Good Governance, Scale and Power Liza Griffin, 2014-11-13 In recent years there have been several alarming predictions about the future of the planet’s fish stocks. As a result, many national governments and supranational institutions, including the European Union, have instituted reforms designed to mitigate the crisis. This book examines the discourse and practice of ‘good governance’ in the context of fisheries management. It starts by examining the ‘crisis’ of fisheries in the North Sea, caused primarily by overfishing and failure of the European Union’s Common Fisheries Policy. It then goes on to analyse reforms to this policy enacted and planned between 2002 and 2013, and the proposition that collapse of fish stocks could occur as a result of deficiencies in new governing arrangements, i.e. failure to apply ‘principles of good governance’. The book argues that impediments to good governance practice in fisheries are not merely the result of implementation deficits, but that they constitute a more systematic failure. Governance theory addresses issues of power, but it does not recognise the many important spatially contingent and relational forms of power that are exercised in actual governing practice. For example, it frequently overlooks spatial practices and strategies, such as ‘scale jumping’, ‘rescaling’ and the discursive redrawing of governing boundaries. This book exposes some of these spatial power relationships, showing that the presence of such relationships has implications for accountability and effective policymaking. In sum, this book explores some of the ways in which we might better understand governance practice using theories of scale and relational concepts of power, and in the process it offers a critique and rethinking of governance theory. These reflections are made on the basis of an in-depth case study of the attempted pursuit of ‘good governance’ in the European Union via institutional reforms, focusing particularly on the thorny and fascinating case of North Sea fisheries management.

This book has outlined an emerging concept of some considerable significance, interculturalisation, from a variety of contemporary perspectives, and indicated its conceptual potential in understanding the impact of higher education on globalisation, internationalisation and the knowledge economy.

Patología anorrectal CGM 02, No. 01 Juan Miguel Abdo Francis, Federico Roesch Dietlen, Antonio de la Torre Bravo, Francisco Javier Bosques Padilla, Luis Charúa Guindic, 2023-12-04 Comprometido con uno de los principales objetivos de la Asociación Mexicana de Gastroenterología, que es la difusión y el fomento de la gastroenterología en nuestro país, y cumpliendo con uno de los compromisos académicos que propuse al tomar la presidencia de dicha Asociación, el continuar con la publicación de las Clínicas de Gastroenterología de México, iniciada por el Dr. Juan Miguel Abdo Francis en 2007, nos reunimos con el Comité Editorial de estas Clínicas y se propusieron los temas para los próximos seis números de esta colección, así como los distinguidos colegas que serían los editores invitados a coordinar cada una de ellas. La publicación de este libro tiene la finalidad de proporcionar una fuente de consulta fácil y accesible para el estudiante, el médico general, el gastroenterólogo, el endoscopista, el cirujano general y todo aquel médico poco familiarizado con la patología anorrectal; para el coloproctólogo, poder comparar la experiencia propia con la ajena. En esta obra se seleccionaron los temas que representan la patología anorrectal más común, la que día a día enfrenta el coloproctólogo. Se procuró dar claridad y sencillez en los textos, sobre todo utilidad práctica. En algunos capítulos se incluyen conceptos de orden teórico más que práctico, con la finalidad de que los conocimientos adquiridos sean aplicables al diagnóstico y el tratamiento. Agradezco a los colaboradores que han dado su tiempo y compartido sus experiencias sin afán económico alguno.

Fertile Bonds Suzanne E. Joseph, 2017-01-10 Provides rich new ethnographic material on a little-known population, the Bedouin of the Bekaa Valley in Lebanon. It positions such marginal populations in the broader theoretical context of modernization and health and demographic transitions.--Allan G. Hill, Harvard University With an average of over nine children per family, older cohorts of Bedouin in the Bekaa Valley of Lebanon have one of the highest fertility rates in the world. Many married couples in this pastoral community are close relatives--a socially advantageous practice that reflects the deep value Bedouins place on kinship. To outsiders, such family norms can seem disturbing, even premodern. They attract assumptions of Arab backwardness, poverty, and sexism. Remarkably, *Fertile Bonds* flips these stereotypes. Anthropological demographer Suzanne Joseph shows that in this particular group, prolific birth rates coincide with moderate death rates and high levels of nutrition. Despite broader class differences between Bedouins and peasants, members of Bekaa Bedouin society rely heavily on kinship ties, sharing, and reciprocity and experience a high degree of social and demographic equality. This story, unfamiliar to many, is one that is fading as traditional nomadic livelihoods give way to encapsulation within the state. With the help of this surprising, nuanced study--one of the first of its kind in the Middle East--knowledge of such marginalized pastoral groups will not vanish with the disappearance of their way of life. Joseph’s book expands our understanding of peoples far removed from consolidated government control and provides a broad analytical lens through which to examine demographic divides across the globe. .

Henry Friendly, Greatest Judge of His Era David M. Dorsen,2012-03-27 Henry Friendly is frequently grouped with Oliver Wendell Holmes, Louis Brandeis, Benjamin Cardozo, and Learned Hand as the best American jurists of the twentieth century. In this first, comprehensive biography of Friendly, David M. Dorsen opens a unique window onto how a judge of this caliber thinks and decides cases, and how Friendly lived his life. During his time on the Court of Appeals for the Second Circuit (1959–1986), Judge Friendly was revered as a conservative who exemplified the tradition of judicial restraint. But he demonstrated remarkable creativity in circumventing precedent and formulating new rules in multiple areas of the law. Henry Friendly, Greatest Judge of His Era describes the inner workings of Friendly’s chambers and his craftsmanship in writing opinions. His articles on habeas corpus, the Fourth Amendment, self-incrimination, and the reach of the state are still cited by the Supreme Court. Dorsen draws on extensive research, employing private memoranda between the judges and interviews with all fifty-one of Friendly’s law clerks—a veritable Who’s Who that includes Chief Justice John R. Roberts, Jr., six other federal judges, and seventeen professors at Harvard, Yale, Stanford, and elsewhere. In his Foreword, Judge Richard Posner writes: “David Dorsen has produced the most illuminating, the most useful, judicial biography that I have ever read . . . We learn more about the American judiciary at its best than we can learn from any other . . . Some of what I’ve learned has already induced me to make certain changes in my judicial practice.”
