From Africa to the Heart of the GOP David O. Agbeti, 2005 This book is a true account of the events on a long ago night when two angels from heaven visited me. It is the story of that angelic encounter as I experienced it. It happened many years ago, but the impressions are still vivid in my memory. It was not a fleeting glimpse of ethereal beings clothed in cloudy mist. Those angels were real. If seen from a distance they probably would have seemed like ordinary men. Close up, however, no one could have mistaken them for men. Anyone would have known they were angels who had come down from heaven. During their first appearance, it seemed to me their speech to me lasted a long time. In retrospect that time period probably could have been measured in minutes. That is true even though they seemed like very long minutes. They were silent during their brief second appearance; albeit puzzled and inquisitive. These angels had about them a mysterious air of another world. They stood in front of my chair, in my living room with an indescribable and lofty majesty. Their posture and demeanor spoke of another sphere of existence. A sphere about which writers have speculated for thousands of years. They somehow reeked of an indescribable physical and mental power that was beyond my comprehension. My initial reaction was fright. A fright so great it overwhelmed my senses. I thought they had come to kill me. That was a certainty in my numbed mind. That fear quickly became life threatening. I did not know it at the time but their actions and speech would be forever impressed on my memory. During their first visit, they were extremely anxious to reassure me. They did not wish me to fear them. Their speech was sympathetic and reassuring. They told me they had not come to injure me in any way. They then explained the reason for their intrusion into my presence.

Nothing that I have found anywhere in literature, except perhaps the bible, tells a similar story. My personality underwent a complete change that night. The brief account of that experience is now told for the first time in the 40 years since that encounter.

Netherlands Yearbook of International Law - 2003 Niels M. Blokker,N. J. Schrijver,2011-01-07 Two major factors brought about the establishment of the Netherlands Yearbook of International Law in 1970: demand for the publication of national practice in international law, and the desirability for legal practitioners, state representatives and international lawyers to have access to the growing amount of available data, in the form of articles, notes etc. The Documentation section contains an extensive review of Dutch state practice from the parliamentary year prior to publication, an account of developments relating to treaties and other international agreements to which the Netherlands is a party, summaries of Netherlands judicial decisions involving questions of public international law (many not published elsewhere), lists of Dutch publications in the field and extracts from relevant municipal legislation. Although the NYIL has a distinctive national character it is published in English, and the editors do not adhere to any geographical limitations when deciding upon the inclusion of articles.

European Integration and the Nationalities Question John McGarry,Michael Keating,2006-09-27 A highly topical examination of the effect of European integration on relations between states and minority nations. This new collection brings together the leading specialists in the field, and covers a wide range of cases, from Northern Ireland in the West, to Estonia and Latvia in the East, and Cyprus in the South-East. The contributors assess how European integration has affected the preparedness of states to accommodate minorities across a range of fundamental criteria, including: enhanced rights protection;

autonomy; the provision of a voice for minorities in the European and international arena; and the promotion of cross-border cooperation among communities dissected by state frontiers. The comprehensive chapters stress the importance of the nationality question, and the fact that, contrary to the hopes and beliefs of many on the left and right, it is not going to go away. Beginning with an introductory essay that summarizes the impact of European integration on the nationalities question, this accessible book will be of strong interest to scholars and researchers of politics, nationalism, ethnic conflict and European studies.

The US Foreign Policy in the Horn of Africa Rachid Mohamed Youssouf, 2023-04-15 From the historical perspective, the Cold War can be regarded as an extension and continuation of colonialism via different means. The tools and methods that the superpowers, as well as local allies used, were in many ways similar to those desired during the last stage of European colonialism: gigantic economic and social projects, the promises

of progress and modernization to the supporters, and almost death to the opponents or those who dare to step on the way of progress. The tragedy of the history of the Cold War in general and of the Cold War in the countries of the Third World, in particular, showed that two historical projects were originally anti-colonial, however, at last, they became the part of significantly older domination pattern, due to intensity and severity of the confrontation, as well as the high stakes they considered were involved and practically apocalyptic fear of the situation when the opponent wins. In other words, even though both Soviet Union and the United States opposed colonialism and its reflections, they practically did the same in their own version of modernity, like their predecessors (for instance, France and Britain with their colonial projects of the 19th and 20th centuries). These methods were focused on implementing ecological, demographic, and cultural change in the societies of the Third World while utilizing military power to defeat the states that dare to resist.

ABOUT THE AUTHOR MOHAMED YOUSSEF Rachid, was born on a grey morning under the blazing sun of a hot summer in Djibouti city in 1990. Animator, investigative journalist, essayist of the new independent media of the Horn of Africa called The Voice of Djibouti (LVD), the author has a passion for the issue of foreign policy, authors and historians of the Horn of Africa and began his socio-political commitment very early thanks to these different courses and his tours in West Africa. Greatly interested in the world of literature, foreign civilization and international relations, the Djiboutian enarque is guided by his pen through which he tries to rediscover the history of the Horn of Africa; the issue of geopolitics, post-colonial recomposition and the reconquest of Islam in these lost territories. Animator of political programs, former head of programming, much sought after by international or regional media such as "bbc, voa" ...

Twenty Lectures on Algorithmic Game Theory Tim Roughgarden, 2016-08-30 Computer science and economics have engaged in a lively interaction over the past fifteen years, resulting in the new field of algorithmic game theory. Many problems that are central to modern computer science, ranging from resource allocation in large networks to online advertising, involve interactions between multiple self-interested parties. Economics and game theory offer a host of useful models and definitions to reason about such problems. The flow of ideas also travels in the other direction, and concepts from computer science are increasingly important in economics. This book grew out of the author's Stanford University course on algorithmic game theory, and aims to give students and other newcomers a quick and accessible introduction to many of the most important concepts in the field. The book also includes case studies on online advertising, wireless spectrum auctions, kidney exchange, and network management.
