Power and Justice in Medieval England Joshua C. Tate, 2022-04-12 How the medieval right to appoint a parson helped give birth to English common law Appointing a parson to the local church following a vacancy—an “advowson”—was one of the most important rights in medieval England. The king, the monasteries, and local landowners all wanted to control advowsons because they meant political, social, and economic influence. The question of law turned on who had the superior legal claim to the vacancy—which was a type of property—at the time the position needed to be filled. In tracing how these conflicts were resolved, Joshua C. Tate takes a sharply different view from that of historians who focus only on questions of land ownership, and he shows that the English needed new legal contours to address the questions of ownership and possession that arose from these disputes. Tate argues that the innovations made necessary by advowson law helped give birth to modern common law and common law courts.

China's Naval Power Yves-Heng Lim, 2016-05-23 The rapid modernization of the Chinese Navy is a well-documented reality of the post-Cold War world. In two decades, the People's Liberation Army Navy has evolved from a backward force composed of obsolete platforms into a reasonably modern fleet whose growth is significantly shaking the naval balance in East Asia. The rationale behind China's contemporary rise at sea remains, however, difficult to grasp and few people have tried to see how the current structure of the international system has shaped Chinese choices. This book makes sense of Chinese priorities in its naval modernization in a 'robust' offensive realist framework. Drawing on Barry Posen's works on sources of military doctrine, it argues that the orientation of Beijing's choices concerning its naval forces can essentially be explained by China's position as a potential regional hegemon. Yves-Heng Lim highlights how a rising state develops naval power to fulfil its security objectives, a theoretical perspective that goes farther than the sole Chinese case.

Return of the Dragon Denny Roy, 2013-06-25 Through a careful consideration of historical factors and raw data, Denny Roy examines the benefits and consequences of a more politically, economically, and militarily potent China. Since China's sphere of influence encroaches on the autonomy of regional states, its attempts to increase its security have diminished the security of its neighbours.

Qiaowu James Jiann Hua To, 2014-05-15 Qiaowu: Extra-Territorial Policies for the Overseas Chinese is a comprehensive analysis of the rival policies and practices of the Chinese Communist Party, Nationalist Kuomintang and Democratic Progressive Party governments of Taiwan concerning strategic cohorts of the Chinese diaspora.

China's Strategic Competition with the United States Russell Ong, 2011-10-20 This book examines the transformation and the multifaceted nature of the relationship between US and China in the post-Cold War era. It examines their nature and implications of their strategic competition in military, political and economic terms, as well as in relation to Taiwan, Japan, the Korean peninsula and Central Asia; the author argues that both powers compete in virtually every sphere in the international system; their relationship is overall competitive rather than co-operative, even in areas that are amenable to co-operation such as trade and nuclear non-proliferation. The book addresses important questions including: does China's growing power and influence unavoidably come at the expense of the United States or the wider world? And asks to what extent do the national interests and policies of the United States and China coincide or diverge on a host of regional issues? It covers all the important issues including politics, security, nuclear deterrence, military modernization, energy, trade and economic interaction, and Asia-Pacific power reconfiguration.

Why Taiwan? Geostrategic Rationales for China's Territorial Integrity Alan M. Wachman, 2008 Why has the PRC been so determined that Taiwan be part of China? Why, since the 1990s, has Beijing been feverishly developing means to prevail in combat with the U.S. over Taiwan's status? Why is Taiwan worth fighting for? To answer, this book focuses on the territorial dimension of the Taiwan issue and highlights arguments made by

PRC analysts about the geostrategic significance of Taiwan, rather than emphasizing the political dispute between Beijing and Taipei. It considers Beijing's quest for Taiwan since 1949 against the backdrop of recurring Chinese anxieties about the island's status since the seventeenth century.

Chinese Constructions of Sovereignty and the East China Sea Conflict Czeslaw Tubilewicz, 2019-08-21 This book analyses Chinese social constructions of sovereignty in the context of the East China Sea conflict. It specifically explores China and Taiwan's overlapping cross-strait sovereignty claims and their domestic debates and policies towards the territorial dispute. Providing an up-to-date discussion of the East China Sea conflict, the book challenges conventional assumptions regarding both Beijing's and Taipei's adherence to the classical notion of Westphalian sovereignty. Instead, it brings China and Taiwan into the Constructivist analytical framework and develops a domestic agency-focused approach to demonstrate the social power of ideas and the centrality of domestic actors in the production of sovereignty. Offering a comprehensive examination of Chinese, Taiwanese, Japanese and US responses at the domestic and international levels, the book studies the sovereignty narratives and the coordination of efforts made by the PRC and ROC authorities to counter Japan's territorial claims in the East China Sea. Featuring extensive analysis of the conceptual approaches to understanding Chinese sovereignty, *Chinese Constructions of Sovereignty and the East China Sea Conflict* will be useful for students and scholars of Chinese and Asian politics, as well as international relations and security studies.

Advocacy in Conflict Alex de Waal, 2015-05-14 Conflicts in Africa, Asia and Latin America have become a common focus of advocacy by Western celebrities and NGOs. This provocative volume delves into the realities of these efforts, which have often involved compromising on integrity in pursuit of profile and influence. Examining the methods used by Western advocates, how they relate to campaigns in the countries concerned, and their impact, expert authors evaluate the successes and failures of past advocacy campaigns and offer constructive criticism of current efforts. Taking in a range of high-profile case studies, including campaigns for democracy in Burma and Latin America, for the rights of Palestinians in Gaza, and opposing the Lord's Resistance Army in Uganda, the authors challenge the assumptions set forth by advocacy organizations.
