Jew, take the Judean kingdom and become the king of the Jews? What kind of a king was he? When did Herod die? Are we living in the end-times? How will we recognize Jesus at his second visitation, when he comes again as the Lion from Judah? What will happen to the world during these end-times? This book seeks answers to the above questions, and many others. Bio: Cliff K.K. Lun joined the faculty of Engineering of Dalhousie University in 1988 as an assistant professor, tenured in 1991, and became an associated professor in 1997. He has practiced his engineering

problem-solving skills and research for more than thirty-three years. He has made tangible and significant contributions to science and engineering in the development of numerical simulations of fluid-solids flows and the kinetic theory of rapid granular flows. His pioneering work in the kinetic theory of fluid-solids flows has been published in peer-refereed journals, featured in a number of textbooks, and adopted in industrial computational fluid dynamics software packages. *The Timing of God's Visitations: Lion and Lamb* is the product of his quest for answers regarding the Jewish culture and political backdrop during the few decades surrounding Jesus's first visitation to the world as the Lamb of God, the actual date of his birth, the destruction of the second temple in 70 A.D., the second Jewish revolt in 132 A.D., and the coming events pertaining to Jesus's second visitation as the Lion from Judah.

Articles of Faith Ronojoy Sen,2018-10-16 Examining the constitutional and legal foundations of the place of religion in India, Articles of Faith studies the relationship between religion and state. It closely analyses the decisions of the Supreme Court from the 1950s on Articles 25–30 of the Indian Constitution, as well as other relevant laws and constitutional provisions. The book discusses the Supreme Court’s interpretation of the constitutional right to freedom of religion and its influence on the discourse of secularism and nationalism. While examining the role of the Court in defining and demarcating religion as well as religious freedom, practices, and organizations, this volume also highlights important issues such as interpretative traditions and legal doctrines developed by the

judiciary over the years. This new edition has an expanded and revised introduction, which looks at the new literature on secularism and religious jurisprudence, both in India and other secular democracies. It also includes an afterword, which examines recent landmark judgments on religion by the Supreme Court of India, such as the one on triple talaq.
